Absolute Doubt

Cherry Adair

Absolute Doubt Cherry Adair
In a situation this volatile, something is bound to blow!

Three...

T-FLAC operative Asher Daklin is running out of time in his race to end the production and sale of the world's most deadly explosive before a cataclysmic terrorist event occurs. This op isn't just his last chance at redemption, it's deeply personal. Because of him, E-1x took his brother's life and nearly incapacitated him. Now, with the timer counting down the remaining hours, he has to go deep under cover at the home of the mastermind producing the deadly explosive and stop him. Daklin can't allow anything, or anyone, to distract him from his mission.

Two...

Lingerie designer River Sullivan is on a mission of her own—to find her genius brother. When millions of dollars are inexplicably wired to her account she knows he's trouble. Traveling to the small mining town of Los Santos, situated in the mountainous jungles of Cosio, she accepts the hospitality of her brother's employer and searches for clues as to Oliver whereabouts. If only she wasn't overcome with inappropriate lust for one of the other house guests- a gorgeous bishop with a warrior's body and laser-sharp eyes that hint at deep, dark secrets.

One!

River and Daklin find themselves in a race against time, hampered by staggering odds and overwhelming desire. Daklin has one final, desperate chance to prove himself, keep River safe, and save the day...

Bobbie says

Fantastic!

Love, loved this book. It has been awhile since I have read a book this heart pounding! Read it all in one sitting which meant I sat for hours. Couldn't move, couldn't breathe half the time because it is fast paced, adventurous and oh so much fun.

Linda says

We finally have another T-Flac book! We meet Daklin, our T-Flac operative, as he's trying to get to his brother, Josh. After Josh's death, he falls into alcohol to take away his pain and grief. Then he goes on an op to Los Santos. This is where he meets River. The world is about to be blown apart by a new explosive called E-1x. It's being mined out of an emerald mine. There's a lot of action and excitement happening in the book. And we always have a bit of wild monkey sex! We learn a lot from Daklin as he tries to save the world, knowing that he probably won't survive. but River is there to kick his butt into gear! This is another great book from Cherry Adair. I love it! Now for the wait until we get our next T-Flac book. this is a voluntary review of an advanced copy

Theresa Hurley says

Great story - love all T-Flac agents! Can't wait for more in this series!

Jan says

Cherry Adair is back with a bang. I loved this book so much. Everything about this book is explosive. I am so in love with Asher. A man with a death wish who defuses bombs. River, who is having unsavoury thoughts about a bishop named Asher, is a lingerie designer, looking for her missing brother. A jungle in South America, and you have fireworks in more ways than one. Evil in the air, a T-Flac op in full mode, and one ducks when the shit hits the fan. Love. Love. Love. Hooked from page one, right to the end. A must read book!!! This is a three book series and need the second one now!

Who doesn't love a man who has flaws on his last leg?

A woman who stubborn and determined to find her brother, while everyone is trying to send back home to Portland. As Cherry did say, a Bishop and one lingerie designer what could possible go wrong? I am smiling to myself as I wrote that because with Cherry anything and everything and does.

Thank you again for the fun ride with twists and turns.

More Fallen T-Flacs operatives please. :)

Sue says

So happy T-Flac is back!!! Action, adventure, and of course wild monkey sex. Asher Daklin is a man fighting his demons and ready to give up until he meets River Sullivan.

Cherry Adair keeps you riveted with this story.

Cindy says

After her Genius Biochemist brother goes missing, River Sullivan travels to Cosio, S. A., looking for him. Undercover T-FLAC agent Asher Daklin and his team are in place to shut down a mine that produced a dangerous explosive. "Bishop" Daklin wants River to go home, but River won't leave without finding out what happened to her brother. Time is ticking, tension is high, attraction is as well. Cherry does it again. This book was a great read for me.

Rosemarie Grainer says

Very exciting adventure romance

Ash and River have it tough when they first meet at a terrorist's hacienda. Her brother is missing and she is very attracted to Ash who is masquerading as a Catholic bishop! She is a distraction that he doesn't need. Both of them have many issues to deal with. I loved the way this started. The action continued to build throughout the entire story. I enjoyed watching Ash and River grow and develop. The back-up characters were great too.

If you like your romance filled with deadly action and adventure, along with many steamy scenes and interesting characters, then you will like this one. There were some characters from previous T-FLAC books, but you don't have to read them first. It is a good introduction to the series. See what you think! Enjoy.

TJ says

3.5/5.0

The suspense was great, the romance not so much. No believable relationship, just sex.

LibraryLass says

3.5 stars

Madison Warner Fairbanks says

Absolute Doubt by Cherry Adair

Action, extreme adventure and romance. So much good stuff in this book.

A counter-terrorist organization against a sociopath. A hero and heroine who both are honorable, stubborn and loyal. And instantly attracted to each other.

Totally loved reading this book. It is part of a series, but absolutely can be read alone.

"She might be a lingerie designer, but she was as kick ass as they came."

Excerpt:

"I work for T-FLAC. It's a private counterterrorist organization. We go after the biggest and baddest tangos around the world."

"Sounds like a non-stick frying pan."

He smiled. "Terrorist Force Logistical Assault Command."

A counterterrorist operative. That made more sense than his being a bishop. "Is your name really Ash Daklin, or is that an alias?"

"When I build a legend, I stick as close to the truth as I can. That's my real name. Everyone calls me Daklin."

Excerpt From: Adair, Cherry. "Absolute Doubt."

Davia says

So glad T flac is back !

Been waiting forever for a new adventure and Cherry does not disappoint! Great characters super neat tie in to old characters and a good thrilling fast paced suspenseful read. I really liked the character Oliver who was very complex and brilliant. He made the story so.much richer due to his complexity. The love story was wonderful and hot. I love Cherry Adair books.

Jacquie Biggar says

There's a reason Cherry Adair is an automatic buy for many. She's a pro at creating unforgettable characters in seemingly impossible situations who manage to save the day and fall in love all while dodging bullets, wildlife, weather, and anything else she can think to throw at them!

I was hooked right from the start of this story. She rips the heart out of the lead character, Daklin, who loses his younger brother in horrible bomb blast.

He makes it his life's goal to stop those who make and produce this deadly weapon of destruction.

This book is a little racier than some of her earlier T-Flac stories, but has a strong plotline that allowed me to bypass those areas and keep reading.

I give Absolute Doubt 4 lovely stars

Diana Brown says

T-FLAC is finally back; explosions, hot hot guys, sex, and sick terrorists!!! Fast paced action, with cameos from previous books but it can be read as a stand alone book. River is a sexy but kick-ass heroine; Ash is a hot, angst-ridden hero who can't get over the death of his brother. The chemistry between these two sets the sheets on fire!

InD'tale Magazine says

If in the mood for a wild ride, this book is assuredly the one to choose!

Read full review in the 2017 February issue of InD'tale Magazine.

Selenity Jade (Coffee Addicts Book Reviews) says

Despite being slow to grab my interest, I did really enjoy this T-FLAC book. It's a slow start to a new series and definitely entertaining and sexy! Looking forward to the next book in the series.
