"You think maybe Breanne is somewhere else, now, deciding whether it's worth it to come back?"

"It's possible," Ashe said, rubbing his forehead. He hadn't had a headache this bad in almost a decade. He'd had this one for four days.

"She may not want to stay here if she wakes up," Trajan sounded troubled.

"I know. Sometimes I want to kick my own ass over that."

"I'll do it for you."

"Look, you're still the better fighter, so no, thanks," Ashe held up a hand.

The rogue gods, sure that the Mighty Heart is dead, have stepped up their game.

Bill, Hank and the others are concentrating on tracking a human known to have ties with the rogues—Vernon Clark.

Vernon has manipulated many things in the past from his website. He was the first to claim that Breanne was a lie created by Rome Enterprises to destroy Joyce Christian's reputation after her death. He has many nefarious contacts, and not just with rogue gods and Sirenali.

Hoping to get information and locations on the enemy from their quarry, Bill and his team travel to New Mexico, where Vernon Clark was last seen. Their search for the enemy then leads to other states, where things are beginning to heat up.

Wildrif, the quarter-blood Elemaiyan seer, has become an unreliable source of information as he can't see past shields surrounding Bill's group, so Acrimus and Calhoun bring in another seer—one so dangerous even those who resurrect him fail to understand their peril.

The God Wars continue.

The characters are evolving, Breanne is becoming an individual and maintaining herself. I feel like she is relying on others which is an accomplishment all on its own. I like that she is growing into her powers. This just causes me to see what happens to her in the final book.

Love this series. Had a whole range of emotions while reading. From anger, sadness, to happiness. There were some times I wanted to jump into the book and knock some sense into the characters. There were other times I did a happy dance.

As I said, love this series. I would definitely recommend reading. Make sure to read Connie's earlier books, such as the Blood Destiny and High Demon Series first as some things will be given away.

How can you tell when a Connie Suttle heroine is getting a new beau? Has the man either irritated or hurt the heroine emotionally (sometimes even physically)? Yes? Then he's next in line to be a mate!!!

Seriously?! Arrrrrrrrrrgh! However! There continues to be improvement in the Breanne (in fact, all the women) as doormat department. Honestly though, nothing much happened in this book. Something happened in the beginning, something happened in the end and the rest was just all blah, blah, blah. I am caring less and less about these people and their problems, especially since none of them can recognize a foreshadow even if it kicked them between the legs. They are actually foreshadowing THEIR OWN SELVES and are all surprise later. I'm so glad this series is ending because there's no way to punch a lot of these people in the face and omg do they deserve it. A couple of the guys aren't total douches though and some people I didn't like got what was coming to them, so it's not \*terrible\* this time around; but, seriously, I was bored most of the time - and the cast 'o millions certainly doesn't help.

What a shocker in the latest installment of the God Wars Series. Ms. Suttle will chew you up and spit you out in Blood Love. All I could say when I finished was, "NO!!!!". Connie's response per twitter was, "oops".

What I liked: Having read all the books in all the different series of Ms Suttle's book world, I thought I knew what to expect. You get an action packed story with loving, accepting heroines usually with said heroine in some dire straits at the end. I got all that in Blood Love except the ending. That's as much as I can say but you too will be yelling at the end.

I can't say enough good things about the character development, world building and cohesiveness of the writing. Recognizing an Indie author for the editing is high praise and well deserved in all Connie's books. How she keeps all the characters straight without messing up is beyond me.

What I didn't like: There are soooo many characters in Connie's books. So many, in fact, I find it very hard to remember who's who. I read her books with the glossary from her website open in my browser. Don't get me wrong, I love all the characters but if they weren't all necessary, I would be frustrated by trying to remember them all. That's the thing, they ARE all needed to make the books what they are.

Yes, I'm a fan of all Connie's books but that doesn't mean that they are for everyone. They are intricate and the female leads aren't necessarily the take charge, kick butt females of most of today's novels. They are more subtly written with their own qualities that draw you in.

Still in shock at the ending!! Can't wait until December to see what Ms Suttle has in store for her readers and fans.

Very, very good. Kind of sad that we might not see Ashe and Breanne anymore. I was surprised to learn that Charles was the third...maybe I had missed that in the other books.

The enemy thinks that Breanne is dead, but that's not the case. However, her mates don't know where she is, or what she's doing. She's actually very busy, and is trying to save peoples lives. Now, she will do everything she can to help out.

This book was just okay. I don't like the way this series is really turning out, and I'm not very hopeful for the next one, especially after this one ended, but I do want to read it to find out what happens.

Super action and involvement of many of the key characters in this series. Unexpected events with many changes of time and location. As always I look forward to the next book.

#### **MAJOR SPOILERS THROUGHOUT:**

I liked this book. I really debated if I was going to read it because I have not enjoyed the last two and I didn't like where the series was going. I am really glad that I decided to stick around now. While this installment in the series wasn't my favorite, it was a big improvement. In the last books, we saw a lot of what happened in the past but not in the future which was my main problem with them. This book skipped back and forth between the present and the past a lot more which I really liked and made it more interesting.

I felt like Breanne accepted that she is The Mighty Heart and she finally took on an active role in the outcome of things. I have complained before that I felt like Breanne avoided her problems by going into the past so I was happy to see her step up to the plate for once. I agreed with most of the decisions she made and I definitely like her character more now. I do like where her story is going when it comes to her mates. There are a lot of them but I like each and every one of them for completely different reasons.

I was shocked when Norian died. I don't think I should have been but I was. Even though I didn't agree with a lot of the decisions he made, I still felt bad when he died. I hope that Lissa can get over the death of her son and her mate being so close together. I know that is going to be really hard on her.

I was also shocked when Charles ended up being The Mighty Mind. Looking back, there are a few clues here and there but I never would have guessed. I am actually really happy with Charles being Wisdom because I feel like it suits him and I know he would use his powers for good.

I don't know how Connie can make me dislike this series so much one minute, and then love it the next but she does. Every book brings something new and I love being apart of the intricate world she has created. She also finds new and interesting ways to shock me. Her plot twists and cliffhangers are no joke and I love how they constantly keep me guessing. I will be reading the next book. I can't wait to get started on it!

I was disappointed by the last novel and hesitant to continue, but I'm glad I did. This penultimate installment to the God Wars series definitely moved the overall series plot forward and has a surprising twist in the end. I'm definitely not hesitant to read the next and last in this series!

After sacrificing herself in the last novel, Blood Revolution (God Wars #3), to save her father, Breanne is brought back to life by the Larentii Wise Ones. It takes her a while to decide to return to the land of the living though, and once she does, she's able to help Kay and pick up at least 3 new mates. She still faces numerous issues with Sirenali obsessions, including someone close to her, and she has to work with Ashe and the rest of her Earthly crew to root out the rogue gods and their cohorts there. a major cliffhanger at the

end sets up the last novel well.

As far as relationships go, i feel like there is a little growth/depth added in this novel in regards to previously established relationships, but as with the old mate relationships, so it goes with the new ones - there isn't much development before people decide they're mates. the mystical M'fiyah (soulmate recognition) is ever present, and so people decide they want to be mates with someone else without there being any substance to the relationship. that can be a bit difficult to accept, even if you're able to accept the concept of multiple mates. honestly, Breanne's mates don't really present an appealing advertisement for multiple mates (in fact, none of these series do).

Still, the rest of the plotline is intriguing and some new information is revealed about The One and The Three which will prompt a reader to pick up the next novel.

Some people may think, that by being a god you can do whatever you want and have all the time in the world to do it. Well, those people would be wrong.

Coming back to life, Breanne has an endless to do list, and time is running out, in every time frame to be exact. While she is starting to get her strength back, the rogue gods are trying to destroy the universe as we know it and start their own regime. Bree, as one of the Three, can't aloud that to happen, and with the help of Ashe, and her mates, she takes on an impossible task. But how can you fight something that you can't find?

My thoughts:

I'm probably not an objective person to say it, since I love all of Connie Suttle's books, but this book is so far the best in the series, for me. There is everything you want to find in a book. Action, drama, romance and tragedy. That's not all hat you can find in this book, those are just the highlights. Connie Suttle has created a world (or worlds, which the case may be here) where everything is possible and the reader just can't takes his/hers eyes of the story being presented in such a wonderful package.

Oh boy, this series just gets better and better. I can see how this might have been the ending of this series but I am so glad that there will be more to this story in December. I was taken by surprise at the sadness I felt at one point because I would have thought the very thing that happened might have made me feel glad. It didn't. I was not quite surprised at another point in this story as I had my suspicions, especially after the last book. I can't even imagine what the grand finale will be like!
