I love being in at the beginning of an author's writing journey. Into Thin Air is Mary Ellen Porter's debut novel but it reads as polished and experienced as if it were her tenth. Seriously good story. The gripping opening scene propelled me into a tailspin of reading frenzy. Solid suspense, compelling hero and heroine, a cast of interesting and quirky secondary characters (including a few dogs) all conspired to keep me glued to the story. Not to mention some fun humorous bits that cut through the tension of the hair-raising suspense. I even found myself laughing out loud in the middle of some serious actions scenes. Love when an author surprises me that way. A definite must read for romantic suspense lovers.

INTO THIN AIR is Ms. Porter's debut novella and it is good, but touched close to home in a scary way. Laney witnesses a thirteen year old girl being abducted when she's walking home from music lessons and I imagined my thirteen year old in that place—and instant tie to the story. I wanted Laney to help the FBI and police locate the missing children and return them to their families. I wanted the “bad guys” captured.

I did figure out “who-dun-it” relatively early since I read enough romantic suspense to figure out the writer's mind. But I had to keep reading, and I especially liked the parts of the book where canine search and rescue was utilized. I hope this author has more books planned using these canine heroes.

What a fabulous debut from Mary Ellen Porter! Loved the characters - flawed, strong, compassionate. Loved the story - a gripping opening sequence that had me flipping pages as fast as possible and a plot line that kept me wondering what would happen next with stakes as high as they can go. Mary Ellen's knowledge of working with search and rescue dogs really shines as that aspect of the story is woven in seamlessly with the suspense thread. Can't wait to read more from this author!

I really liked Into Thin Air! Mary Ellen Porter did a great job keeping me guessing up till the end when the

characters figured it out.

Laney Kensington a former search and rescue was now training dogs for the local police department came across a kidnapping in progress. In her attempt to stop the kidnappers Laney found herself in the hospital under guard.

Grayson DeMarco an FBI agent assigned to the Missing Children's Division was in a hurry to speak to Laney because she was the only person who could break this case wide open and so were the bad guys. Will Laney and Grayson figure out where the stolen kids are in time before they shipped out and never scene again?

This book has a lot to keep the reader entertained: almost non-stop action, some quirky characters, simmering chemistry between the lead characters, amusing repartee... and more. I read this book after "Off the Grid Christmas" but chronologically it comes first... and it would have been even better if I had read it first, without spoilers fresh in my mind.

Good mystery and likable characters.

This was a Harlequin novel which I haven't read in years. It was definitely a faith based one, which doesn't bother me. There were a lot of things happening quickly in this book and almost an insta love quality, but still overall a good read.

This was much for of a suspense novel than a romance, but it was a well written and fast paced novel. I liked Laney a lot. And Gray. But there wasn't a great connection, at least it was written as a great connection between the two. Overall a good story, just it felt like I was missing pieces of the romance.

Story started off interesting, Laney witnesses a kidnapping and tries to stop it, but ends up injured. Grayson is an FBI agent trying to track down the kidnappers, so are now after Laney to stop her from identifying them. The characters of Laney and Grayson were well built and I especially liked spunky Aunt Rose. The kidnappers seemed to always know what was going on with the investigation, and Grayson is trying to figure out if the leak is coming from the FBI or the local police. I shook my head when it was revealed who the leak was, how could it be someone that was so trusted. Where the story went downhill for me was the end, the investigation wrapped and a relationship between Laney and Grayson was formed, but we missed it. The story jumped a couple weeks ahead and briefly wrapped up what had happened in the time in between. I missed the declaring of feelings and the indictment being filed.
