What the Cat Dragged In Gilbert Morris

A charming new mystery series from beloved and bestselling author, Gilbert Morris...

Introducing...

Jacques the Ripper: A tough-minded “Savannah” breed of feline-fierce, enormous, and with a mind of his own.

And...

Cleo: A multi-colored “Rag Doll” with long silky hair. Cleo is as affectionate as Jacques is tough and her favorite mode of transportation is draped over the shoulder of the nearest human.

In their debut mystery, Jacques and Cleo and their owner...or rather the human *they* own, Kate Forrest, and her son, Jeremy, move to a beautiful beach house in Gulf Shores, Alabama, left to Kate by a distant relative.

The catch is that *another* distant relative, wanna-be novelist (and bona fide cat-hater) Jake Novak, has also inherited an interest in the house. Undeterred, Kate and Jeremy move in the downstairs quarters and Jake takes the separate apartment upstairs.

Then, when a murder occurs...everyone is stumped—but feline sleuths Jacques and Cleo come to the rescue and reveal the identity of the killer.

About this series: For years, mystery readers and cat lovers alike have devoured the suspense novels by Lillian Jackson Braun, Rita Mae Brown and others, in what has developed into the bestselling cat-mystery genre. Now, veteran fiction author Gilbert Morris joins the ranks of those prestigious novelists with his Jacques and Cleo, Cat Detectives series, destined to become a welcome addition to this genre by feline fanatics everywhere.

I'm not opposed to spiritual dialogue or interest used in the telling of a story, but there was just a little too much spiritual interjection in this story for me. Also, the "characters" of the cats were very seldom, and, dare I say, 'poorly' used. The story itself just went plainly along... Personally, I will not be reading any more of this series. ~d~

Carolyn says

Fun story, intriguing mystery and romance! Plus two gregarious cats and lots of other interesting pets. Most enjoyable!

Amanda says

I thought this was a pretty good book. It was entertaining and full of some unexpected twists, perfect for a murder mystery. A couple of the twists I was unhappy about, so I'll be looking forward to reading the next one in the series to see how it plays out.

Malia says

This book is hilarious, WOW!

Lana Kamenof-sine says

Oh dear. An attempt to emulate the Lillian Jackson Braun series but with a very intrusive Christian overlay. would have benefitted from tighter editing.

Michael crage says

I really enjoyed this book, I was afraid I wouldn't from the title, but it was large print mystery so I decided to try it. I am really glad I did. The cats do play a part in the book, but as I feared, they did not dominate it. There was good character development and a surprise ending. It was fun to read.

Tammy says

A clean mystery story that happens to have cats in it. Jacque does point the way to an important clue to solve the murder, but most of the story is spent setting up the characters and the location. This is the first in a trilogy so I'm hoping the next story moves faster.

Julie Taylor says

Adorable. I loved this series. It was interesting, but also light-hearted and full of mischief.

Robyn says

Very creative series - Good

Laury says

Way too much bible preachy stuff in this.

Samantha says

I love cat detective books. I know, silly, but they're so fun to read. Plus this series is set in one of my favorite places in the world, the Alabama Gulf Coast. Jacques and Cleo have a fun relationship. I do love the humans in the books too.

Christine Hayes says

Good read

Jeanette says

This was a great read. It was a better read than I thought it would be when I first picked it up.

Donna says

This was a good book, not a great book.

Well-written and good character development, easy to read, but nothing about it urged me on to finish it immediately. It was not a oh-my-gosh-what's-gonna-happen-next book. Biggest problem with it is figuring out which genre the author was attempting to write in -- a cat whodunit (like Lilian Jackson Braun's books), a regular mystery, or Christian fiction.

Unlike someone else who reviewed this book, I did not find it preachy.

Might read the other books in this series if I happened to find them used, but as far as looking for them to read immediately - no.

This sounds like a negative review but it actually isn't. It was pleasant. I'd pick it up every so many days and read a few pages.

Erin says

This is the first book in a trio of mysteries involving two cats and their people... I liked the way the author portrayed the cats and the story was interesting. It's actually a Christian series which I didn't realize when I picked it up, but it wasn't preachy...it was just interesting to read the viewpoint. I liked the description of Gulf Shores, Alabama and overall, this book was a fast read. I own the other two, so I will be reading them. :)
