**Amazing**

I'm so happy Giselle got her own story. Every since she was first introduced in "In Love With A Brooklyn Thug" I wanted to know more about her. From the beginning to the end I was in love with this book. Seeing Giselle finally live in her truth and be the best person she could be was satisfying. I absolutely love how Nako touched on mental health and how it should not be swept under the rug. Reading a book by Nako is always an experience. Her stories captivate and hold your attention. Her characters are awesome and sometimes I see myself in a couple of her characters. Keep up the great work Nako!

**Giselle**

Wow she is the true meaning of self love. She had to learn to love herself first flaws and all. Kasim said it well she had all that money and was still insecure. They loved each other hard. My heart broke for KJ and Chase. Mannnnnnnnnnnn. This is an awesome story about how anyone can find love and it's okay to not follow in the steps of other people. As children we want to grow up to be just like our parents. Giselle gives us the strength and courage to follow our own paths and create our own legacies. Awesome job.

Giselle and Kasim meets by chance, but it changes their lives for the better. Not knowing exactly where they were headed, the couple falls for each other and learn how to be there for each other through the good and the bad. They elevated each other and helps to make their world better. This story deals with the past, pain, loss, trust, love, and work. You are able to see character growth throughout the story. This is a very excellent story.

**WOW! Double WOW!**

This book deserved more than a 5 star, so right now it's at 100 percent the best.

This is actually the first time reading this author and I love it.. Although there was some flaws or concerns but it was so well written. Where should I start!

Man, Kasim, (oof) so he was so much more than "all that"... I want me my own Kasim because, he truly became her soulmate, and her man, and everything else. This right here can give anyone hope that there is

someone out there for you.

Now, Giselle, a beautiful name for a very beautiful, strong, compassionate, driven BOSS LADY. Even though she was famous, she was not a diva, preppy, superficial etc... She was just genuine and the best match for Kasim.

I knew this book was going to be hard, sad, beautiful and it did not disappoint. The way the author was able to have God our lord and savior so well integrated and how she tried to show us that without this savior, none of us will be there, she also showed many real life difficulties that people are facing with: drugs, mental illness, depression, achievers, sacrifices, love, friendship, parenting, and family, was so uplifting and real, it felt as if God was the pen that she was holding on to write this story.

I think every one should get a copy, and enjoy, you will not regret.

#### **Great read**

This was a great read. There were so many messages in this book until it's hard to just identify with one. The insecurities that Giselle went through many women deal with that deal. Not all have a deformation. Many women have allowed it Has opinions and views become their own. Kasim was a great man for Giselle. Sometimes that's all it takes for a person to have patience with you to help unravel all those layers of hurt disappointments, insecurities, and grief.

I can't wait until KJ's story comes out.

#### **Giselle "The Girl Boss"**

Congratulations Nako on this amazing standalone about a woman who has dealt with so much from death, addiction, mental illness and her own insecurities. But through it all, she didn't let it bring her down and she continued to be the ultimate girl boss. I loved the connection Giselle and Kasim had. He was able to get her to be more open and accept her flaws regardless to what others may think. I loved the appearances of Teka, Moses, and Nia. This is definitely a must read

#### **Omgggg wonderful**

Talking about character growth, Nako gave such an intimate description of what Giselle was feeling and going through. I felt like I was in the book, we had become best friends, I cried when she cried. CREME was perfect for Giselle he was older wiser it was just like perfect, him already having kids even worked out for her best interest, in my opinion I feel she needed them to help her come out of her shell and live freely before she had her own kids. They all went through a lot, this story was a lot lol in an amazing way, great great read, onto my next Nako book

### **Girl Bosses!!!**

I don't even know where to begin. I Loved This Book!!!! This book had so many layers that needed to be pulled back, and underneath it all was just two souls looking to be loved. I love Kasim. I loved seeing his growth through out the story. Giselle, is a BOSS, she was a broken one, but a boss none the less. I love her also, I love her strength, I love her spirit, I love her growth. When the hits kept coming, she would dust them off and keep on moving. I love what Giselle and Kasim did for each other. They pushed and pulled things out of each other to make them better versions of themselves. This book will give you so much, but in the end you will be so fulfilled. I loved the appearances of the girl bosses we've read about, Teka and Nia. I am a sucker for happy endings and this book definitely had the happiest of endings. I loved it. Great job!

Nako is such a talented author I am looking forward to reading more of her work it only gets better. This was such a great read I couldn't even do my homework because I could not put it down. I loved the heroine and the fact that she was a girl boss was a bonus. Plenty of drama to keep you entertained but touched on so many real world issues that everyday regular people go through behind closed doors. I also liked the hero and how he evolved and that he was basically the yin to her yang, "He was her peace so to speak".

I would highly recommend this book to anyone looking for a great read.

Thank you for being YOU aka 100% REAL

### **You Got it!**

Giselle Braxton a walking brand in a boss! Never in a million years someone so focused so classy and running a million dollar Corporation do you believe carry insecurities. I chose a 5-star rating for the story because I truly enjoyed the way the character was brought out her life the way she lived and in one second she meet someone and a new chapter is opened. This is not easy for Giselle a lady who is CEO of a legacy and she never lets anyone get close to her. Kasim is just what the doctor ordered a no-nonsense guy who is

arrogant, running from Woman to Woman, but now it's making decisions that he really truly believe in the end he will be changing. When these two Clash the stars were definitely in their corner and a crazy romance begins. They know they're connected but they fight it, both have skeletons that they don't know how to address and now there are children involved. Giselle goes from being not only the CEO of her Corporation but a girlfriend, and it's in a stepmom to little boys that really need her. Nicole took her time in writing the story is truly shows. The collaboration between gazelle and kasim grows a little bit as you read each time. I love the way the family struggles from both sides are broken in how the healing comes into place. This book has so much information and touches on so many different realms of life but it all makes sense. I love the way the children gravitate to Giselle and she shows them so much love! I enjoyed the way Kasim measured Giselle against other women and realized she was not like them and she would not take his shid. Baby mama drama, Mental illness, physical and mental abuse, and mending relationships. I don't see that there was nothing I didn't dislike I think that I enjoyed looking at the changes this couple once they really believed they trusted each other and the therapist was a great help it's your growth and I was most happiest not only for Giselle but Kasim. Loved Teka n Moses for showing up and Nia! I don't want to give a lot of the book up but there are extreme life changing decisions and moments that even I took away from the story. Very helpful and it shows how to take life day by day and remove those insecurities because we are all queens, we are all beautiful and God created each one of us different and that's okay! In the end you will see Giselle and Kassim break all those barriers and come together to a better place.

### **Impressed**

This was a good book. A little different and it touched on a few sensitive subjects. This book is a testament on how to deal with life challenges and have faith. Also, no matter what we have planned, God has another. Giselle open her heart to a man others would have rejected but she followed her heart and it worked for her. Kasim was the man with three kids, different baby moms and a good father. Kasim and Giselle were a pair and both were far from perfect but they needed each other. This book was good and will leave you with lessons and may answer questions.

### **Wow.**

OK wow I know this review is supposed to be about Gisele but that excerpt on Kadeem is just while I know that that's going to be a Banger!!! On Gisselle though... I definitely was not expecting the news we received on page 2. I was like wow a tragedy so early on?!? But this story was amazing. I wish I could have gotten more on the story about Pooh and her daughter. But anyways nako did her thang with this one!!!! Giselle was definitely a girl boss!!!!

**OMG!!**

This is a great body of work! So many emotions! I think any woman especially a working mother can relate to the hustle and bustle of trying to have a successful career and balance your personal life and have self worth in the end. It truly starts from within to be successful in all areas of your life and it is a daily struggle for most of us to have something left for yourself at the end of the day after wearing so many hats! JOB WELL DONE!!!?????
