## **The Proposition** Lucia Jordan

Megan is amazed when her fabulously rich and handsome boss decides to give her a very no-strings, very sexual proposition. She already found him highly desirable and he'd certainly assured her that no matter her answer, he'd respect it. So what was it going to be?

## From Reader Review The Proposition for online ebook

### Fhina says

Hot little story...

---

### Anna says

**"You intrigue me, Miss Kerry..."**

Unfortunately, neither Miss Kerry or Mr. Mayer really intrigued me.

This book has the distinctive feel of being a Fifty Shades knock-off.

Let's start with the characterization.

#### The Players

**Megan Kerry** is an okay character, not quite as composed-of-cardboard as Ana, certainly, but there also wasn't much to her. Unfortunately, there is more telling than showing in this little story, and that extends to characterization as well.

Megan is apparently a market strategist at **Heath Mayer**'s company. He's an eligible bachelor/multi-millionaire who frequents society magazines, newspapers, and has even been on TV once. All the ladies want him, naturally. He's described as exuding power:

*It was more about the power he exuded; the sensation that he was some lethal beast barely holding himself back from seizing his suspected prey.*

This is NEVER demonstrated. At all. In fact, in the only scenes he actually appears in, he doesn't exude much personality at all.

There are words like "cocky bastard" thrown around, but again, there is no evidence to back this up.

#### The SEX

This is the important part, right? It's erotica. The long and short of it is: you expect some steam.

The sex scenes are not good. I was hoping maybe they had been more polished than the rest of the book since it's the moneymaker, so to speak, but that is not the case. There's a lot of awkward and/or excessive wording. It doesn't feel right.

*Her eyes lingered on his groin, her breath catching at the sight of his thick, seven inch plus cock and huge, sexy balls.*

I'll just go ahead and say it--balls are not sexy. I don't care how big they are. Also, "seven inch plus cock" is really awkward description. (And that is far from the worst example in the sex scene. It just caused me to make faces at my Kindle.)

### **The Writing**

Not great. There were passages that were written just fine, but others that made absolutely no sense. It did become distracting at times.

There are a lot of awkwardly worded phrases and I didn't type them all out (way too time consuming) but I did put many quotes in my status updates, if you're curious.

Overall, this book had a lot of issues. It's not *terrible* and it is free, so check it out if you feel so inclined, but for me, reading this one did not make me want to read the other ones, as I assume they are of the same quality.

I will also add, without spoiling, that I feel the majority of this book was a waste of opportunity, because I'm no more invested in this couple at the end of the book than I am around roughly 20 percent.

---

### **Gizzie says**

Thats what dreams are made of.

---

### **Adrienne says**

#### **Don't buy this**

Unless you want to laugh at the ridiculousness of it all don't buy this. Thankfully I got this one for free but I should be paid for having read that. And before everyone gets up in arms telling me I have no right to trash anyone's work who was brave enough to publish I just have to quote this marvelous story and you will understand me: "her vaginal walls screeched" Yes, that's right, a direct quote. That does not sound like any woman's orgasm that I have ever read or heard about or experienced. That sounds painful. And the descriptions just get worse and worse.

---

## **Debbie Guzak says**

### **Hot CEO**

Hanging on every word, feeling every touch, was it real? Megan has met the CEO of the company, but most of the employees haven't. Now he has asked Megan to meet him for lunch to go over things. Why, why her, everyone is wonder, is it work or more personal?

---

## **Kanwarpal Singh says**

A successful business woman had a fantasy for her ultimate boss CEO of the company who is hotshot and most eligible bachelors in the city at the age 29, she admire him and works in a sales department for company, every girl in town want to have a piece of him for her, but he is not a womaniser, our protagonist woman had a meeting with him and he invite her over lunch to discuss the sales project she take on, she discusses the whole event with her female colleagues, while getting ready for lunch she day dreaming about his asking her for sex for the promotion in the company, she woke later with a smile and wear erotic undergarments, thinking "you never know when dream become reality"

---

## **Felicia Rose says**

### **So hot and sexy**

I loved it and I would recommend this book to all my friends I give it five stars because it's fast paced hot, sexy, and very steamy would love to read the rest of the series.

---

## **Ankit Saxena says**

### **Quite a touch.**

I hope of there would have been a proper story behind this Erotica, but the twist was good. If it had more of the part of good romantic story then the elaboration of theme would have become more interesting.

---

## **Deborah says**

### **It's A Dream**

She's possibly on the fast track with her company. And she'd like a faster track with her big boss. Enjoy I did.

---

## **Shurrrn says**

[dream. *No really, a fucking dream.... The whole book. (hide spoiler)*]

---

## **Angel \*\*Book Junkie\*\* says**

While I liked the book, I am beginning to think that these short stories are just that short stories with no character building efforts involved. I liked the book and I am going to read the rest of the series just because but, I hate leaving a book screaming I want more. This book was okay but okay enough for me to read the next one in the story just to find out how the proposition goes. There is something about a rich millionaire who makes demands while not really making them.

---

## **Victoria says**

The language in this short story was crude. Not in the sense of vulgar, but in that it lacked polish. The descriptions in a love scene should draw a reader in, but I found that these were distracting due to some of the phrases used. While a longer version may have contained subplots, backstory or characterization that would have made the issues with the love scene and the lack of polish moot, I was unable to find anything in this short story that allowed me to overlook either.

---

## **Fry says**

Honestly, sometimes I pick up romances to see how over the top it can be. I'm one of those who will giggle incessantly at a line, depending on how crazy it is. I can't be the only one that does this.

For a short story, it certainly delivers. There's a simple set up- the characters are given just enough life to make it believable- and then we're thrown straight into the action.

Without giving too much away or ruining the plot twist ending, there were a few phrases that caught my attention and sent me into giggle fits. Because, you know, I'm an adult.

- "Chalk-shaped nipples" distracted me for way longer than it should have. While that is an apt description for the shape of them, I imagined her drawing pretty circles with her upper torso.

- "Huge, sexy balls" also got me. I was unaware that people liked that, but whatever floats your boat.

For a quick, hot, freebie, I got what I came for. It was fun. It was crude. It kept my attention.

---

## **djdavis~\*Sivad\*Sex Pocket says**

**ALERT... another series that cost more than the pages and time it took to write.** Can you feel the

irritation rolling off of me.

This book is the **biggest teaser I've read ALL year. Less than 30 pages and by the time you reach the end you realize that Megan hasn't actually experienced anything but the best wet dream of her life.**  
**Wtf**

This book only gets three stars because the steamy climax is to die for even if it was fake. I absolutely hate how it's become a trend to get your readers to buy (although book one is a freebie) a story that really isn't a full story at all. You can't really call a book, a book if it leaves off in the middle of a scene, and try to pass it off as a cliffhanger. I really want writers/authors to value their readers a little more by stopping this horrible cycle.

---

### **Maria says**

Very short, but smutty. LOL.

---
