**Love Sprung From Hate** Sienna Blake

Cold. Ruthless. Killer.

That's my birthright. The only thing meant for me.

Until *her*.

Because when she gazed up at me, her honeyed hair spread across the pillow, her soft body naked and open, she made me feel like I could be different.

She gave me a reason to be different.

Imagine my shock when I'm dragged into an interrogation room, their prime suspect, and *she* walks in...

*Detective Julianna Capulet.*

I am so fucked.

Because I still want her. I want her like an addict craves his drug. I need her like a sinner needs his absolution.

And I will have her.

Even if it kills us both.

*Inspired by Shakespeare's Romeo and Juliet, this is a retelling for mature audiences. Don't enter the Underworld if you're scared of the dark.*

Wow!! What an exciting read! I could not put this book down. The danger, the familial expectations of each of the main characters, the intense predicament they are now faced with.... I cannot wait for the next book! I haven't been hooked into a book quite this hard in weeks!

Our hero and heroine find themselves in a situation that makes it impossible and dangerous to be together. Julianna is a homicide detective working on a case that directly involves her love interest, Roman. Is he guilty or innocent. How will she manage working the case, not showing she has any connection to him, and getting to the truth? .... all while sorting through her conflicting feelings. The story continues with "The Scent of Roses (Dark Romeo 2)."

## **Sammy- Just Let Me Read says**

Sienna Blake delivers a sexy and suspenseful spin on a timeless classic with Love Sprung from Hate. Raw, gritty and incredibly erotic, this book was an intense tale of two people from opposing worlds clashing together unexpectedly. With a unique plot and fantastic writing, the story packs a serious punch and leaves the reader eager for the continuation of Roman and Julianna's story.

"The second we touched, it sealed her fate. I didn't want to let her go. Ever."

Blake's writing is so rich and powerful, and these traits are evident in every scene written. She takes the time to flesh out the details of the setting and characters without being tedious. The details of the characters' lives are laid out in a way that makes you eager to learn more about them. Both Roman and Julianna have experienced loss at a young age, something that affected them in different ways and contributed to the connection they shared. Through the dual POV, we are given insight on both of their pasts and present, and the reader experiences the intensity of the feelings on both ends. I loved how the passion between them was so fierce, it took both of them by surprise.

"He'd awoken something inside me. Now I wasn't sure if I could live without it. Without him."

The bond between them was so inexplicably strong from their first meeting, and only strengthened with each minute they spent together. I loved the interactions between them, and the way they come to learn their circumstances was so well done. Their inner struggles were written just as well as the dialogue was, and I felt myself becoming more and more engaged in their story as I read on.

"I wanted him. Even though I knew who he was, my body begged for his touch."

The fierce connection between the characters plays in well with the violence and unrest brewing around them. The author sets the stage for what is looking to be an even more intense second book. I am so eager to see where things will go with Julianna, Roman, their families, and the seemingly impossible situation they are in.

*ARC provided by author in exchange for an honest review*

Love Sprung From Hate was my first read from this Author but it would not be my last. You **Sienna Blake** have earned yourself a fan for life! I wanted to devour this book in one sitting but at the same time I didn't want to end. I tried my best to read slower but now I'm finished and I'm in a *Bookhangover!* I'm pretty sure that condition exists! Let me just tell you before reading this book I was in a fetish for biker men but now I have a fetish for men in suit. Oohh so so hot!

*"He had a sophisticated polish to his air, like he was born wearing a suit and yet... there was something dark about his demeanor."*

Many people tend to think that two opposites sides of the world would never cross paths but life always gets in the way of that saying right? For me Julianna and Roman's story was Love at first sight, their connection was intense from the beginning that it had me in the edge of my seat.

*"Weirdly, my voice had stopped working. Why was I reacting this way to him? I had never reacted like this to anyone before."*

Julianna Capulet is a *detective* and **only daughter** of the Chief of Police, Roman Lettiere Tyrell is a **Mafia Prince**, heir to the Tyrell's bloody empire. Roman is a *Lettiere* by heart but *Tyrell* run through his blood, that doesn't mean he's a bad guy, like he's father but how can he prove that to other people when they only see through his last name.

*"Look past the last name I was given, You know me."*

Both the *hero* and *heroine* have many things in common and one of them is they both experienced griefed at the same age but they overcome it differently and it was both their mother.

My favorite character from this book is **Julianna "Jules"** she always managed to make me laugh, I love her personality, and I love how she stand out for what she loves and cherish it.

She's a strong, independent, sassy, and beautiful woman who can hold her own. She doesn't need a prince charming to save her and that's what intrigue me to love her. I've read many books where the heroine needs saving by the hero and finally a different perspective. Thank you **Sienna Blake** for changing the view in a

woman.

***"Tell Roman, that he's an arrogant ass who has no idea what's like to be a woman in a man's world."***

Roman (swoons) is the perfect alpha male, very loyal. He's charming, sweet, a sexy alpha man, a dominant that'll captivate you from beginning to end. He'll make you swoon and laugh, he has the perfect personality which will make you wish you were Jules.

***"I'm going to bend you over, peel your underwear off." He paused. "Peel it off," he repeated. "I'll be lucky not to hurt you when I tear them off."***

A sexy one night stand with no personal questions, nothing wrong with that right? Well after you have him in the interrogation room with a murder case file you may think twice about that. And let's not forget about **Giovanni Tyrell**, Romans father (shivers) Omg his name even gives me the chills. I don't know what to say about him just that the man itself is a scary mother\*\*\*\*\*. He's *ruthless*, *raw*, and doesn't give a Sh\*\* about the law.

***"If you ever talk to me like that again I will shred you down to your worthless bones with my bare hands. I brought you into this world, I will fucking take you out of it if I have to."***

Overall I love this book because it consume me, grip me, and gave me all the feels. This book ends in an amazing cliffhanger that makes ~~you want more~~ let me clarified myself **"I need more"**. I can't wait for y'all to read this book and Love it like I did. P.S We don't have to wait too long for the second book because it will released on July 13, 2017. Eeek! I'm so excited to see where this story takes me. Jules and Roman's story was intense with many twist and a great plot. I know Terrie called dibs on Roman but can I have second dibs? Haha

***"Sienna is a pen name for a bestselling, award-winning fiction author. If she told you who she really was, she'd have to kill you. Because of her passion for crime and forensics, she'd totally get away with your murder"***

This was at the end of the book and I totally agree with this statement once you read this story you'll know why. (*Wink, wink*) I literally felt like I was on one of those CSI shows, **Sienna Blake** knows what she's talking about, she knows her facts

This was my first Sienna Blake book to read and what a start it was! This is Book 1 in the Dark Romeo Trilogy with Book 2 releasing on July 13 and Book 3 releasing on August 10. Cannot wait to read the next 2 books as this ending..... WOW!!!

Imagine meeting someone and having the night of your dreams come true. The two of you just melted together as if it was fate. You have found your perfect match.

Now fast forward and what has happened!!!

Julianna has been practically raised by her father. Having lost her mother when she was young, she has followed in her father's footsteps to become a detective with the local police department. Her father is the Chief of the Police who vows to 'clean up the streets'.

Roman has fled the country at the age of 18 trying to distance himself from the family he wants nothing to do with. But when his brother is murdered, he finds himself back in town. Hoping to come and go quickly.... things change quickly when his father notices him at the funeral.

What a fast paced, easy read that has some pretty steamy scenes!!!

### **Oh Roman, oh Roman. Where for art thou Roman?**

If you really like Romeo & Juliet retellings then this is your book. This is a spin that I've KIND of read before, but also not really. There is a uniqueness in this story, that it isn't word for word like R&J, but it does have the star-crossed lovers vibe and similar/same character names. The. Aight bits are hot, the angst is getting heavy, and the characters are sort of growing on me. This ends in a cliffhanger and the next book comes out in July. If you can't wait... I'd wait to pick this one up. If you can wait, and you like retellings of Romeo and Juliet, then read love sprung from hate RIGHT NOW!

What a thrill ride!!

This is book 1 of a series and I was completely captivated by the intense, thrilling and sexy ride.

What's not to like in a forbidden romance between the police chief's daughter and the son and heir to the Mafia.

The writing was excellent.

This modern day version of Romeo and Juliette had the similarities of the two families in turmoil wanting different things for their family. HOWEVER, this version was fast paced, exciting, intense and sizzling hot!!

The characters were well developed and their passion and turmoil brought out all the emotions.

Will they survive or will their love end tragically...

I cannot wait for book 2!!!

These are my Happily Ever After Novel Thoughts...

This story has a very Romeo and Juliet feel, right down to the names; Roman Tyrell/Lettiere, Julianna Capulet, and Mercutio. Two lovers from opposite sides of the law and the best best friend, sound familiar? If you like/love Romeo and Juliette, you will like this mafia spin Sienna Blake puts on it.

For me, a mafia version of star-crossed lovers seems perfect on paper, and this story did not disappoint. It had a great push and pull feel to keep me entertained and not wanting to put it down. But be warned: it is a cliffhanger!

A happenstance meeting, a one night stand, a murder...

Roman and Julianna have a chemistry that undeniable but one being in the mafia and the other being a homicide detective, their paths should have never crossed in the romantic sense. That is unless you believe in fate. Fate, it is said, will play a hand in your life when you least expect it. Was it really fate that brought these two together, or is it a manipulation from either side?

I can't wait for the next book so I can find out what happens next! This book does end with "To be continued..."

Grab you a copy and settle in for a great emotional ride in the town of Verona, while searching for a happily ever after.

Love Sprung from Hate by Sienna Blake is a modern retelling of Romeo and Juliet. I have always had a thing for star-crossed lovers/forbidden love, so I was automatically interested. Learning a crime family would be involved just solidified the deal! I had never read any of this author's previous work, so I crossed my fingers and dove right in.

"Romeo" is a man from an infamous crime family in Verona named Roman whose father is trying to groom him to take over the family business...a business that he wants no part of. His father let him do whatever he wanted in Europe for years apart from the family, but now that his other son, Jacob, has been killed, he needs Roman to step up to the plate and fill his shoes.

"Juliet" is a woman named Julianna that is the daughter of the police chief in Verona. She is a cop herself, and she has been struggling like hell to prove herself to him and the rest of the department. It is hard enough to be taken seriously as a woman in a male dominated profession, but it's even harder when the chief of police is your dad, and he doesn't give you any serious cases.

When her father finally decides to give her what she wants, Roman turns out to be the suspect sitting across from her in the interrogation room. If her father or anyone on the force finds out that she slept with the heir to the Tyrell crime family's throne, she will be the laughing stock of the department and never gain her father's approval. What would happen to Roman if his family found out he was sleeping with a cop? No matter what, one thing was made clear that day in the police station. Whatever was between Roman and Julianna wasn't over. It was just beginning.

Love Sprung from Hate is a story packed full of instalove, steam, and suspense. Sometimes instalove doesn't work for me, but since this is a Romeo and Juliet retelling, that made me let that slide. We need the characters to feel strongly about each other or the story wouldn't work, and I think the author achieved what she intended to do. This is the first book in a trilogy, and for that reason, I was left wanting more from the story. I assume I will get it in the next two books, and that is good enough for me for now. Overall, I enjoyed the book, and I was invested enough in it to want to see what happened to the characters in the next installment. If you like retellings with a modern day spin or forbidden romance, you might want to give this one a try!

Received an arc for my honest opinion.

Wow. This is not your typical mafia book. It's so much more. It's hot and sexy but the chemistry between the characters is amazing.

The son of the mafia boss and the daughter of the chief of police have an incredible night together. Just to be thrown together with Roman being the main suspect in a murder case.

I cannot wait for the rest of the series.

**“Look past the last name I was given. You know me.”**

WOW! Pulled me from the start and didn't let go. Intense tale of two people from opposites sides of the city, living in two different worlds, yet struggling with the same grief. A fierce passion, intense connection from the first meeting which intensifies. A cannot work/forbidden romance between a police detective (and the daughter of Chief of Police) and a reluctant Mafia Prince has me rooting for them. Told through dual points of view, we have insights into their thoughts, their past and their present. Developed characters, setting, and plot. The author left me a bit scared of the mafia father as well as his scarfaced goon, Abel. I'm eager for the continuation of Roman & Julianna's story. While the story doesn't end with this one, each of the books in this series releases within a month of each other so you're not left hanging a long time for the continuation. Loved it!

?6 Julianna and her Roman Stars ?

Love Sprung From Hate by Sienna Blake was dark, raw, and gritty. The suspense gripped me like no other, my jaw was off the floor. My mind was blown literally and figuratively! I will say Love Sprung From Hate is one of my favorite books I have ever read. A forbidden love story between a detective and a Mafia Prince.

Julianna Capulet and Roman Giovanni Tyrell.

Two star crossed lovers, on different sides of the law.

She is light. He is darkness.

### **Julianna Capulet**

Detective. Daughter of the Chief of Police. Fights for what she believes in.

*"A Capulet never runs from danger. A Capulet does their duty."*

Julianna is following her father's footsteps, becoming a detective, and cleaning up the streets. But she is always behind a desk, Julianna wants to be on the front lines. To have her own case, and her wish comes true...what she doesn't expect is that her lover is the main suspect for murder.

### **Roman Giovanni Tyrell**

Playboy Mafia prince. The Prodigal son. Last remaining heir to the throne. Monster. Criminal.

*"The Prodigal son has returned and there's a new heir to the throne. The new Prince of Darkness has come home."*

Roman was forced into the family business. Shedding blood on the streets, slowly becoming a monster. A man he doesn't even recognize anymore. Roman is slowly dying inside, doing his father's bidding. He can not run from his destiny.

Until one night changes everything.

Julianna becomes Roman's weakness.

His salvation and also his undoing.

But he will protect his girl at all costs.

Even from Himself.

The undeniable chemistry between Julianna and Roman made my heart BLEED! Fate is always trying to tear these two lovers apart. I even shed a few tears, because this story was just so good.

**\*\*This is my first book I have read from Sienna Blake, and today she has a new die hard fan!\*\***

Get this book. If you're a lover of angst, Mafia, impossible odds, intrigue, and seriously awesome writing, get this book. NOW!

This five-star read beautifully parallel the famous Shakespearean play, Romeo and Juliet. Roman, hero, and Julianna, heroine, captured me from page one! Totally and completely knocked me on my ass and demanded I love them forever! Each scene hooked me! I willingly capitulate to every connection between Roman and his Jules. Things get dark and ugly rather quickly so be aware! The intensity is incredible and I walked away several times to regulate my blood pressure! Yoga and Dom Perignon seems to be the way to go after an intense scene!

So....things to remember: Kudos to Blake for her incomparable approach in this trilogy! Although this is only book one, she SLAYED!!! Totally NAILED it! Keep the yoga mat and Dom Perignon handy! You're gonna need it! Blood pressure cuff....not a bad idea either....and last prepare yourself for the deuce in this trilogy! I plan to marinate in this sexy couple and their drama! What about you?

Five phenomenal stars!!!

Juliana Capulet and Roman Giovanni Tyrell /Lettiere...

Two star crossed lovers from two opposite sides of the Law. They might as well be living on different planets, not in the same city -Verona. That's how apart they are. They come from different backgrounds, families, suburbs and work ethics. He belongs to the very viral fungus that's eating this city alive and which her father has vowed to eradicate and cleanse this city from.

**Roman Tyrell and I were on opposite sides of the city, living in two different worlds, yet struggling with the same grief.**

And into this complex web are caught the innocent pair of lovers , who've just tasted the elusive first kiss and spent together a night of unbridled passion .

She's protected and groomed by her father to protect the Law, he's forcibly inducted into the family business

by his ruthless father.

The Reluctant Heir.

The Prodigal Son

The Last Standing Tyrell.

**" since Jacob died, the youngest son has been recalled back into the fold. The prodigal son has returned and there's a new heir to the throne. The new Prince of Darkness has come home."**

After one night together , they're standing on the opposite ends of the Gun.

No matter how hard Roman tries to run, his father has him by the Scruffs, and now since his weak point-jules is in the danger of being used as a pawn , he succumbs to his family's demands of blood and mayhem

**"If you ever talk to me like that again I will shred you down to your worthless bones with my bare hands. I brought you into this world, I will fucking take you out of it if I have to."**

The story is so well written, has great turns and subplots, I just had a taste of the dish in book 1, cannot wait to devour the whole meal.

What will they do ?

How will they cross over?

Cannot wait anymore.

#WriteSiennaWrite

Just hang in there Jules, he's still *Your* Roman...he's not the bad guy ...

**"Look past the last name I was given. You *know* me."**

\*\* sigh\*\* easier said than done !!
