Forgetting Me Crystal Spears

She doesn't even see me anymore.

I've been discarded and thrown in the trash, right next to the dirty diapers.

We have a little downtime, and I can't even get her to go down.

I deal with it though, until my oldest daughter sees my hurt.

I've vowed always to protect my children; now Storm better watch out, because I'm coming for her.

Caro Richard says

It's all hotting up again, life in Breakneck!

'You've started a life with men in an MC. You want red roses? Too bad. You got black roses.'

Maybe I needed to remember this. I'm sure I remembered ZZ being more understanding than he was. Actually making his woman feel guilty about loving her new baby. I did not like that. Maybe I put him on a pedestal? Well I knocked him off today and he has been replaced by Shadow!

This book has reinforced that I still hate Lana too!!!!

And then that ending. I nearly blubbed. Whilst I didn't like an element in this book I can't wait for the next, October 28th needs to come fast!

Gutted!!!

I am literally crying my eyes out as I write this review. The book surpasses anything I could have imagined. I loved how we get an update on all the characters, even the secondary. The end blew my mind since I thought it might have been going in the directions as many of the other O'Ladies. I was blown away and tears just kept coming. Now I am sitting on pins and needles waiting for Schooling Me to be released. Job well down by Crystal Spears, as always.

WOW WEEEEEEEEEEEEEE! The world of Breakneck is about to enter the calm before the storm!!!!

Crystal Spears came back writing with a vengeance with book 6, "Forgetting Me"! This is ZZ and Storm's story but also every old and new characters tale where even a dead characters returns causing a bit of a divide which started in book 5! Braxxon, the Prez is overwhelmed with major changes going on in Breakneck MC but that in turn is affecting everyone including the Red Ladies in various ways in the series.

This is one series I'm glad of the direction it is going but things are about to get bad... you can feel it! Poor Tea!

Storm to ZZ: "Shut it, ZZ," Storm snaps. "You're a grown ass man. Here's a lesson you might've forgotten growing up. Just. Say. No."

Funny moment: Shadow, the mysterious one was once a bottom and can work a stripper pole..very well!

Holy Fuck. That ending.....damn. This book has kept my love for the series alive. It was seriously wavering after the last one. I was really gonna call it and say i was done with the series, which I've done in the past but this book restarted all that and now October 28th is to far away even though its Oct 16th now.

ZZ has a way to storm into your hearr

Wow Crystal has done it again. She has created a world that you just want to be a part of. ZZ and Storm have battled through Hell to get their Happy but the battle not over yet. Love is strong and can conquer all but in the Breakneck world usually blood has to be spilled to get to the Happily Ever After. Oh have Kleenex ready for the end You will Need It.

No more secrets it's all out & everyone knows what their up against . Very much looking forward to the next book.

Speechless....

I don't know where to start but omg what a perfect novella!!! You get to see what is going on in the Breakneck world.... With the build up of what is to come, and see where everyone is at. Something major that I did not see coming (towards the end) knocked me on my butt.

I cannot wait to see what happens next!!

Amazing job CS.... This was a five plus star ? read for me!!

Forgetting Me....Yes

Crystal Spears I swear gets better everytime. Absolutely loved Forgetting Me. I cried , laughed and ahhhh from beginning to end. It's a shorter story but pacts a punch. I will re read it again because this series is that good. So if you haven't read Book six of Breakneck Series Forgetting Me ..it's a one click option only. Happy Reading!!

Did not see that coming!

This is a welcome edition to the Breakneck family and as always Ms Spears delivers the emotional roller-coaster ride we've all come to expect from her writting. Her stories are like coming home, like a warm cozy blanket that wraps you up in the lives and trials of the Breakneck family and just when you think all is right in their world, she rips that shit away from you and leaves you an emotional wreak at the sudden unexpected twist you just didn't see coming... Where ever this roller coaster is heading, I for one will be booking my place and strapped in till the very end xx

It took a coons age for Spears to give us Reconstruct Me and now in the blink of an eye, Forgetting Me. This book was in one word, fanfuckingtastic! It was more than a ZZ and Storm book. It highlighted all the Breakneck family. The high, lows and everything in between. Spears is setting the stage for major events. Relationships are going to be tested, lives are going to be changed, I'm sure. I am very excited for Schooling Me coming very soon. Getting ready. Happy Reading!!!

Jennifer Finn says

This is the sixth book in the Breakneck MC series by Crystal Spears. This used to be one of my favorite MC series, well at least for the first four books. I waited patiently for over four years in between Discovering Me and Reconstructing Me and when I read the last one I was so annoyed at the resurrection of Lana (who I hate by the way) and all the bullshit that went with it. I feel like the author was taken over by pod people while she was MIA for four years because this book and the last one are nothing like her earlier work. I almost

DNF'd this book a few times but I forced myself to finish it because I hate to be a quitter. I always liked Zig Zag in the other books and I loved him and Storm together. But in this book I think he was being a complete asshole to Storm. I understand feeling neglected and all because of having a new baby but it had only been FIVE WEEKS ! If Storm would've given birth to Miracle she wouldn't have been cleared for sex until SIX WEEKS afterward. So in my opinion ZZ was being a selfish cocksucker who was totally unreasonable and a cry-baby. Then he acts like a fucking douchebag when Tatiana gets upset thinking they're gonna split up. God forbid Tatiana is upset, who the fuck is she ? Grow up ! Reading this made me lose all respect for ZZ and Storm for kissing his dumb ass. The only person I did like in the last two books was Braxxon. Everyone was such a dick to him because of Lana and I felt horrible for him. He felt so guilty over what happened to her and probably would've done anything to help. Lana was the one in the wrong, not for faking her death but for not staying dead and disrupting everyone's lives. Giving this misogynistic shit show of a book three stars was being incredibly generous and I don't know if I'll continue with the series.

Mardell Bonasso says

I will have the worst book hang over and anxiety until the next book comes out. ZZ and Storm are my 2 favorite characters in the breakneck series. I can never get enough of them or the Breakneck brothers. This book follows in true Breakneck fashion with ongoing club drama and suspense. This book introduces a few new club members. I just love the little extra drama with Tea. Crystal Spears is back and her writing is better than ever!

Mirtie Raczo says

Wow

This book was a happy surprise because I didn't know anything about it. The author just whipped it out of nowhere as a surprise for her readers and I loved it! It's sort of a nice little "catch up" on all the characters until the next book comes out. There are lots of changes for many of the couple's and a serious challenges ahead for the Breakneck Dani in addition to looming danger. I can't wait to see how it plays out!
