I love this gender-bender, funny, romantic, a little paranormal manga.

Ito Miura is a tomboyish girl whose looks and attitude makes her easily mistaken for a boy. As a member of the drama club she always play male roles. Soon she meets the new transfer student Makoto who is a beautiful girl, who is really a guy in disguise. Makoto has made a deal with his father, to be able to follow his dream of becoming an actor, he must attend high school as a girl and nobody must know. So when Ito finds out the secret by accident she swears she won't tell. This starts their weird friendship that soon turns into a strong bond...love...

Throughout the story there were a lot of love stories that come into play as examples which the witness and strength their love.

I truly loved the last scene with Ito's brothers and Makoto. I'm so happy for them!

This kind of gender bender genre is really interesting and one of my all time favorite and I love how it the ending continued into a new manga!!!

this is my favorite book in the series. though in this book and in the next book, and occasional cross-eyed look happens more and more often. do all of the characters have lazy-eye?

speaking of inconsistent artwork, there's ito's hairstyle. her hair goes from being really thick to the nape of her neck to her hair still having the same thickness but to her shoulders, to being really thin, layered, and at the nape of her neck, then back to shoulders and original thickness, then reversed back to the original hairstyle of the book. supposedly she isn't cutting her hair. then there's every now the top of her hair, it goes from being layered starting at about eye level to being so short that it sticks up. i understand bedhead, and

how ponytails looks different then being down (which i always get irked about how it's rarely depicted that there's any change in length when put up), but i don't think i'm being unreasonable when i'm asking for some consistency.

i still don't understand why mokoto's wig had to come off. he didn't give her his hat (which for some reason the hair was attached to) and it appears as though he only gave her his jacket (something he could have unzipped, not lift over his head and knock off the hair). it would have been smart to give her a hat, you loose a ton of body heat through the top of your head. side tip, if the snow is powdery, it is highly absorbent and you can use it to dry yourself off after falling into a frozen lake. gotta love "man vs. wild." er um, back to book #13- i guess emura wanted just about everyone keeping makoto's secret and her brothers finding out before graduation.

So many loose ends have finally been tied! Only one more volume left!

If you'd asked me while I was reading volumes 3-6 how I felt about the series having only 14 volumes, I'd have said: "Well, it is a little redundant." But now, I'm not sure if I'm ready to say goodbye to Ito and Makoto, and the rest of the gang...

Amanda Setasha Hall says

This was pretty good. A lot of drama and revelations. I appreciated it.
