## Too Short to Be Compelling

MARCUS WILDING: DUKE OF PLEASURE is a very short novella that introduces Mortimer's new series. It is the story of Julianna Armitage who was widowed after being married to a disagreeable man who cared not about her. She has come to Marcus Wilding, Duke of Worthing to ask him to tutor her as to pleasure so that she can take a lover. Unknown to Julianna, Marcus has loved her for years and now intends on luring her into marriage.

This novella is short and good enough but there is little disclosed about Marcus and Julianna except for their physical relationship that is detailed here. The novella is a nice start to the series but was too short for me to really care about the characters. It was worth the price (free!) and the time I spent reading it. I look forward to reading more of the series.

Nearing the end of her mourning period, Lady Julianna Armitage makes the resolute decision that she will never remarry and will instead embrace the freedom of her independence and take a lover. Since her husband was cold and heartless towards her, she turns to her brother's friend, Marcus Wilding, to teach her how to please a man.

There isn't much to say about this very short novella. 97% of the story centers around Marcus' lessons which are premised on the five sense – sight, sound, smell, taste, and touch. The dialogue is stiff, the words belying the internal thoughts and desires of both characters. Julianna's characterization wavers between innocence and carnal knowledge — she is a lady who wants to take a lover, yet is scandalized at the thought of seeing a naked man; though she spent three years in a cruel marriage and is in desperate need of lessons in how to pleasure a man, she turns out to be surprisingly adept at doing all the things she asked Marcus to teach her despite her complete lack of experience.

The “romance” is of the insta-love variety, which actually comes from a dance they shared together at Almack's four years earlier.

This novella is free on Amazon right now, so for that reason alone, it is worth reading. Otherwise, just borrow it.

Marcus Wilding, Duke of Worthing is the most accomplished lover in England and Lady Julianna Armitage,

sister of his best friend, needs him to teach her the art of love. Julianna is determined to maintain control, as is Marcus.

A short story which I read in one sitting. The attraction is so hot I'm surprised my kindle didn't combust. A great series starter, only down side is that I wish it had have been longer to be able for more characterisation. My honest review is for a special copy I voluntarily read in as part of an edition with the first three books of the series

I think this whole story could have been cut from 9 chapters to 1 and 1/2 if they would have just been up front with each other from the beginning. Of course, the whole point of the novella was obviously the sex. One thing that really drives me crazy in romances is the constant misinterpreting each others' responses. He thinks that she is horrified, and she thinks that he is disgusted.

This was a kindle freebie so I shouldn't complain.

The story concerns a couple who have loved each other since the night of her 18th birthday. He went off to war determined to ask her to marry him when he returned, in the meantime she married not knowing his feelings.

Her marriage was not good. After her husband dies she decides to take a lover but asks Marcus to tutor her on the marital arts.

Maybe the problem with this book is that I had different expectations. Based on the above synopsis I expected a gentle romance, then it appeared as though I had stumbled into erotica, then it turned out it was just dirty talk after all!

Wait. What? CM also writes for historical? How does she find the time along with raising 6 kids?

Sometimes I'm really in the mood for a cheeky historical other times I find them incredibly tedious and zzzzzzz. This one however was short and sweet and I found it pretty enjoyable. The H and h have known each other for ages as he is Bessie's with her older brother. They both fell in love when she was 18 but neither told the other her because he buggered off back to war without speaking to her again the H because he didn't want to make her a widow knowing he was off back to war. Thinking he doesn't give a rats ass she marries another who is a total swinger and crap in bed with her. H is pretty gutted when he returns to find her married but luckily she is widowed after 3 years.

Knowing her husband was her she goes and blackmails the H into teaching her sexy times and he is quite offended by her bribery so says yes with every intention of grabbing her for himself. These two are pretty darn cute and I totally believe in their HEA ?

Marcus Wilding: Duke of Pleasure is a novella in the Dangerous Dukes series by Carole Mortimer.

Lady Julianna Armitage is a widow, her married life was a nightmare, and she has decided that when in a couple of months her period of mourning is finished, she will take a lover. She never wants to marry again. She accepts that she knows nothing about pleasing a man sexually, and decides to ask somebody to teach her everything there is to know about sex before she goes on her hunt for a lover.

The man that she ask to be her tutor is Marcus Wilding, the Duke of Worthing. He is also her brother's friend and she grew up with him always being around. He has a reputation of being the most accomplished lover in England!! At first he is horrified by her request, especially the thought of teaching her to pleasure a man only for that man to be somebody else. But then he realises the benefits to being her tutor, and not just the physical ones, and he agrees to help her.

What follows is a wonderful story of how they both thoroughly titillate each other, the desire and need for each other, in more than just a sexual way, growing with every turn of the page. A story line that could be seen as unrealistic, a Lady asking a 'Dangerous Duke' for sexual tuition, is anything but that when you realise that deep down Julianna has been in love with Marcus since before her marriage. Did she even realise the reason she asked for him specifically to help her, subconsciously I think so, but it certainly isn't in the forefront of her mind. Their passionate times are just that, passionate, well written to come across as more than just sex. Will they give in and let each other know of their real feelings for each other, or will Marcus have to let her go into the arms of another man at the end of his tutoring? Not if he can help it, that's for sure!

I really enjoyed this quick story and I am very much looking forward to reading the next book in the series.

I voluntarily reviewed an advanced readers' copy of this book.

The book started out full of tension- the good sexual kind- that made me keep reading. Knowing this was a short story did not help that I felt it should had been longer so we could have become attached to the characters. It is a quick read for someone who wants a taste of seduction.

Carole Mortimer begins her *Dangerous Dukes* series with this novella and features Marcus Wilding, said to be "the most accomplished lover in England" (mentioned 5 times in the novella) who has been approached by Lady Julianna Armitage, for lessons in lovemaking. It is an unusual request coming from a lady, and made even more unusual because said lady is the younger sister of Marcus's long-time friend.

And then there's the fact that Marcus has loved Lady Julianna for more four years, ever since her come-out.

Now a widow, Lady Julianna is free to make her own choices in life -- and she wants to experience passion. Of all the gentlemen of her acquaintance, she approaches Marcus for two reasons: first, as her brother's friend, she could rely on him for discretion, and, second, she's always loved Marcus. I loved how Julianna is taking control of her own life and destiny, and I love her boldness and audacity to approach a man such as Marcus with her curious request. It's also amazing how she doesn't let Marcus intimidate her. ^\_^

"Forgive me, Lady Armitage, but for a brief moment I was sure I heard you request that I tutor you in the art of making love to and with a man before you take a lover!"

Julianna remained unmoved by the hard and derisive smile that accompanied Marcus Wilding's drawled dismissal of such a notion ever being possible. "There is nothing wrong with your hearing, Your Grace. Except perhaps for me to add that I made a statement of intent, rather than a request," she added with the same determination she knew to be evident in the sharp tilt of her chin."

- Opening lines of the novella

\* \* \*

She had been a young lady of only eighteen summers on her wedding day four years ago, her heart full of optimism for what the future might hold. But three years of that cold marriage to the adulterous Lord John Armitage and almost a year of widowhood following his death, had resulted in Julianna vowing not to remarry when her year of widowhood came to an end in just two weeks' time. No, better by far to take a lover, she had decided. One of her own choosing and on her own terms.

Carole Mortimer's 51-page novella is about seduction, but it's made more meaningful because of the feelings that our hero and heroine have kept hidden from each other for a long time. There's a lot of dramatic irony in their circumstance: they're trying to approach their situation in a business-like manner, but there's just so much emotion that's threatening to burst forth to the surface. Their current situation hinged on a *Big Mis* that happened all those years ago, when Julianna turned 18. It resulted in her marrying someone else. I love how their lessons progress and how Carole Mortimer breaks down the art of making love into the various senses: sight, sound, smell, taste, touch -- showing, how each aspect of our being participates in this glorious culmination and expression of love. Their encounters are titillating and steamy, but it also served as a way for Marcus and Julianna to get reacquainted: to discover the persons they have become after four years apart and for Julianna to find the woman she would have been had she not married John Armitage.

Mortimer also lays down the groundwork for the series by introducing a fascinating group of men, who are either dukes, or are heirs to the dukedom. (She introduces two of them at the end of the novella: Darian Hunter and Zachary Black, and the short snippets of their stories are very promising. ^\_^)

The first in Mortimer's Dangerous Dukes historical romance series, and an odd combination of interesting trope twists with some of the *stupid* tropes that make me nuts. That whole no-one-would-ever-offer-for-her routine? Oh, please. Mortimer has a cute idea, but needs some changes to make it better.

This short story felt too quick, too easy. In some ways.

## Courtnie says

*"Exactly," Marcus murmured with satisfaction as Julianna gave a second, **breathy groan**..."*

Sighs, whimpers, hisses, groans, exhales, murmurs, moans, we've seen it all. Pulmonary verbiage seems to be essential to the genre. Perhaps the trademark of an author that has written 416 works is the combo-verb, just to mix things up.

I'm not one who can just gloss over this ridiculousness though.

"Breathy groan", is that even possible? I don't know if one could produce the sound of breathing while simultaneously producing the groaning noise. I tried for a bit and quickly realized that I sounded like a dying cow (or worse).

As if that wasn't enough to roll my eyes, there was a whole section about Julianna's 'nubbin'. If I never saw the word nubbin again to describe part of my anatomy, I would die a happier woman.

A nubbin is what Chandler had removed, K?

So, in a nutshell, I found this to be ridiculous, the word choice to be distracting, the love story to be incredibly lacking and finally, I was disappointed to discover that this is erotica rather than something more satisfying.

On the plus side, this story was free and short, very short.

## Jane says

*Marcus Wilding ~ Duke of Pleasure* or also known as the Duke of Worthing finds Lady Julianna Armitage in his home late on evening or early morning when he returns with an unusual and rather improper request. Julianna is the younger sister of his best friend and is now a widow mourning for he late husband.

Marcus has loved Julianna long before she married Armitage; he was away fighting in Europe when she married and missed his chance to ask for her hand in marriage four year ago. It is unfortunate that many women at this time in England had marriages where they were treated brutally by their husbands desiring to gain position through marriage and in want of an heir only from their wives. Men like Armitage found pleasure outside of marriage and society looked the other way. The story is mostly naughty until Julianna finally confesses to loving Marcus and they find a happy ending in each other's arms. I found it entertaining with bits of humor written into a risque situation and it wasn't nearly as naughty as it could have been...

This was a very fun and sexy story. I really wish it were longer and more fleshed out. A long simmering buildup would have been even better for this story. The writing style itself would have benefited from some cleaning up and more "show don't tell". However, the concept itself was very nice and was a very nice novella to wrap up my dabbling into erotica.

### **Deborah says**

Short scintillating tale.

Juliana is nearing the end of her year of widowhood, her marriage was not a happy one in any form and has jaded her towards any future marriage but she's determined to find some pleasure in life and turns to Marcus Wilding a friend of her brothers and reputedly the most accomplished lover in England.

While the premise maybe a little far-fetched it's an enjoyable sexy read as we witness the sexual awakening of Juliana and the fact that I really liked both Juliana and Marcus only added to this.

### **RamenGrll says**

Author was highly recommended. However, this novella was full of horrible cliches, stereotypical descriptions and I was having a hard time not laughing out loud at some of the more ridiculous dialogue. After the 3rd time the word "rakish" was used to describe the hero or his hair, I had to DNF.
