Pick a book. Grow a Reader!

This series is part of Scholastic's early chapter book line Branches, aimed at newly independent readers. With easy-to-read text, high-interest content, fast-paced plots, and illustrations on every page, these books will boost reading confidence and stamina. Branches books help readers grow!

Eva's friend Macy has a little sister who can't fly on her own. So Eva's class decides to raise money to buy her a super-cool flying chair! Half of the class opens a bakery to raise the money. The other half opens a candy store. Soon the owls are competing to see whose shop can make the most money. But they will all need to *work together* to raise enough money for the special chair. Can Eva get everyone to work as a team?

{My thoughts} – Eva and her classmates decide they won't to open up a bakery and a candy shop. They decide they will use the funds earned to help a classmate's sister get a special chair she needs to help her fly.

The first night they are open they earn enough for the chair. The second night both shops merge together after working out their differences and earn enough to buy the needed things for a sports team at school that needed new equipment.

I really like how these books all have lessons in them. Most of the time the owls aren't fully getting along but in the end they set aside their differences and work things out for the greater good.

I really enjoy these books. They are colorful, simple stories that are easy to understand. They each have a small lesson that ends with discussion questions. The discussion questions can be used to determine how much of the story the reader fully understood.

I recommend these books for any child that enjoys reading and wants to read about owls. These books are fun but also contain facts about owls within their pages too. I think any child would enjoy having these books added to their book collection.

Another great entry in this super fun series!

A very attractive and highly visual format makes this series appealing to young readers. Good messaging around kindness, friendship, and teamwork. A nice reminder that winning is fun but being competitive isn't everything when it gets in the way of the end goal.

Eva's class starts a bakery and a candy shop to raise money for an owl who needs a special chair in order to fly. It becomes a competition to see who can raise the most money until they remember that they are trying to help a classmate's little sister.

I love the Owl Diaries series and look forward to reading them.

This is a super cute series for those students/kids who are getting into chapter books. The text is engaging with its speech bubbles and placement on the page. The owls are cute. On page 43, they make like ninjas to find carrots for the muffins. Very cute.

My third graders love this series. I think second would too. It is leveled at M by Fountas and Pinell.

It also teaches a moral about how working together toward a goal is the most important thing, not winning.

This book was really great because it was really funny. Sue and Eva were having a competition about whoever has the best candy store to raise money for Macy's little sister's wheelchair. Sue and Eva's teams tied because they both raised the same amount of money. Macy's little sister got the wheelchair and was so happy she could play wingball again.

Disappointing...I really loved this series for growing readers, but this one left a lot to be desired. I feel like the first 6 books in the series were stronger. Hoping the next one will be better because this was such a great premise (especially for young female readers).

On the bright side, the art work is still adorable!

Cute installment about learning to set aside rivalries for a common good. Still love the artwork in this!

Owl diaries is so so great!!

Pinky says

The Owl Diaries have such great messages of inclusivity, problem solving and working together. The owls have a friendly competition to raise money for a "wing chair" for a sibling who needs assistance. Their fundraising businesses are the best: sweets and baked goods.

I just needed a break from adulting and found this adorable series to read. The illustrations were very cute and each book in the series has a good, short story.

Henry says

I like that they work together to earn a wing chair for Mia!(so she could go to school.)

Felt this was a step back from the previous book, but still pretty cute. I especially liked the nod to diversity and how the author showed the importance of keeping your eye on the goal and realizing that worthy ends do not justify all means.

Steph says

I love the ideas behind kids experiencing the process beginning a "company," but also the purpose to WHY Eva and her classmates are raising the money in the first place. This is awesome. One of my favorite series for kids, and this one didn't disappoint. =)

Perfect for elementary students/early intermediate ELLs.

Great drawings and a fun and developed world. I wish I could art so I could create something like this for my stories!
