Ugh. I was so excited for this book, only to be disappointed. I liked a few recipes and later realized those were the recipes the author won Cupcake Wars with. They were the only presentable looking cupcakes in the book. Most of the photos looked like failed Pinterest attempts. I know that's critical, but runny green frosting and purple ganache are not pretty things.

OMG! Only 3 letters can explain this book. I cannot believe how much recipes were put in this small book. Simply delightful. Delicious. These recipes can make the kind of cupcakes that would be even better than the ones you buy at a bakery. This is the kind of book you want to hid and lie about to your friends, saying that its your recipe. Simply OMG.
