**The Elvis Enigma** Cate Lawley , Kate Baray  
**Elvis is alive - and he's missing!**

Except the missing man isn't exactly Elvis. And he's not alive... in the traditional sense. But the man who's not quite Elvis is definitely missing. Mallory won't let the confusing nature of not-quite-Elvis's background stop her from investigating, not when there's a mystery to solve. And who better to crack a case involving the weird and wondrous than the best (and hungriest) sleuthing vamp around?

If she can just keep the mundane police in the dark and her budding romantic feelings for her partner under wraps, then she might have a shot.

***The Elvis Enigma* can be read in sequence or as a stand alone story.**

### **Peggy says**

#### **The Elvis Enigma :A Paranormal Cozy Mystery (Vegan Vamp Mysteries Book)**

This is the third book I have read about the Vegan Vampire, and I was pleasantly surprised by how well the were written. Kept my interest on all three books. The first one was free, but I bought the next two to see how the author kept the series going.

---

### **Gail says**

#### **Lmao!**

What happens when you put Elvis into the mix, then he goes missing.....A fab book!

Our Vegan vamp is really hitting her sleuthing stride.

Things take a turn for the worse as enhanced folks start to disappear.....like Elvis ?

Love all the characters in this series, even Anton ???

### **Paranormal Books R Us says**

#### **The Elvis Enigma Review**

With a vampire that's not a vampire, an Elvis that's not Elvis, and a dog that's not a dog it's not a surprise that some hinky chaos is bound to happen. And it was a lot of fun figuring out what going on.

As the cases get crazier and I learn more about the supernatural players involved I become more hooked on this series with every book. And as serious as things can get there is still always something to give me a chuckle which I really enjoy. So I would definitely say The Elvis Enigma is recommended.

### **Angela James says**

#### **A great escape**

4.5 Stars! Another intriguing and captivating story by Cate Lawley! Her books have been a great escape for me over the last few days and I can't seem to get enough of them. I love these quirky characters and their adventures.

---

## **A Voracious Reader (a.k.a. Carol) says**

\*Book source ~ Kindle Unlimited

Elvis is missing! No, not dead, missing. Ok, so he's not exactly The Elvis, but close enough. And Mallory won't let his disappearance rest. When another member of the supernatural community goes missing she's finally able to convince her motley crew to investigate. She's determined to solve this mystery before more people disappear. But first she needs to not be arrested for the murder of her former landlady. And maybe not drool over the hot detective in charge. All in a day's work for the new vamp.

Winner, winner, chicken dinner. Too bad food makes Mallory barf. I totally loved books 1 & 2 and book 3 is just as enjoyable. Mallory is hilarious. She walks the fine line of being just ditzy enough to make this series work. Not enough and it wouldn't be nearly as much fun; too much and I'd just want to cut her head off. Cate Lawley pulls it off with perfection. The mystery is just twisty enough to keep me guessing, all of the characters are wonderful and fully in the story (no cardboard background props here), and the relationship between Mallory and Alex is so delightfully heart-warming as well as delicious. The will-they-or-won't-they question progresses just enough in each book to be a believable real-life scenario and leaves me waiting anxiously for it to happen, but also hoping it goes on for at least a few more books because I don't want them to lose that special spark they have. Think *Bones* or *Moonlighting* and you'll understand what I mean. When you're looking for some light-hearted and fun entertainment then look no further. This series is wicked awesome for a few hours of escapism. Also note, each book can be read as a standalone, but why would you want to do that?! Go back to the beginning and revel in Mallory's journey to date.

## **pam laporte says**

### **Elvis,a succubus and parasitic stones oh my.**

Alex and Mallory are at it again. A man who says he is Elvis disappears along with a woman.. Mallory gets hit with a dart and detective Ruiz is with her. Someone is draining magic from others. Star is back to help them. Detective this asks her for a date and Mallory gets to keep boone. Great story as Mallory discovers feelings for Alex.

## **Wendy Beachley says**

### **Seriously Fantastic**

When Mallory isn't telling her sword to please have full edges so she can beat the crap out of someone instead of cut off their head you have to laugh when the sword argues! Or when Bradley calmly tells Alex and Mallory they are just like a tv couple. All of this while chasing after bad guys and being a little chased. Awesome as always!

---

## **K.M. Hodge says**

I love this series so much. The witty banter and budding romance in this book is really well done. A demigod Elvis is just the cherry on the top. I can't wait to read more. Please don't stop writing this series!

---

## **Deborah Yunevich says**

### **Is he Elvis or someone else?**

The answer to that question and others lie in these pages and it is a fun trip. Mallory is the unusual vampire who keeps increasing her inner circle, to the amazement of several of the Society's members. However, each crime is solved and we learn more about Mallory and Alex all the time.

## **Dharia Scarab says**

Since I don't normally write reviews unless I have something specific to say, here's the break down of how I rate my books...

1 star... This book was bad, so bad I may have given up and skipped to the end. I will avoid this author like the plague in the future.

2 stars... This book was not very good, and I won't be reading any more from the author.

3 stars... This book was ok, but I won't go out of my way to read more. But if I find another book by the author for under a dollar I'd pick it up.

4 stars... I really enjoyed this book and will definitely be on the look out to pick up more from the series/author.

5 stars... I loved this book! It has earned a permanent home in my collection and I'll be picking up the rest of the series and other books from the author ASAP.

## **Charli says**

### **Quirky and Fun**

A demigod reincarnation of Elvis, a Kitsune, a Phoenix and more show up in the latest incarnation of the Vegan vampire. Follow our favorite vamp sleuth as she learns more of the world she's been thrust into.

---

## **Megan says**

Is Elvis in the building? Maybe or maybe not in this fun twist on the Elvis is alive myth. The humor from Mallory is wonderful and of course we love Alex! As we get to know all the familiar characters a bit better and meet a few more;), they also lead us another wonderful adventure with the King, maybe!! I said it before and will say it again I LOVE this series! It's such a fun twist on the genre and can be read by any reader. I was given a copy of this book in exchange for an honest review.

## **Krystyna says**

A new case that might have her ending up as one of the casualties.

Stunning. Being at the police station has her heart pounding (well it would if she wasn't a vampire) and meeting Elvis (or more correctly the demigod that is Elvis) has her embarking on the strangest case yet. Who is kidnapping all the strangest members of the supernatural world and why? With her trusty team and faithful hound she vows to find out. Okay she might also be on the list as she cannot be classified as a normal vampire but that is all the more reason to find the person behind it all. Especially when the happiness of a young girl is at stake due to the kidnapping of her mother. To top it off she now has two men in her life that make her non beating heart pitter patter. Wonderful rich storyline with great imagination and dialogue. A simply must read.

## **Frank Bertino says**

### **Elvis Hasn't Left The Room**

Mallory is a vibrant character. She seems like she would be fun to be around. Her personality either drives people nuts or totally endears her to them. Or both. Alex seems to fall into the latter category. Does he think of her in a romantic way? She is confused about her own feelings let alone what she thinks his are. To top it off, Detective Gabe has inserted himself into the romantic conundrum. Will she get together with Alex or possibly Gabe (she thinks both are hot) or what??? Mallory and her friends are able to bring the kidnapping mystery to a successful conclusion. Her powers have evolved, however, Alex is over protective of her to the point of putting himself in danger. This series and this book in particular are a delight to read. Mallory's PhD in smartassary and the reactions to her are very entertaining. I anxiously await the next book.

## **Relina Skye says**

"The Elvis Enigma: A Paranormal Cozy Mystery" (Vegan Vamp Mysteries Book 3) by Cate Lawley is another fun addition to a great series. Mallory Andrews is not the typical vampire, and since she's recently turned she still has her foot firmly in still in the human world. With a human police officer breathing down her neck, she has to tread lightly as she investigates the disappearance of a couple of enhanced people. Overall, Lawley does it again with this entertaining mystery. It held my interest and left me wanting to read another one.
