## **Cult of Beauty: The Secret Life of a Supermodel K.M. Dylan**

This scorching erotic memoir reveals the secret life of one of the world's most beautiful fashion models, as she falls for the wrong men (and women). The story begins in Paris when Katie Wolfer steps off the Dior runway and takes a call from her stepfather, Daniel de Goncourt. Her mother has committed suicide. Katie flees back to New York, where two men will loom large in her life—Gavin Poole, a hot, emerging fashion designer who doesn't like to commit, and her billionaire French stepfather, the magnetic Daniel. Katie becomes entangled with both of them, exploring her darkest sexual desires amidst a lavish, decadent lifestyle.

Katie's story will sweep you up in a world of beauty, sensuality and power. She is always in the crosshairs, seducing or being seduced. Thrilling, shocking and also thoughtful, this novel about a supermodel's sexual awakening is sure to arouse and intrigue you.

## **From Reader Review Cult of Beauty: The Secret Life of a Supermodel for online ebook**

### **Jaclyn House says**

OMG!!!!!! I just finished this book....I need a few days to recoup! First I need to take a cold shower, then take another, this book was scorching hot! Lets kick things off with Katie who is a model at the top of her game! She's fresh off the Dior runway when she finds out that her mom has died! All Katie has is her nymphomaniac friend Natasha, who is also a super hot model, her sexy stepfather Daniel and his two children, spoiled Caroline, and his checked out son, Ryan! While Katie is trying to sort her life out, she decides to stay with her step family and that's when it gets interesting!

Katie is a horn ball, I tell you it doesn't take much to get this girl horny. Katie and her step sister go out dancing and she gets hot and bothered, not to mention this attraction she has to her stepfather that she's trying to keep in check! She looks at someone is goes wet between the legs! If this book is any reflection on the real life of a model...WOW! Katie is HOT and I have to admit, she's my first book girlfriend! She has no inhibitions from walking around the house naked, to seducing any and everyone. The sex sciences in this book were like nothing I'd read before...um...gangbang, cocaine lines, I don't consider myself prude, but some of these scenes made me blush!

The book overall is pretty good, Katie is trying to figure out her life and has some "fun" along the way. And damn it just as the book is about to get really interesting....CLIFFHANGER!!!! iDied! I twitted the author about this, I need more, the book had just taken an unexpected turn and now I'm left hanging until book 2 comes out! I gave this book 4 stars, mostly because of the cliffhanger!

---

### **Karen says**

Don't judge this book by its cover. Cult of Beauty made me feel hot. And dirty. Almost to the point of distraction from the writing and the story.

Cult of Beauty is the story of Katie, a 22 year old supermodel who goes home to attend her mother's funeral. She is alone and without any close family. Katie is taken in by her step-father, Daniel. This is a fictionalized memoir, but the reading felt more like reality and I wondered where the lines were blurred. How much of this story was close to the raw reality of this life and lifestyle? If you like "light erotic", this is not for the faint of heart.

I was intrigued and pulled into this book, but I also kept feeling like I needed to turn away. Katie is on a sexual discovery involving everything from women, collage aged and older men. The secret life of a supermodel is very appropriate for the subtitle to this book. This story tells of the secret world of sex, money, fame. But also I felt that this story told of sexual cultures, norms and perceptions. It pointed out the differences between a more European view on sexuality versus a more conservative view other parts of the world may take. But, I felt that despite the view there was always an underlying curiosity.

I would have liked to have had more character development in Katie. While it was obvious she was intelligent, beautiful and living a lonely lifestyle, I didn't find a strong sense of her emotions in the writing.

Overall I found the author has a lot of talent for story-telling and has a beautiful mastery of words. While I am not a fan of F/F sexual situations or the ménage, this book definitely had the pages smoking. Keep in mind there is a definite distinction between erotic and romantic. This book is heavy on the former and it would be hard to call it a romance. So, just keep that in mind so that you know what you are getting with *Cult of Beauty*. I enjoyed the story and of course I was hooked and now will be waiting to find out what will happen next. Fair warning the ending left me hanging and shocked.

*Cult of Beauty* is a realistic fiction and solid erotic book. If you're a fan, or want to try something different than the typical romances, give it a try!! 3.5 ~Stars

### **Autumn Review says**

Where do I begin??? I honestly wasn't sure what to expect from this book. I knew going in that it was a fictionalized memoir, but it felt so real reading it. I had to take a few days before writing my review, because I was left a bit speechless. Also, I knew it was an erotic novel, but WOW! Let's just say my husband was really happy when I finished reading this one.

My perception of what life is like for a supermodel is based on what I've seen on tv or read in magazines. Sure, I appreciate beauty and think how great the traveling and clothes would be, but this book dove deeper into the reality of that lifestyle. This book is gritty, realistic, and a bit shocking. I don't know why I was surprised by some of the events, because I'm not an easily shocked person. None the less, I was.

One of the things I loved about the book was the relationship that Katie had with her stepfather. I know it may seem weird and when I was explaining the book to my husband, he was a bit repulsed, BUT I really like Daniel and I felt like he and Katie really did love each other. I think for Katie, Daniel was the most real person she had in her life. She has friends and lovers, but it seemed like she was most herself with him.

The sex was out of this world hot! I don't want to ruin the story, but I have to highlight a few scenes that made me melt. The first scene is between Katie and Gavin on the airplane on the way home from France. There were so many things that bothered me about the situation, but it was beyond hot. The second and probably the highlight of the sex scenes for me was a scene involving Gavin. He and Katie were having sex on the couch and Daniel was watching from the doorway. Seriously, I nearly lost it.

There were just a few things that affected my rating. The first few chapters felt a bit disjointed to me. The time sequence was awkward. The other thing was, I think I would have liked to have seen more of Katie's feelings. I would have liked to have gotten a better understanding about how she felt about losing her mother, her feelings for Daniel, and her lifestyle in general.

Overall, I really enjoyed it. While it has some disturbing moments, I felt sorry for Katie in a way. I know you must be thinking 'How can you feel sorry for a supermodel?' But, I did. Honestly, it seems like it could be a pretty lonely life. The ending shocked me. I truly wasn't expecting the book to end the way it did, but it certainly made me anxious for the next book! I have a few theories on where the story will go from here and I can't wait to see if I'm right.

If you are a fan of realistic fiction and erotica, you won't want to miss this book!

\*Side note: I don't often comment on covers in my reviews, but I have to say that this book needs a new cover. The photo is pretty, but overall a bit dull for this story.

### **Lauren at Live Read and Breathe Reviews says**

3.5 stars

I will admit if it wasn't for this tour I don't know if I would have picked it up but I am glad that I got the chance to read this.

This book definitely was an erotica novel with more sex than story. I do prefer when there is more substance and romance but this book did keep me on an erotic edge the whole way through.

The thing about this book was also Katie's lifestyle which is not the typical norm for most people so it was like being a voyeur into her life with the sex and lots of sex, drugs and a whole lot of dysfunction.

I knew she was getting turned on and sliming me, like a snail leaving its trail on a garden path, as she humped my hip. loc 328

In this little tale be forewarned that there is a load of sex and questionable choices and f/f, f/f/f, m/f, m/f/m and voyeurism.

I didn't know there was going to be more parts of this story until the crazy cliffhanger at the end. I was so shocked with that end and super sad because in a perverse way I was becoming Team Daniel.

All in all not my typical read but I was drawn in and was left wanting more so I will definitely be reading the next installment

### **Jillian (NetGalley Addict) says**

I was given a copy of this book for my honest review

To say this book was not my cup of tea would be a slight understatement, from the synopsis of the book I was expecting a great smut book. It started out interesting with Katie finding out her mother had died, she leaves the fashion show that had just ended and gets ready to fly home. She gets home and that's where the book lost me, she lusts after her dead mother's husband, then she proceeds to have sex with everyone. By everyone I mean her stepfather, stepsister, best friend's brother who we find out she hooked up with on the plane ride home and one of her stepfathers friends. All this would not have bothered me if there was an actual story behind it, Katie seems emotionless, she doesn't care that her mother is dead. She does drugs and seems ok with the fact that the men around her use her, none of the characters seem to have any emotions either. I honestly don't know what to make of this book, it's smut but for me it wasn't good smut.

---

### **NYFashionista says**

"Fifty Shades - I'm sorry you're out. Cult of Beauty - you're in" \*in my best Heidi Klum voice\*

This novel is the future of erotica and KM Dylan nailed it by writing a story that is so compelling and seductive that I was not able to put it down until I was done reading it - twice. If you enjoy novels that draw you into a world of explicit hot sex, beautiful models, fashion, drugs, and all the naughty things that are so bad that they're good, then this is the book for you. I'd describe it as an x-rated, grown-up version of Gossip Girl that has everything that 50 Shades was missing.

I'm a NY fashion editor for a well-known fashion magazine, and I'm pretty sure I know who the K M Dylan is... She was a major model in the 90s. Some of the erotic scenes in the story may be fantasy, but I wouldn't be surprised if a lot of it is based on her real-life experiences of wild parties, drugs and sexual experimentation - models' love lives can get out of hand! I also think Dylan has exquisite fashion sense and her book reflects a deep knowledge of the industry.

Unfortunately, the quick preview that Amazon offers barely provides a hint of what's to come in this captivating novel that has an ending that you would never see coming. The beginning sets up the main character Katie and her situation and quickly builds into a steamy story about a supermodel's wild sexual adventures as she falls into an erotic triangle with the wrong (or right depending on how you look at it) men and women.

K M Dylan- congratulations on writing a provocative and extremely erotic novel filled with great characters that I connected to immediately. I have not been drawn into a story in a very long time and counting down the days until the next installment is released.

---

### **K.M. Dylan says**

My first reviewer on Amazon (Literotica Fan) wrote:

Smart and Sexy

"Cult of Beauty" introduces us to Katie, a supermodel who's keenly attuned to her body and her desires, both

mental and physical. She's also smart, thoughtful and flawed. Katie struggles, as we all do, with the pull between what we want and what is "right," what is fun and what is dangerous, and it's a hell of a ride! Katie tells the story, and her voice is fresh, insightful, often cuttingly funny. The writing is gorgeous throughout, and the numerous sex scenes are rendered evocatively and make you forget you're reading a book--you feel like you're there, seducing or being seduced. The men in this story are HOT, whether you fancy a college boy or an older French gentleman; the women are just as luscious. And unlike some erotica, the plot actually goes somewhere and remains tense and exciting throughout the book. I loved being swept up into this world of power and beauty, one I don't normally get to see. Looking forward to more from this author.

---

### **Sugar and Spice Book Reviews says**

OH MY.....this was one hell of a HOT book, definitely unlike any other erotic books I have read. Honestly, there were points when I wasn't even sure what the story was about because all I could focus on was the sex, sex, and more sex but the storyline picked up about half way through the book. 3 stars

Cult of Beauty is about Katie, a supermodel who is not only beautiful but comfortable with her body and know's exactly what she wants and what her body desires. When Katie comes home to attend her mother's funeral, she goes on a erotic journey that involves women, college boys, and older gentlemen including her stepfather. It's an inside look into a world of sex, money, privilege, and fame that most of us will never get to see.

Like I said, it took a little while for this book to pick up for me but once it did, it sucked me right in. I was shocked and stunned with the ending, and K.M. left it hanging so I can't wait for book 2 to come out so I can find out what the heck happened, what Katie will be up to next, and who Katie will be doing next!

---

### **Kat Meyer says**

Dirty. Sexy. Taboo. Sad. Dynamic. Addictive.

Wow, it was a wild ride!

Katie Wolfer is a 22-year old supermodel known around the world. Her life is perfect, until a terrible family tragedy brings her home to New York from the Paris runways. Reality hits her in the face and she must look inside herself - not just rely on her outer beauty. Being a model, the "outside" has always been the most important thing. But life isn't just about physical wants. It's about emotional needs and desires. This is the story of Katie and her journey of self-discovery.

It was interesting to find out the author, K M Dylan, was a model herself. The story is wrote "loosely" on her own experiences as a supermodel. Just a few pages in I was Googling the author to find out more. I wasn't for sure if this was a work of fiction, or more of a memoir. Either way, this was the inside view of the modeling world and all the excess that comes with it. I kind of felt voyeuristic. I think Katie (hmm, what a coincidence the author's first initial is a K...) would have approved. You see, a lot of Katie's self discovery

involved sexual exploration.

Yes, this is one of “those” books. I know it’s not for everyone, and you have to be in the mindset to want to read an erotic novel. But wow, this had some dirty, sexy scenes. If she wasn’t imagining it, she was doing it. Just about every scenario imaginable played out at some point in this book. Nothing really seemed out of place in the story though, I felt like it all worked with the quirky, sometimes bizarre life of Katie.

The backdrop to her inner dilemma is a very sexually charged love triangle between a handsome stranger she meets and a much too familiar man that might just break up what family she has left. It’s a love triangle, but there is not a lot of romance in the book. Just tons and tons of smut. And why not throw in some taboo sexual attraction to her step-sister as well? You know, just for the excitement. Phew, it was exciting for sure.

Katie had a lot going on, between her sexual escapades and trying to figure out what she wanted in life. I do think the story could have been developed more. I would have liked to seen more conversing between the characters in addition to the sex. I wanted to know what was really going on in their heads, not just their pants. The book moved very fast, I read it in just a couple hours. It was like one WTF moment to the next.

The story ends in a way that it is obvious that this will be a series. And, I hate to say it, but the ending is where my “sad” description comes in. I can’t wait to read the next one. I rated the story a 3 because I wanted to see more of the story developed, but I give the very descriptive smut a 5. So over all, I give it a rating of 4. Just make sure you can handle a truly erotic novel before taking this one on, because it is a lot to handle. Taboo was not a word the author was familiar with, which makes one wonder even more how close the story was to a memoir....

---

### **Chloe Thurlow says**

KM Dylan was a model before turning to the pen. I've seen pictures and she looks super.

In 'Cult of Beauty' she brings us her inside knowledge to weave a highly-charged, deeply erotic love triangle that leaved supermodel Katie Wolfer balanced on the highwire between the toned muscular arms of total hunk Gavin Poole and the sophisticated embrace of the the patrician millionaire Daniel de Goncourt - her stepfather, adding a decadent twist to this compulsive novel.

Which one will she chose? Only one way to find out...

---

### **Rebecca says**

On writing this review I see I bought this ebook back in January, I can't believe I didn't get around to reading it sooner. I was completely sucked into the life of model Katie Wolfer, the sadness of her mothers death and the twisted love triangle that is Gavin, Daniel and Katie. Lavish parties, plush dinners, photo shoots, sex, hot men, beautiful women, money, drugs, and fast cars. Although a bit cliche` it has what you'd expect from a world with beauty, money and power. But it does have some inappropriate 'moments' which make for exciting reading, that's for sure. A young beautiful woman experiencing feelings she struggles to push to the back burner. Katie is a strong and intelligent woman but with Gavin and Daniel she seems to lose herself. (

can't say I blame her though ) Shocking in parts, sometimes lacking in emotion, yet this is a thrilling ride of everything that is so wrong, and yet you'll want more! Well written, this did leave me gasping a few times and most certainly arousing. This is a series I shall follow.

---

### **Tee loves Kyle Jacobson says**

Okay first I have to give my speech about this book not being appropriate for readers UNDER 18. This is an adult book with adult themes and LOT"S OF SEX scenes that are not suitable for younger readers.

Okay with that being said this book was the craziest book I have every read. Lord I laughed sometimes and then there were times when I was like oh sh\$\$ did she just think that.... Man what a crazy story about a young model at the top of her game. Katie is living the high life doing what she wants when she wants and how she wants. She is a top model doing a cover shoot when she gets a phone call that will change her world. Her father calls her and tells her her mother died. At first she wants to throw a fit but she gets it under control and she flies home to her mother's and stepfather's place. Her stepfather offers her a place to stay and she accepts the offer.

As she is sorting her things out in regards to her mother she is also confused about the feelings she is having for two men. One is a bad boy who she should stay away from but she can't because he is so good at all things he does. Gavin is a ladies man and a man whore who does not want to commit to anyone. He is living his life and that is how he wants it. Then there is the forbidden fruit and that is her stepfather Daniel. She loves being with him and even fantasies about taking her mothers place. But is it wrong to be with your mothers husband?

Katie is exploring all avenues and she is delving deeper and deeper into her sexual side. What will she find? Who will she be with? This book is intense so know that before reading it. It also has a lot of sexual scenes that are not for the prude!

---

### **Renee says**

It thrills me to say another great, fabulous, intriguing and stupendous book. This was a learning experience for me. I knew and of course read a lot about the modeling industry, but never such a raw version about the model and her point of view. One thing I learned was: GO to France. Those French people could teach the stick up the ass American's a lot. Everyone no matter what they look like is beautiful. They are born to be free and very expressive. I like that idea!

The book follows Supermodel Katie Wolfer through a fairly short period of time. It goes back and gives a little history here and there. She is just done with a modeling job when she gets a call from her stepfather. Straight from the Dior runway in Paris, Katie is informed that her mother committed suicide. How can her mother do this? Her mother has killed herself after being found out in an affair. It later comes out it was a bad error in judgement and it was her personal trainer and she couldn't forgive herself. This is a shock, but I soon discovered that Katie was not as distraught as I thought she should have been. Being a model changes your ideals, emotions and expressiveness. Katie was conditioned to roll with it. If something on a runway went bad, you carry on. I think she was struggling with being alone more than the loss of her Mother. Upon takeoff she has a very erotic encounter with Gavin, whom she just met on the plain. It turns out Gavin Poole

is her room mate Natasha's brother. Natasha is also a famous model, who is very free with her expression.

Now in NY her French stepfather, Daniel de Goncourt, a wealthy financier, greets her. Katie becomes entangled with both of them, exploring her darkest sexual desires amidst a lavish, decadent lifestyle. Her step brother Ryan is depressed and medicated, while her step sister Caroline is a step away from being medicated. I am sure there is controversy over the lifestyle, but I for one just sucked it all up.

This novel will seduce you like no other. Katie is seducing or being seduced by both male and female. She doesn't discriminate. Deeply erotic, thrilling, sensual, I know this book will intrigue you. I love reading about the New York and Hampton lifestyles. I marvelous book with the perfect amount of lustful sin. Go read it NOW!! (lots of steam, sex, and drugs if you can't handle a rated R movie don't read this one! Well maybe you do need to read this one as a social experiment, it could be what you need)

---

### **\*J\* Too Many Books Too Little Time says**

This was a DNF for me. I just couldn't get into it--maybe it was the writing style, I don't know. Unfortunately it just wasn't for me.

---

### **?B? says**

Okay so my girl who is doing this blog with me didn't care much for the book and so I was a little apprehensive when I finally got a chance to start it. I will have to say that yes this book may not be for everyone, I did like it. It was a good hot read that I was in need for and I do believe that is a HUGE reason as to why someone will or will not like your book. You have to be in the mood for that 'type' of book. There are a few books that I didn't care for but others absolutely LOVED and well when it all comes down to it probably was because I was in the mood for something different than what that book was about. Anywho... with that being said here is what I thought of the book.

I started it and saw the forward and decided I wanted to know more about the author first before I got into it. It was set up as if the author was a model and I wanted to check it out and see if that was true or if it was just part of the book. So like I said I went to her Website and clicked on her about section and got so excited!

I am a former model. I am half French, half American and live in NYC. I love art, fashion, beauty and the erotic. I love to travel and especially the beach. Katie's erotic adventures in the Cult of Beauty novels are loosely based on my own crazy experiences in life... The key word is "loosely"!

My taste as a reader and a writer is toward decadent erotica—women with a streak of perversity who enjoy sex for its own sake, who like to be dirty, and will get a little kinky—whether it be with other women, multiple partners or exploring S&M.

There is a little bit of everything in this book and maybe that is what I liked about it. There is crazy sex, drugs and some taboo things that go on.

It is not a long book so for me it was a quick read, with that you will see that it is very fast paced which I enjoyed because there was never a dull moment. While reading I wanted to believe that this is how it is for

models because well in all fairness, in movies they are portrayed a lot in the way that it is written.

It would be awesome to hear some of her actual stories with no fiction mixed in because to be honest I wanted to believe that this was all about her and what she has been through. :)

There were so many different scenarios that were played out and all though there were a few spots that I felt that she could have gone more into the story because well I wanted to know more, like with Ryan, overall I did enjoy the whole story. I will have to say that ending left me wondering what the hell was going to happen. haha I was at a loss and didn't know what to think, it was a bit of a cliffhanger.

This book is not for everyone and I understand that, there is SO much that goes on sex wise so if you are all about a hot steamy, sex filled book this is absolutely for you!

---
