THAT ENDING DID NOT JUST HAPPEN???

Wow, i'm SHOCKED with that ending!! I thought we'd get a sick cliffhanger, since it's the second book in a series but I didn't expect THIS!! Like how am I going to wait for the next one?

'Hiding was never in their plans. And they've been waiting for this...'

For Kaz and Violet, being together is not without a price. But they're ready to pay whatever price they have to be together.

She'd always choose to walk toward him—she'd already done that several times over. There was no walking away. There would never be any walking away.

This book had such a nice built up that I loved immensely! It was not filled with action every page, there was a story that was being told and explained. That really made me get into this story completely.

I loved how when I got to the end, I was flipping the pages like my life depended on it! My heart was racing because I was like **'Oh no, Oh no, don't stop now!!'**

Bethany - Kris and London Miller are doing an amazing job together, and i'm pretty much in love with their writing and storytelling.

Kaz and Violet stole my heart, and i'm *praying* that their happy ending comes soon without too much heartbreak because i'm right there behind them.

"I was never given the choice with my family. Kaz has always been my choice."

TITLE: Where the Snow Falls

SERIES: (Seasons of Betrayal, #2)

AUTHOR: London Miller

GENRE: MAFIA | CONTEMPROARY ROMANCE

CHAPTERS: 19

RELEASE DATE: August 8th, 2016

MY RATING: 5 STARS

"Blood always leaves the brightest stains where the snow falls."

WHERE THE SNOW FALLS: This is the continuation of Kaz and Violet's story. We first met Violet & Kaz in **Where the Sun Hides**, two star crossed forbidden lovers, from opposite sides. And kicks starts off right where BOOK#1 left us dangling.

Where the Snow Falls Stars us off with *Kazimir Markovic* finishing his six month sentence in just four months due to good behaviour which sees kaz as a free man.

While Vasily (Kaz's father) had thought his stint in jail would magically cure him of whatever spell Violet had him under; it had only managed to make him want her more.

With his plans already in motion the very second he's free, Kaz goes after what's most important. Violet first. Vasily second.

After four months separation Kaz makes his move to reclaim Violet and this time he is playing for keeps and has a plan to enforce that. But to keep Violet safe like thieves in the night they have to leave town.

Things that fit together as perfectly as she and Kaz did weren't wrong.

In keeping with the mafia genre, this goes that wee bit grittier which I love, BOOK#1 tiptoed into the grit but this book jumps in with both feet..

**The Russians are out for blood.
The Italians want their blood back.**

Old dark secrets are revealed, strong bonds that tied them all will break, bullets will fly in all directions, blood will flow freely, and death will abound. No one comes out unscathed.

Someone always has to lose.

Taken, kidnapped, thrown into a van

She didn't even see his fist coming until he knocked her out.

The ending will gut you, split your heart in two, now it's a waiting game for the next book in this series because as cliff hangers go this was epic!!

There wouldn't be any torture tonight. It would be simple. An execution.

** 4 Love with conditions applied Nutella jars**

Oh when does it all end maybe today , tomorrow or never this love had caused so many chaotic rebellions but maybe the untapped wars had already erupted way before.

Violet Gallucci was still trying to survive the aftermath of book one , she knew something was wrong and her father wasn't the man he pretended to be. Now that the man who has her heart is out and about the real show is about to start. She didn't care what would happen once she took Kaz's hand because it was worth it , he was worth it , the bloodshed would be worth it. She was his and nothing would change that not even dark rooms and silent screams.

*"Violet wasn't living for her father now.
She was just waiting on somebody else ."*

Kazimir Markovic was no longer the same man he used to be , he wasn't his father's protégé oh no Kaz was much more vicious now. It was time to set his plans into action , plans that he'd sat on to beat Vasily at his own game but things don't always pan out as there supposed to and when the blood taints the perfect snow it'll cause an uproar no one anticipated for .

"A desperate man always made mistakes.

And his mistake was turning against his own for greed."

Desperate that was one way to put it but when something crosses the line of desperation and sanity then your left with one thing Corrupted.

"Men like me ... We need a declaration. It's no longer just about bending rules or breaking them even."

For all the wasted time Kaz & Violet weren't wasting it again. The rush of love is addictive the taste of lust is irresistible.

" Violet didn't get the chance to prepare for the next moment when his hips flexed forward; his cock stretched her open, and he was filling her full with one hard, deep thrust. She focused on his voice, the hand pulling her hair taut, and that sting keeping her eyes wide and her teeth clenched. ."

To bethany Kris please just stop. Stop raising me expectations of men unless you can send them over to me cause if not I'm gonna be single forever and as exciting as that sounds I need Kaz now. If your hoping for a heart stopping roller coaster ride then Bethany is your girl , it takes a certain touch to write compelling books that have you hooked from the start. Now I've been reading BK books since the Marcello stud muffins graced my kindle and ruined me for life but the magic didn't end there , with each new family the addictiveness was guaranteed be it with the Italians, Russians or soon to be Irish everything is on point. Kaz & Violet as characters have matured by a margin , gone is the kiddy love and hello passionate romance. London Miller how can I possibly obsessive over you more then I already do , Ms . Miller never ceases to surprise me with her ability have a certain way about her. I first read her I think before or after Where the sun hides but nonetheless she is my top 3 favourite author around and if you haven't picked up her Mercenaries then DO.IT.NOW. I'm still obsessing over those characters, Bethany & London are a match made in fictional heaven.

You want alpha well then is the book for you there's something rewarding in watching a character grow whilst keeping true to their charm and that's exactly what H/H did for me they grew to gather and loved unapologetically just the way it should be. Overall read this book and fall in love with your

new fictional husband.

4.5 stars!!!

“There wouldn’t be any torture tonight. It would be simple. An execution...”

OMG, I need the next book. Seriously, gimme, gimme, gimme. I feel sick. OMG, Bethany Kris and London Miller, how could you do this to me? This series has been so addictive from the very beginning and Kaz and Violet are one of my favourite mafia couples. So, diving into this one with high expectations it was a relief not to be disappointed as this was definitely no filler book. This was a fantastic sequel and one that was action packed from the very beginning. Kris and Miller took no prisoners, throwing you into the thick of it from the start and they don’t relent, even to the last word.

“...he started a war, and I plan to finish it.”

Where the Snow Falls is the continuation of the forbidden mafia romance between Kaz and Violet, Kaz being Russian and Violet, Italian. Their families had called a truce years ago as long as they stayed out of each other’s way and off each other’s turf, so when the son and daughter of the respective mafia bosses fell in love, you knew that all was never going to end well. But as we knew from book one, this truce was born from blood and betrayal, one that Kaz would never forget and wanted vengeance for.

“I was never given the choice with my family. Kaz has always been my choice.”

This book starts with Kaz and Violet being reunited, despite their father's best efforts to keep them apart. Now the battle really begins. Not only for justice but for their lives. Everyone is out for blood and Kaz and Violet is top of the list. The lines between good and evil are extremely blurry and not knowing who to trust is high on their lists. But Kaz has respect amongst his peers and now it is time to regroup before the real battle begins.

"Welcome to Chicago, Violet Gallucci. I certainly hope you're worth the trouble you're about to cause."

The character connection, as in book one was on point, the heat, chemistry and palpable connection that these two had radiated off the pages, that insatiable hunger felt real, tangible and with every moment apart and every moment together, not once did I not believe in them as a couple. It is this connection that has you rooting for these two. I have lived and breathed this couple for two books and with every page and every breath held I find myself falling down the rabbit hole of Mafioso heroics, murders and culpability with these two at the forefront of my thoughts. I desperately want these two to get the happy ever after they deserve, yet with each scene that Kris and Miller deliver it seems that hope just scatters further and further away.

"You don't have to be good enough for everyone else, Violet, only him."

What an ending though, my heart in my mouth, my hand on my heart, I literally couldn't breathe. These two authors are pure, unadulterated evil, they are evil personified. Twice they have ripped out my heart and stamped on it and now I have to impatiently wait to be put out of my misery. Or at least I hope to.

"You are your father's son."

This series is the perfect balance of suspense and sex, it is intriguing yet intoxicating, the intense plot more than carries a beautiful romance steeped in trust and love. The growth of Kaz throughout this book only intensified my love for his character. From the alpha male in the bedroom to the commanding presence he resonates on every single page. From being an "I" to an "Us" this man takes on his responsibilities and no man, family or foe will take that away from him. I really wanted Violet to embrace her inner mafia princess in this book. I know that she had been sheltered but she knows that their lives are on the line, I desperately want her to step up to the plate in book three, Kaz cannot take on the world on his own or is it too late?

This is was fantastic sequel and I totally fell for Kaz in this book. He was a delicious bad ass and I totally loved everything about him from his kick ass moves from the beginning of the book and throughout the story.

Sadly, this ends on a brutal cliff and I'll be a hot mess waiting until the conclusion is released. I do wish that the heroine becomes more aware of what is going on and kick some ass or makes some moves herself because her guy is some serious trouble.

Please hurry book three up I honestly can't wait.

ARC received from authors, in exchange for an honest review

I will start by screaming.... THE ENDING BROKE MY FREAKING HEART!!! That said, I loved this book. The romance was genuine and the sex was so hot. I mean, they had months of Kaz being in jail to make up for, and boy did they make up for it. Kaz and Violet's love, trust, and loyalty for one another was just the best. I wanted anyone who tried to come between them put down immediately. There was a good deal of scheming and action. This book introduces a Chicago bratva, which I've fallen in love with already. I could not read this book fast enough and now the wait for book 3 begins.

5 Hard, hot, and aching STARS

"He started a war, and I plan to finish it."

Lo dije con el primer libro y lo confirme con este. Esta es la mejor serie que ha publicado Bethany en este año.

Aunque siendo honesta lo mejor de la historia es el personaje de Kaz, y el salió de la mente de London Miller, aplauso ambas autoras por crear increíble historia, por coordinarse lo suficiente para que no se sienta el cambio de manos en la historia.

El primer libro estaba completamente basado en el amor prohibido entre hijos de mafias enemigas.

Pero aquí vemos el después, el que sucede después de que se abrió la lata con gusanos. ~~El que hubiera pasado su Julieta y Romeo no se hubieran suicidado.~~

Kaz paso meses en la cárcel, su padre le dio la espalda, pero Kaz también le dio la espalda a el, tenemos un guerra a punto de desatarse, aunque tenemos 3 bandos, los rusos, los italianos, y Kaz y Violet crean su propio bando y no se tentaran para pelear con todo por estar juntos.

Una historia de infarto, intrigas, drama, sorpresas y nuevos personajes.

Hablando de los nuevos personajes, tengo una duda. Todas las series de Bethany están entrelazadas, todas se desarrollan en el mismo mundo. Esta serie también? Y si es así, la **familia Boykov** ha salido en algún otro libro?, si saben plis díganme, díganme, quede enamorada de Kolya y Konstantine, por sierto me confundía constantemente con los nombres.

Ustedes saben que a mi me encantan las historias con clichés (bien desarrollados) y esta historia tiene mi favorito: (view spoiler)

Ahora hablemos del final, que es un BIG FAT FUCKIN CLIFFHANGER. (view spoiler)

Cannot be read as a standalone

The story starts with Kaz getting out of prison. He is on a mission, and it's his turn to do the chasing. There are more erotic scenes and bloodshed than the previous book.

Violet is also rebellious in her own ways. Although her father is still furious about her decision, she trusts Kaz completely. The relationship between Kaz and Violet are hot and sweaty.

As Kaz's plan involves staying in Chicago for a while, we're introduced to a lot of new characters. I loved reading about them.

And the ending..... get ready for another event that will leave you wanting more.

Kazimir Markovic is free after four months behind bars, his father expected it to teach him a lesson, not set him on a path of destruction and bloodshed. The only thing on his mind is his Italian love, Violet Gallucci. Hiding isn't part of their plan, biding their time while they work out an elaborate plan to take out the Russian Mafia's boss is. The Italians want Violet back, but Kaz won't allow that. As the weather turns bleak and the streets turn white with snow, the bloodshed is more apparent than ever. Someone has to lose the game.

Would he ever harm her? No. He would go to the ends of the earth to keep her safe. But others? If they thought to cross him or attempt to keep him away from her, they wouldn't be as lucky.

Starting four short months after the end of *Where the Sun Hides*, *Where the Snow Falls* is the second novel in the Seasons of Betrayal series by Bethany-Kris and London Miller. Like *WTSH*, *WTSF* is told from the dual POV's of Violet and Kaz, but this time the plot has thickened and the outcome seems bleaker. I cannot get over how strong of a character Kaz is, we get less of a glimpse of his personal thoughts in this release, but we see a lot more action on his part. He is ruthless, determined, and the most loyal alpha-male. Violet is sweet as ever, except she's accepted the lifestyle much quicker than I expected her to. She fell a little flat for me in this novel, because she couldn't very well get involved with the bloodshed with how protective Kaz is, but after that ending I know we're going to see her take the stage soon. The scenes these two share together are out of this world hot, filled with chemistry and smut, I could not get enough of them. This forbidden romance with a mafia twist is definitely one I can't put down and the cliffhanger only keeps the series and

characters in the forefront of my mind.

It was almost as if he loved to watch all the sounds fall from her lips. Like it was his favorite thing next to making her scream.

Bethany-Kris and London Miller continue to show their skills in the romantic suspense genre with Where the Snow Falls. The writing in this series is excellent and allows the reader to see every scene and feel every emotion. I have fallen in love with Kaz, with his dedication to Violet, and the amount of destruction he goes through to keep his heart safe. This is a mafia tale like no other and I recommend it to all readers who enjoy romantic suspense, mafia, and forbidden romances.

Kaz had never felt terror-not that all-consuming emotion that made him feel like he was going to fucking die just from the rapid pace of his heart-but then he felt it then.

4.5 KAZ STARS

I simply can't get enough of this series!! The dangerous and deadly clash of the Russian Bratva and Italian Mafia continues with the forbidden love of Kaz and Violet. After months of separation, they're reunited. Of course, my man, Kaz has a plan and now's the time to put it all into action: to keep Violet, take down his father (head of the Bratva) and neutralize Alberto, the boss of the Gallucci Mafia. No small feat!

"He started a war. I plan to finish it."

This story takes us from New York to Chicago where we meet the Boykov's, I seriously liked these boys. I hope there's going to be stories on this Russian outfit. Here things simmer as moving parts are put into play.

Then the rubber hits the road as things heat up. Trouble comes to them and the chase begins.

Violet and Kaz were as intense and hot as ever. I love these two and how they work against all odds. The reality of their future also begins to take hold as Kaz's plan unfolds.

"She'd always choose to walk toward him - she'd already done that several times. There was no walking away. There would never be any walking away."

"You don't have to be good enough for everyone else, Violet, only him."

You could see as this book unfolded where it was going, what it was culminating to...I wanted to take Kaz, sit him down and have a chat. As much as I love that man, I wondered WTF as the inevitable hurled towards them!!!

"Blood always leaves the brightest stains where the snow falls."

Again, the ending leaves us hanging, like seriously hanging! My heart's in my throat and I'm grasping for air.

No surprise, I knew it'd be bloody and treacherous, but Kris and London know how to toy with my emotions! I'm in desperate need of book 3! I highly recommend this series if you're a lover of mafia romance, forbidden love and are not afraid to venture into dark and scary places!

4 "I love you, Violet" stars

The second installment in the **Seasons of betrayal series**, the authors lead us straight to the events following the ending in book1 in the exciting continuation of **Kaz and Violet's destined love story**.

Four months had passed since Kaz was imprisoned. And there's only one goal on his mind. To get Violet and to take his revenge against his father.

„...he started a war, and I plan to finish it.“

But as he's planning his moves, Kaz doesn't think twice in what he has to do in clearing his path toward Violet.

„You can't kill all of them, Kaz.“

„I'll do what I have to.“

Cause SHE is his only truth that matters...

„I love you, Violet. Don't ever forget that.“

And he's do anything, anything to protect her, keep her safe and by his side...

„Don't make promises, Kaz. At least not ones we don't know if you can keep.“

„I'll keep this promise – even if it kills me, krasivaya.“

„As long as you are happy, then nothing else is important, Violet.“

And Kaz is determined to have his way, no matter the consequences, no matter the price...

„You want that girl and look at what you're doing, Kazimir – ready to tear your own family apart and spill the blood of innocents to keep her.“

But as the web of devious planning sets its own way to doom and course of actions lead towards an unwanted conclusion... and that of a worst kind, the devastating one... OR?!

And once more, **Bethany-Kris and London Miller** leave us all with the question mark on our faces, and making us throw a fist in angst and WTF? scream...

So awaiting for the answers to be given, I am highly and nervously sighing in expectance of the third installment to see the day of light.

Thank you, Bethany Kris!!! Muah

5 "More Kaz" Stars

I need book 3. Seriously.

The continuation of the forbidden romance mafia style from Where the Sun Hides is just as good as the first. With sex, anticipation, broken rules, murder, and family rivalries, I am hooked. This series has taken over my brain and become one of my favorite mafia story lines. Kaz and Violet are fighting pretty much everyone in their lives to get to their HEA and as soon as it seems within reach, the rug is pulled out from under them (and me), leaving us all gasping for breath and clutching our chests in agony.

Kaz and Violet are finally reunited after months of separation due to their controlling fathers. Knowing they

have to get out of dodge and Kaz needs to make sure Violet is protected at all costs, he has a plan. Well Kaz always has a plan but this time he's thinking long term. After finding out the dirty details of exactly why he and Violet met all those years ago in the cemetery, he's out for revenge and to make sure he can live the life he wants with Violet. But life in the mafia is never easy or safe and Kaz only hopes he can put his plan into action before all hell breaks loose.

I seriously love these two authors. They write sex and suspense like they were born to do it. This series has jumped to the top of my favorites list and it's not even done yet. I'm an anxious mess to find out how Kaz and Violet are going to overcome their current predicament because quite honestly, it seems impossible. So while I hold my poor battered heart in my hands, I have my fingers crossed that book 3 comes quickly and gives me (and Violet and Kaz) the ending we're all hoping for.

NO MANCHEEEEEES!!!!!! ???

No voy a superar ese final o sea WTF? Esto es demasiado para mi pobre corazoncito ?

Este libro ya no se trata sobre el comienzo de ese amor prohibido, ahora Kaz y Violet van a luchar contra todo y todos para que nadie los separe, así tengan que desatar una guerra e ir por las cabezas de sus padres.

Kaz tiene nuevos aliados la familia Bolkov de Chicago por lo tanto nuevos personajes que me encantaron principalmente konstantine ? Quiero leer un libro de él.

También tenemos Maya y Kolya la verdad es que ellos me intrigaron mucho porque es un matrimonio ya consolidado pero quiero conocer el inicio de su relación.

Este libro tiene más acción, más intensidad más Kaz sobre todo más Kaz peligroso y Letal es sin duda lo mejor del libro ???

Sino le doy las 5 estrellas es que en esta ocasión las escenas de sexo me cortaban el hilo de la historia
