From Reader Review What Lisa Did for online ebook

Charity says

Lisa's husband set her up for something she wasn't sure she was all that comfortable with, but the tables turned when it awoken a vixen in her. Lisa is now an insatiable woman who has had a taste of sexual adventure, at her husband's doing. Will that decision slap him in the face or be an unexpected adventure for him as well...we shall see in the next installment.

The story is pretty well written with a cliff hanger that leaves you wondering how the husband will fare. I don't normally like short installment of one story, but with this one it worked.

David Marut says

What Lisa Did

Wow the story was unbelievable, Lisa wasn't sure what to make of her birthday present. But her and Dan got into really well. A well written book. And the characters were awesome.

??Charlotte?? says

3.75 Stars!

Pretty good for a quickie read, Hot, Sexy & Smutty, with a cliffy, to entice you to the Next book!

(Cuckhold)

James says

Rob buys Lisa the ultimate fantasy for her 35th birthday. The only request that the fantasy is filmed. Lisa lets herself be seduced by Dan, her 'fuck' for the night and decides not to let Rob see the film, and decides to go to a masked ball without him.

Is she a bitch or not?

She claims to have an happy marriage.

Mason Hawk says

Review based on a free copy. Well, that was a read. I'm not saying anything that hasn't been said before, but since this gets posted to my blog here goes. This is a short read at 42 pgs, but the author used those pages

well. She laid down a decent plot, gave you characters you could feel for, and left enough undone to sell you the next story and it was done well. I only found a couple mistakes, but not enough to take me out of the story. For free you can't go wrong and if you get to the end and are ok with it then I'm sure the next two books will be great. I think it's a very good read.

Now the down side and maybe a ***Spoiler*** although it's hinted at in other reviews. The author made some believable characters than we think we know. In a situation we think we see playing out. That's the trouble, the ending leaves you feeling like the characters change their core beliefs. ***Spoiler*** The hubby buys wife a 'Night to Remember' from a company that does this sort of thing for \$3000. a shot. A company like this would deal with well off hubbies and more than likely their very hot looking wives. Hot enough that you would want to make sure up front that it would be only sex with men who can keep their emotions in check along with the wifes emotions, a \$3000 a night company. So the 'cock for hire' takes now to risk everything by falling in love or whatever causes him to flip the plan? And the wife, who only loves hubby and her life with him, takes the very same moment to go along with it and turn her gift into a (love?) affair? She went from someone I was hoping would have the time of her life as a gift, to a cheap cheating wife. I know that it must play well for the next two books, but I lost faith in both the wife and the cock for hire after that. If the company is effected by word of mouth, this would sink them (pay \$3000. And maybe you'll get your wife and the video back). Not sure what to do if this is the drama that pulls you into the second book, because I feel I'm starting all over again with two people I really didn't know.

Most like this, I feel you can't go wrong, but some of us are put off by the ending and for me it kinda brought me out of the story...

Lynda says

Thirty-five-year-old wife, mother of two and businesswoman Lisa Nash placed last in her own life. Her husband loved her but his love had selfish leanings, self-centered preoccupation of his needs rather than a mutual balancing for both of them. With her past birthday gifts for his benefit, Lisa was not surprised her birthday today would be more of the same. An envelope directed her to a posh penthouse and a night to remember, shock reverberated when she saw the video camera and realized tonight was not at all what she expected. Hesitant but ready to dive head first into a fantasy night, a gift she had to decide if she was going to share later with her husband or not.

Yes, "What Lisa Did" resonated like a missile on target, accurately aimed at many women's complaints about their birthday gifts, gifts that failed to light the spark in their eyes, a personal gift for their enjoyment only. This short story had to connect quickly with the readers and it did so effortlessly. With limited amount of characters, the focus was placed on the trepidation and responses of the female lead, ensuring a satisfying story. It was likable for the strong female in touch with what she wanted and the reactions of the husband after the fantasy night. As I read "What Lisa Did" it was obviously written from a woman's viewpoint, nuances were quickly noticed and appreciated. Erotic in nature, with no morsel of romance, it was a simply delicious adventure into a fantasy with references of more to come – an escape.

Sexual adult content may offend some readers. I wavered on my rating of 3 – 3.5 because although I like the book it could have used more sizzle. My review was based on the free ebook from Kobo.

Paul says

Another genre-deviation

Make no mistake, this is well done, erotic, and enjoyable. It does make me plan to get the complete story because the ending of the story either means the end of their relationship or the end of her. I think its worthwhile to read....enjoy

Thom Swennes says

When you're in love, I mean truly in love, you are willing to give anything and do anything in your power to make your partner safe, satisfied, and happy. No sacrifice is too great to achieve this end.

Thirty-five-year-old Lisa Nash is the mother of two fabulous children, Ryan and Emily. Her husband, Rob is a successful businessman and continues to rise on the corporate ladder. Lisa's life has recently not only been eventful but very busy. Her mother recently lost her battle with cancer and the recent recession has affected her music public relations firm, and she's struggled to accept the former and keep the latter afloat. The personal time Rob and Lisa once shared has dwindled to practically nothing and to add insult to injury, Rob has to travel to Paris on her birthday.

In compensation for this dismal condition and unavoidable absence on this, her special day, Rob contacts Forbidden Fantasies to provide his wife with a night to remember. The children are packed off to their grandparents and she is booked into the penthouse suite at the New Court Hotel, Chelsea, in the heart of London. Thus, her adventure begins.....

I am constantly amazed at the female mind. I've always prided myself on my overactive imagination but time and time again women seem to better me at every turn. I suppose in the beginning I was surprised and a little shocked but now I just silently accept it as the way the world is. If you are looking for a brief erotic encounter, you need to look no further. All I can say is this is hot, hot, hot.... Enjoy!

Rob says

What Lisa did

What Lisa did was have fun and we get to watch. This is a FULL story and not a super quick read it is a full story with lots of background and plot set up, it is well thought out and I will get the next part to see how the story goes.

Ray says

start your engine

I thought it was a good story. I found the wife to be interesting. I liked the insights into her perspective. I liked her portrayal and not making her simple and needy. Nice writing.

A.L. Haddix says

Great erotic short story, good balance of character, story and sex. Definitely left me wondering what would happen in the next chapter of her story.

Robert says

I really liked this book....with a small "but". Great story for all the chapters but the very last. Like others have said, I didn't really care for the way it ended. Though it's not really an end...more of a bridge to the next book. Lisa seems to majorly shift her thinking from the way she was in all the previous chapters RIGHT near the end.

Though, I guess the "hook" worked because I wanted to know what happened next and have started the next in the series. IF you get hooked like I did, buy the 3 book bundle. It's cheaper than buying the books separately. And each book is a bit pricey for the short length.

Tanya says

A good read. This story turned out to be much better than I expected. All the sex scenes were very hot and steamy beyond words, while Lisa's confidence and Dan's easygoing attitude made this short story rather pleasant and enjoyable.
