A new standalone romantic comedy from New York Times bestselling author, JA Huss, and Actor/Screenwriter, Johnathan McClain.

EDEN

I'm just a simple girl who likes dessert. And sexy men. And social media. So starting an anonymous video channel called The Sexpert as a side hustle to make up for my low-paying marketing job at Le Man Magazine seemed like a perfectly sensible career decision. Until we went viral, my boss accused my anonymous personality of stealing his idea, and now my super sexy new boyfriend, Andrew, is out to get me.

Her. Me. Whatever.

ANDREW

I don't want it to be her. I do not want this... sweet, delicious, shy social media nerd working at my best friend's magazine to be the face behind those perky cupcakes on the Sexpert channel. I don't want it to be her... because I like her. A lot. She's funny, and quirky, and smart, and creative... and... I really, really like her. It just can't be her.

But it is.

And now I have to choose.

My best friend?

Or... The Sexpert?

‘....the last reason I can’t stop thinking about her is...I like her. ‘

We just enjoyed a funny, sweet, swoony and sexy visit to the TDH, the Tall, Dark and Handsome neighbourhood in Denver, where J A Huss and Johnathan McClain introduced us to a nerdy sweet hero and a sexy down to earth heroine and loads of chemistry! If you love a witty, giggle-worthy look into the inner musing of the male POV, Johnathan McClain will take you there! His male pov was fab and reminded us a little of Emma Chases’ heroes. A little clueless, a lot sexy, continually putting his foot in his mouth and wooing us at every turn! Andrew’s thoughts had us in fits of laughter and Johnathan McClain delivered it perfectly!

Even in her dark suspenseful books, there is an element of wit in J A Huss’s writing, and in The Sexpert, Julie, was able to let her humour fly, with both authors showing us the lighter side of their writing with this wonderful rom-com and we loved it. ‘Cross our hearts’, we did! This dynamic duo is firmly becoming one of our favourite collaborations, and we’ll be clicking anything they write! We’ll especially be up for more of the TDH crew!

“Oh, my sweet, sweet Andrew...” She only ever calls me by my name when she’s upset or condescending.

Eden Presley is on her way to her new life, moving into the TDH neighbourhood, on the way, stuck in a traffic jam, she’s asked by a fellow motorist to borrow her phone charger. Eden obliges, there’s an instant attraction, but when the traffic moves, the guy takes off with her charger, never to be seen again....or so she thought. We loved Eden, she was quirky, adorable and so relatable. A wonderful heroine with a vixen hiding in plain clothes written with a great sense of humour and vulnerability.

“Will you eat me like dessert?” I say.

“Swirl your tongue around in my frosting and hit my cherry button?”

He laughs. “What?”

“Oh, my God! I’m sorry! I didn’t mean to say that. I was working on an article for the magazine earlier and that just popped into my head. I’m so -”

‘But the rest of my words get cut off. Because his mouth covers mine in a kiss. ‘

Andrew Hawthorn is an artist, rock climber, and inventor of a vocal software that made him a billionaire, though you’d never know it because Andrew lives a very simple life. Andrew is also moving into the TDH and bumps into Eden at the office of Le Man Magazine. Le Man Magazine happens to be owned by Andrew’s best mate Pierce Chevalier, the quasi Frenchman who cracked us up with his French injected speech. Andrew is given a task; find out who the Sexpert is because Pierce has a bone to pick with her. But what happens when the identity is revealed? Well...all will be revealed!

We loved Andrew, he had us in fits of laughter and his banter with Eden was spot on, so too his interactions with the prickly Pierce which had us grinning like fools! Andrew was de-lush-ious!

“I think that was you, mon petit chou.”

“What’s that mean?”

“Term of affection. Means, literally, my little cabbage”

There’s a lot to love about this book. It’s the perfect fun loving and flirty escape. Not only will you be entertained but you’ll get some cheeky tips on sugaring and spicing up your love life courtesy of some naughty desserts. Chocolate and Eclairs will never look the same again! We have to say we want Pierce’s book! And Myrtle’s, now there was a lady who has a story to tell and we want to hear it! We thoroughly enjoyed this funny well written romantic comedy and can’t wait for more!

A deliciously fun & sexy romp!

The Sexpert is the fifth baby of the writing duo, Huss & McClain and for those that are one-clicking this based on your love of all things HUSS, you’re in for a treat.

In the midst of the excitement of moving to the Tall Dark & Handsome neighborhood and the sexy stranger in traffic, Eden’s life is about to change. Her sexy videos have gone viral! The only problem is that her boss thinks HE had the idea first and that some harlot must have stolen it from him. Enter Andrew, bestie to the boss and creator of the technology that Eden’s used to hide her identity.

One look at the goods though, and Andrew knows it’s her. But he doesn’t WANT it to be her. Head meet

sand.

Eden was adorable. She was this quirky woman, a little unsure of herself and although she used her assets to her benefit for the videos, she really was a little demure. Andrew, who should have been self-assured seemed a little lost. Their conversations were fantastic. I loved them, they were sweet and a little bit skittish.

There were a few parts of this story that had me laughing out loud and while I usually want vivid details during the sexy-time scenes, I loved the banter and mishaps that lead up to the moments.

A sugary-sweet treat from these two that will have you craving more of the folks in this fictitious neighborhood.

This book is so good.

Eden works as a social media at Le Man Magazine. To make ends meet, Zoey and Eden come up with the idea of The Sexpert. Where they do videos on sex. One day it goes viral on the local radio and their luck changes and they get so many hits.

Andrew just moved into town to work with his best friend Pierce. He notices Eden and they start going together. They both like each so much but they both are scared. She is keeping a secret and he is wanting her to tell him the truth. In the end they both hurt one another and they both come to realize that.

Eden and Zoey get what they want and needed. Andrew and Eden forgive one another and their love for one another is amazing. I love how they worked it out and got back together.

I love this book and can't wait for the others to come out. Huss/McClain you guys did it again, absolutely amazing. ARC provided by the authors. I definitely recommend this book.

It's a rom-com. Like, a legit rom-com. It's so far out of the JA Huss norm that I have no idea what to say.

Except I thought it was hilarious. This is light and fun and sweet. This isn't the dark and twisty ride that Huss-McClain took us on with the Orginal Sin series. Sexpert is on the complete opposite side of the spectrum.

And I think you'll like it. It's sweet, shy girl meets sexy billionaire. It's cautious flirting and stolen kisses. It's fun. And laughter. And being scared of opening yourself up to something and someone new.

You're gonna meet new characters who will captivate you. Myrtle. Pierce. Zoey. Not to mention Andrew and Eden.

This book is downright hysterical! A much needed read after being extremely depressed. It definitely lifts your mood and has you laughing out loud almost throughout the whole book!

Eden is the boobs behind Sexpert. Her boobs are fabulous and she uses them to promote her YouTube channel with her bestie Zoey. She gives advice on how to eat a KitKat and give an éclair an orgasm. <—— See! Hilarious! I love her positive attitude and how bright and cheerful she is. Even when her boss gets wind of Sexpert and goes on a crazy rampage to destroy whoever is behind it.

Andrew is a billionaire made overnight. He's not cutout to be a boss. He's free spirited. Adventurous. Laid back. But you have to do what you have to do. When he meets Eden we are taken on a roller coaster of emotions as they try to navigate through all the icing on a cupcake.

I really enjoyed this book. It's sunlight after a dark night. The smell of fresh cut grass. The brightest of moons. It's perfection.

Just scraped a 4 star.

I do love this duo, and i'm really excited to read more from them. This was a funny, quirky and a little weird read. I liked both of them a lot. Though towards the end, when the big conflict happened, i was left disappointed. Imo, the hero really needed to do something for the heroine, he effed things up and she was the one to go after him. There really needed to be a grand gesture from him.

Sweet and Savory

The Sexpert is a sweet and savory romantic romp that had me at Hey-sus. (Huh? Read the book!)

Eden is our nerdy heroine who works as a social media expert for Le Man Magazine. To earn extra cash, she and her best friend Zoey come up with The Sexpert which are online videos of their "sexpertise" using a fake voice, a pair of "cupcakes" and various other desserts as prompts. Holy cannoli! When the videos go viral all hell breaks loose when Pierce, her boss/editor at Le Man is convinced that The Sexpert was originally his idea and that it was stolen by a mole hidden within the ranks at the magazine. He asks his best friend who has developed an application called Voice Lift, to sniff out the mole. Enter stage right, our hero, Andrew. Game on! Hide and Seek at its best. The hysterical laughter that erupted out of me had me peeing my pants.

The banter between Eden and Andrew brought to mind visions of sugar plums dancing and doing the nasties across the pages. Oh the sexual innuendos that slipped out of Eden's mouth that left Andrew scratching his head were priceless.

And then last but not least, EOBS(End of Book "Stuff"). Johnathan, thank you for sharing yourself, your path, your direction, your journey. Julie, thank you for being a player and I mean that as the highest compliment. I could go on and on. Every time I read an EOBS I come away filled with inspiration and who better to be inspired by than J&J.

When it comes to rom-com the writing duo of Huss & McClain, well not only did they hit it out of the ballpark, they hit it out of this world hitting 5 stars along its path.

Carvanz says

This was such a fun, entertaining read! I've always known this author could write anything and I'd love it, but each time it's so new and fresh and wonderful and Sexpert had the addition of some fantastic humor to push it even further up the scale of awesomeness.

It's a good day for Eden, but when her friend calls to let her know that their sex advice vlog has gone viral, the day couldn't get any better. Except when a man from the car stuck next to her in a traffic jam knocks on her window and suddenly the day absolutely gets better. It's got to be too good to be true.

Andrew's friend implores him to help track down the vlogger that has stolen his idea. They have a tight past together and so he agrees, although his mind is definitely not on the videos but on the cute and quirky woman he recently met. The more he interacts with Eden the harder he falls. And now what he needs more than anything is the truth and he's not getting it.

I loved everything about this book! Eden was the type of heroine I love to read about. She's kind of klutzy, definitely quirky, wears glasses, and rambles a lot but she's not a ditz. She's smart and kind and everyone likes her. I personally loved her! And I don't put a lot of weight on the heroines, I'm about the heroes. But Huss did a freaking fantastic job of this one!

Andrew had a distinctive voice that I locked onto and grew to expect at every turn (McClain's own voice?). He has a bit of sarcasm, lots of loyalty, and an abundance of humor. He also sees himself in a certain light until he's forced to see himself from every angle that past experiences have created and that was a momentous occasion for him and myself as I lived it through his thoughts. I also loved that he found everything about Eden adorable, heartwarming, and desire inspiring. Sigh. He was pretty much perfect.

This has a very fast pace that never bogged down too much with internal monologues. The secondary characters were...interesting. Some I definitely want to know their future stories, but I'm not sure how I'd feel about Pierce's. However, this author has always made me love characters I thought were unredeemable so I won't prejudge if this duo does give us his story. The chemistry between Eden and Andrew was steaming and organic. The humor was mature with just a touch leaning toward immature a time or two but never enough to make me wince. There's a very nice epilogue to wrap it all up and I was definitely content and smiling by the close of the story.

I voluntarily read and reviewed an advanced copy of this book. All thoughts and opinions are my own.

4.5 rom com starsssss

I must be honest I got this because it was free and who can resist free booksss having said that I totally bought book two and I'm definitely going to buy all the future books in the series because I love these TDH people big time.

I was in dire needs of a laugh and when this landed in my kindle I was more than thrilled to give it a go and I wasn't disappointed! This was all the fun I was looking for and I was laughing from line one till the end.

What I also appreciate about this book is the fact that behind all the rom com facade there is some insight on how we see ourselves and how people see us, how insecure some of us are and how others perceive us when when we try to mask those insecurities.

I would recommend this book to all those looking for a fun light read but who also want something beyond than just a laugh.

Firstly, at least 4 times it is mentioned that someone has a runny nose because of air conditioning. What the hell? Is that a west thing? Because here in the south, we run the AC pretty much 9-10 months out of the year and I don't get sniffles from it. I "dunno" 'bout Colorado folks.

Speaking of "dunno", it's used 76 times in this book. Stahhhhhp.

For funsies, she calls her breasts "cupcakes". Repeatedly. And the H calls her cupcake, and her dad calls her cupcake. Kinky.

If you like manic pixie dream girls who have recognizable tits and are awkward as fuck, you'll love this. If, like me, you hate rom-coms and Zooey and heroes that find awkward cuteness very sexy, you'll hate it.

Mindy Lou's Book Review says

Eden is the nerdy, awkward girl who happens to have one very fantastic asset. She and her best friend Zoey decide to use that asset as well as their social media talent to start up a YouTube blog called Sexpert. To keep Sexpert anonymous, Eden uses Voice Lift set to the Sultry Siren not only to disguise her voice, but also to fit the Sexpert image.

When Eden's boss hears about the Sexpert video's he's outraged. He's been working on his own idea called Sexpert and believes someone stole it. Pierce asks his best friend Andrew, creator of Voice Lift to help him find the culprit. The same day, Andrew and Eden meet and dance awkwardly around their attraction to each other.

Fun, cute, nerdy and a little bit serious. I really enjoyed this one very much. Romcom is my favorite trope and these two authors did a great job with Eden and Andrew's hilariously awkward romance. For the most part, their story was light and fun. It did get a bit serious and I found myself strangely satisfied with the conflict and how it didn't turn out how I thought it would.

I was happy to read in the author notes that they plan to write more in the Tall, Dark, and Handsome neighborhood. I can't decide if I want to see Zoey or Pierce's story next. Or maybe Myrtl.
