In the beggining we are told that witches are real and hate children. Unfortunately for the rest of the world, it's hard to tell a witch from a non-witch, because they can disguise themselves as anything they like. But we are given a few helpful hints on how to recognize these deadly creatures, through a dialogue. After a brief stay with his grandma, our narrator and his grandma decide to take a vacation, and they head for a stay at a giant, beachfront hotel in southern England. They also bring along the white mice that his grand mother bought for her grandson. While training his mice for the circus , our narrator accidentally finds himself right smack in the middle of the annual meeting of witches. Their leader, who is referred to as The Grand High Witch, and the rest of the witches, take off their disguises and are frighteningly ugly. Our narrator hears them talking about their plan to turn all the children in England into mice using a magical witch formula through a potion. He even watches another young innocent boy, Bruno, get transformed into a mouse, right before his very eyes. Unfortunately, our narrator ends up having the same fate as little Bruno. The witches smell his scent out and, in the blink of an eye, turn him right into a mouse. Because he's a gifted child, he's totally unfazed by the whole thing. He goes straight to his grandmother and, being the most understanding grandma , she loves him even though he's a mouse. She believes him the first time he told her, and together, they decide they will get revenge on the wrecked witches. And do they ever: our narrator sneaks into the room of The Grand High Witch and steals some of the Mouse-

Maker formula. After an odd adventure in the hotel kitchen, he manages to pour this so called formula into the witches' soup. Back in the dining room, after all the witches consume the soup, they turn into mice in an instance and proceed to be stepped on, kicked, and squashed to death with frying pans. Back at home, our narrator really has no complaints or regrets about his new life as a mouse. Together with Grandmamma, he decides that defeating the witches of England wasn't enough. They need to do something about the rest of the world's witches. They hatch a plan to track down every last witch and turn each one into a mouse. The two adventurers head out on their way, ready for the challenge ahead of them.
