## **One More Shameless Night** Lili Valente

Warning: This book is one fast and furious, danger-laced, HOT as hell Happily Ever After. Come along with Harley and Clay for One More Shameless night.

Clay Hart may not work for the FBI anymore, but he has all the shady connections he needs to make sure no one f\*&ks with his family. He'll be keeping a close eye on his wife, son, and newborn baby to make sure their trip to visit Harley's sister goes off without a hitch.

It's been a year since the party that almost ended Harley's life, but when her sister offers to babysit so that she and Clay can attend a Midsummer soiree, Harley jumps at the chance. What better way to put dark memories behind her than with a steamy date night with her hot as hell husband?

But old enemies are lurking in the shadows, just waiting for the Hart family to drop their guard.

Will Harley and Clay live to see the midsummer sun rise? Or will their first date night after the birth of their second child be their last?

ONE MORE SHAMELESS NIGHT is the final book in the Kidnapped by the Billionaire series.

I'm so glad Lili wrote this I love seeing both couples in their HEA. I'm always one that loves just one more chapter or in this case novella. If you read the Dirty Twisted love series then you'll be so happy with this one last book. I know I am! Plus we get to see Hannah and Jackson from Bought by the Billionaire series as well. I so loved seeing them enjoying their HEA. Of course there still is danger lurking in the shadows that threatens the happiness both couples have found. When the threat looms closer can they eliminate it before it's too late? A lot of pressure for Harley having to spend time with Jackson after everything she's put him through. Can she prove she's a changed woman? Though things can't be truly normal with everything Clay and Harley have endured in their relationship, but they sure can find happiness and a HEA to last a lifetime.

### **3 Stars**

More like a bonus than anything of real value to the series. It was a decent read though, just and added bonus, finishing off everyone's happily ever after.

**\*\*My thanks to the author for providing me with a free copy for an honest review\*\***

Two happy couples finally reunite in this novella that spans one night with Clay and Harley and a little of Hannah and Jackson.

With the Harts on holiday with their new baby Will, the reunion between the sisters goes really well with a little surprise, both Clay and Jackson are hiding a secret, but unbeknownst to them so is Harley.

We get a hot scene, action and drama and a lovely HEA with both families as they look towards their futures.

This was an amazing read. The story of Clay and Harley continues right a year after part three ended. Clay and Harley are happily married and have two children, Jasper and their newborn Will. The story was filled with suspense and was very interesting. The characters were better as the story went on. Clay is more open in some ways. Harley is less broken. I also got to understand characters from the Bought By The Billionaire series, Jackson and Hannah. Jackson is Clay's best friend and was also in a relationship with Harley seven years ago. Hannah is Harley's twin sister. Hannah is known as the sweet sister. So it was interesting to get to see inside of Hannah's Mind in this book. This book proves that love is stronger than hate. The ending was incredible. Now onto Jackson and Hannah's love story. Overall, an incredible read.

One More Shameless Night is book 4 in the Dirty Twisted Love series and can be read as a standalone, but if you haven't read the other books in the series, go and get them! I love serials and happily ever after's and I love Lili so this is a win win for me. Clay and Harley are visiting Hannah and Jackson after one year of marriage and a new baby. They are going to get away for a night for a Midsummer celebration of steamy sex in hopes of reconnecting. They never really let their guard down and always see things lurking in the shadows. But, this is just what Harley needs to feel sexy, desired and wanted again. Clay says all the right words, does all the perfect things and shows her just how much he loves her. They are both keeping secrets that are about to show up and haunt them. Will they work as a team to get out of the trap? Or will the secrets end their night and possibly more? I loved this story. I loved seeing where they are now and that they are still sexy and funny. Lili is the Queen of erotic romance and she writes sex, love, humor, sass and suspense better than anyone!

"Your body is my fucking crack rock and I've been way too long without a fix."

"Life is too short not to let yourself get strapped into a bondage swing."

**Yes**

Perfect book to wrap up the series. It had the action the suspense the love scenes. It was everything you want in a book.

You know how you're always hoping an author will give you one more book to let you know that your couple has made it and are living HEA? Well that is what Lili Valente has done with . We get to see Clay and Harley, as well as Jackson and Hannah. And while there is the threat of danger there is also such a sweet, heartfelt side to the book.

I'm so happy that we were able to spend one more night with these incredible characters:)

Clay and Harley are finally getting their lives together but in true Lili Valente fashion comes more trouble from past enemies to keep you on the edge of your seat. Buckle up! Great series.

## Crystal Yawn says

Not what I expected. this is book 4 in dirty twisted Love series but also a wrap up of bought by the billionaire however it still leaves questions.

I (didn't read the blurb) expected a sweet little ending where everything works perfect , happily ever after blah blah blah wrap up of the series. what I got is so much more. more action, more deception, more mystery, more love, more kids, more steamy sex, more more more. and More questions.

This was a perfect book 4 that shows life goes on, people change and love conquers.

Now please, please tell me Malory gets a book, maybe with Dom????

One More Shameless Night is the fourth novel in the Dirty Twisted Love Novella Series and it was the perfect ending to this amazing series! You can read it as a standalone but I highly recommend reading the series to get the full experience.

Harley and Clay have been married for one year, they have added a baby to their family since we last saw them. Will is now two months old and his older brother Jasper is eight. They have decided it was time to visit Harley's sister Hannah and her husband Jackson for a month on the island. If you read the series then you would know this reunion could be very, very awkward. Hannah and Jackson want to give Harley and Clay one night. One perfect and romantic night to be together after the birth of Will so they are going to watch the kids while they go to the Midsummer Luau. But, this one night away can change their lives forever...

It was suppose to be a night to remember. The night to bring them close again and it will be but not in the way they expected. Harley and Clay both have their secrets. Secrets that are just that for the other one's safety. It will all come to a head tonight. All they ever wanted was a normal life. When their secrets are exposed, will they make their lives normal or the cause of more craziness?

I was extremely excited that Lili decided to write a fourth book for Harley and Clay! I can't get enough of this couple. The series is sexy, intense, suspenseful, and twisted. I am really hoping for another spin-off. I won't say with who but I know it would be just as amazing as all of Lili's other series'.

Quotes:

“I still want to go to the party. I can’t wait to be alone with you. It’s all I can think about.” “Oh, yeah?” She let her gaze slide down to his lap and lifted a wry brow. “So that’s not a banana in your pocket?”

“You could never disappoint me. And I’m going to get you so wet, so ready, that you’re going to come the second I slide inside you.”

“It’s time to turn off your mind. Turn off your mind and let me turn on your body.”

Awwww what a great ending for these two dander seeking lovers. I love that Clay and Harley were able to work through the issues they had to move forward. I mean the danger level and excitement in this series is awesome and makes the hot steamy parts that much better. I am however dying to know about Hannah and Jackson's little surprises. Ps I love love how protective Clay is over his family. Lili nailed it once again!!!!

### **Sooo Gooood!!**

I am so in love with this series!! Every single book was dangerous, exciting and hot, hot, hot!! The happy endings are exactly what I want. Some romance to make me smile. Everyone should read all of Lili Valente's books, there's not a bumner in the bunch!!

## **Tami Talbert says**

Though book 3 in Lili Valente's Dirty Twisted Love series did give us an amazing finish, that is no cliffhanger, I was still left wanting more of Clay and Harley's love story. So when Lili announced she was going to give us One More Shameless Night, I was so excited and just couldn't wait to get my hands on it.

It is now a year later and Clay and Harley are married. They have added a new little baby boy to their family and are heading to her sister's house who has offered to babysit so Clay and Harley can have some alone time together. But when secrets are kept and threats from both of their pasts unsuspectingly reappear, both Clay and Harley again find themselves in situations of impending danger. Will this be the end of the new life they have finally achieved together, or will they find their way out and back into each other's arms?

This is an absolutely fantastic finale to Clay and Harley's roller coaster love story. The sparks from the unflinching electrical current of passion shared between them still oozes from the pages. Once again, Lili Valente has given us another entertaining and gripping tale. And if you didn't think it was possible for Ms. Lili to outdo herself, to top it all off she gave us a few more moments with Jackson and Hannah. YAY! She totally hit this one out of the park. I really enjoyed spending time with all of these characters again and seeing how their lives have evolved into the happily-ever-afters that they deserved and that I always love.

This is exactly why I only look at the ratings and reviews for the first book in any series. The people that are already on board in the later books are not just subjectively bias, but completely irrational when it comes to clapping furiously before the show even begins like in third world political conferences.

In the end the four of them didn't spend any time together, there was no sex, and Stewart Mason has got to be the stupidest person to ever reach billionaire status to show up at the perfect moment; in person; without

backup; and gets subdued immediately. Before I even figure out what was going on, the story was over. Basically, at dinner two bad guys simultaneously show up and both gets subdued and voila vanilla sex scene without the swing, DONE! That was faster than a 5 minute dish on the the F-Word.
