Welcome to the Cameo Hotel K.I. Lynn

I get what I want.

When I walked through the door of the Cameo Hotel I didn't expect such a beauty to be working the front desk.

The effect she has on me is intense, and I make her life a living hell because of it.

I love her spirit, her internal defiance when completing the most inane task I assign her. My two week stay has turned into unending, just to be near her.

She's under my every command if she wants to keep me happy.

There's one last thing I want.

Her.

3.5 "Gavin's brood improved my mood" stars!!

Even after reading the extended epilogue, I'm still not sure how I feel about this story and I like that for some reason. Any story that leaves me conflicted is worthy of praise in my book.

Gavin was brooding, sexy and successful. When it came to Emma, it was lust at first sight - for him. For Emma, she couldn't stand the guest at the hotel who made unreasonable demands, harassed the staff, and generally made every shift a living hell. That is until he reveals how he really feels. Then her heart opens up and Gavin walks right in.

I'm not really sure why James' character was introduced the way it was. It took away from how I felt about Emma in the end. I get that it was to add drama to an otherwise drama-free story, but it wasn't fair to his character and I just felt bad for him. Maybe he'll get his own story so we can see him get his own happy ending?

Welcome to the Cameo Hotel was incredibly sweet and made for an easy read. I really appreciated getting Gavin's POV. It made up for his surliness and bad treatment of everyone and gave me a firmer understanding of his character. If you enjoy a story involving a moody a-hole who turns all warm and fuzzy for the woman who owns his heart, you'll definitely be entertained by this one.

If you're in search for a complete asshole who makes it his life mission to see others suffer...well you found him. Meet Gavin Grayson, douchebag extraordinaire. Taking the pig-tail pulling off the playground and into a five star hotel, he does everything in his power to drive Emma Addison, hotel manager, absolutely crazy. Until eventually that inner desire of hers to beat him bloody turns into one of complete lust.

Did Gavin change his inexcusable behavior at all during this book? Nope. Did I fall deeply and madly in love with him? Yup. Should I see a therapist about this jerk addiction? Probably.

I don't know what it is about these heroes that make me want to kick them in their balls yet somehow by the end of their stories I then want to kiss them all better. But K.I Lynn sure knows how to write a character like this and I found myself loving his story. But I did really like that Gavin didn't change his ways for the

heroine, and instead opened up to let us discover the tiny, hidden, sweet part of that personalty. For me it made the book more realistic and also very intriguing.

Pretty much this is just a review on Gavin and how much of a complete cuntbag he was, but I will also say that I thoroughly enjoyed this book and I do recommend it.

KrystalReads says

“Don’t little boys pick on girls they like?”

Ewww, he did not just go there. No, girls shouldn’t assume the horrible bullies in their lives are actually guys that are secretly crushing on them. Guys should learn to treat ALL women with respect, especially ones they supposedly like!! I cannot stand Grayson. He’s horrible to her, horrible to other people, and no amount of past baggage can excuse his nasty behavior. I hate when someone can get away with anything because they’re attractive. I am done with this book, unfortunately. Life is too short!

(I don’t rate a DNF because i don’t feel it’s fair to the author)

Christy says

5 stars!!!

K.I. Lynn always does an incredible job writing forbidden/work place romances. When I read the blurb for this book, I knew I had to read it. It lived up to all my expectations, and I'll be honest- they were high. *Welcome to the Cameo Hotel* is steamy, angsty, gripped me from the start, and had just the right amount of humor along with some fantastic banter. I loved everything about this story.

Emma Addison is almost there. She's so close to having the life she's always wanted. She's almost done with her MBA, which means she can almost quit her job at the hotel, and almost start a long time coming relationship with her boss, James. Things are falling into place and she's so close... and then Mr. Gavin Grayson checks in to the Cameo Hotel and turns everything upside down.

Gavin Grayson. What can I say about Mr. Grayson... I love a good alpha-asshole, and KI Lynn writes the best ones. This guy made me love him and hate him in equal measure throughout this book. Emma is a tough cookie. She's a hard worker, independent, and I loved that she wasn't a doormat for Mr. Grayson. She's a strong woman and stood up for herself. These two were a perfect match. They meshed together so well and their chemistry was explosive.

This book kept me on the edge of my seat. I loved the forbidden aspect, and I was just waiting for the other shoe to drop. I love stories that keep me waiting and guessing and this one definitely did! There were lots of moments that the angst was high, but what I loved most about this story is that it had lots of angst, but also lots of heart. I loved this couple together and really rooted for them.

“I’ve been yours since the moment I walked into that hotel.”

Welcome to the Cameo Hotel is a captivating, well written, sexy, and highly entertaining read. If you're looking for your next steamy work place romance, pick this one up!

1-Click Addict Support Group says

Hell is what I thought of Gavin and my goodness that might seem like a tame word for this sexy scoundrel. He reminded me of guys showing a girl that they like them by being complete a**es to them....but Emma was no fool. She didn't let Gavin get away with it. She gave Gavin what he gave her. Their chemistry was caliente (hot) and had me needing a cold drink to cool me down.

The suspense to see how they would work it out due to a "saucy/scandalous" relationship had me intrigued. Be prepared for the emotions Gavin & Emma's story will bring out of you. Kara~4 Stars

MELISSA *Mel Reader* says

4.5 Stars!

(ARC provided by Give Me Books Promotions)

Emma Addison is a beautiful 25 yr. old woman living in Boston. She’s working full time as a hotel clerk/supervisor while finishing up her MBA. She has a plan. She will graduate and then be able to move on from the hotel, and finally be able to take things to the next level with her manager James. Then Mr. Grayson enters her life and everything changes.

Gavin Grayson is a gorgeous 35 yr. old businessman who is the Vice President of a multi-billion dollar company. He’s next in line to be CEO, and recently transferred from NY to Boston to work at Cate’s main headquarters. He’s staying at a large, five star luxury hotel called the Cameo Hotel. Work is his life and he’s spent most of his time climbing the corporate ladder. He doesn’t have much of a personal life until he crosses paths with Emma and he’s suddenly captivated by this stunning woman. He hates how badly he wants her. He feels out of control, angry, and he takes it out on her any way he can.

The Cameo Hotel has a new, very important guest with a reputation for his high standards. He’s a difficult demanding jerk who seems to take his hostility out on Emma. She bent over backwards to please him and make him happy. She took everything he threw at her, but never backed down. She disliked him, yet couldn’t control her reaction to him. Mr. Grayson was overwhelming and infuriating, but one look from him made her body feel on fire. With every encounter she burned for him to touch her. Gavin is equally as obsessed with

Emma, and the sexual tension between them finally explodes and soon they are both addicted to one another. Emma didn't plan for him, but her path is now altered by this sinfully sexy man who owns her heart.

-From the first moment I saw her there was an attraction I couldn't comprehend. Feelings I didn't want consumed me for a woman I didn't even know.

-The way he made me feel with a single look was nothing compared to the system hijack of his touch. Every part of me responded to him in the most violent, lust-filled reaction I'd ever had.

-All I wanted was for him to keep touching me, to never stop.

-"I've been yours since the moment I walked into that hotel."

-Emma was mine, she always was, and she always would be.

I really enjoyed this story! It's super hot and full of emotion. There's something real and special between Gavin & Emma. I ended up completely falling for this gorgeous, alpha male. He's intense, devastatingly handsome, and I couldn't put this book down!

Book-Bosomed blog says

DNF

Emma Addison, 25, is a MBA grad student working as a supervisor in an upscale Boston hotel to pay the bills. Gavin Grayson, 35, is a VP in line for CEO of a large company who has just transferred from New York to the Boston headquarters.

The blurb sounded cute and the premise had potential, but it fell apart on execution. The first chapter was engaging and well written and then the second chapter took a nose dive. The main issue is that the story starts out laying the groundwork for Emma's "relationship" with her boss, James, who seemed like a decent guy. They engage in flirty texting/banter, and I definitely felt the chemistry. So color me utterly confused when chapter two and three is utterly insta-lust between Emma and Gavin. Not only was it bad development, but Gavin acts like a rude, condescending jerk to her. Even she can't explain her attraction to him alongside her waning response to James.

Thus, there was a serious problem of show and tell, as in the story was showing the readers why to root for

James while telling us that Gavin was the one. A good romance story doesn't need mixed messages. In fact, it made me like Emma less. There were too many sentences about how great looking Gavin was but nothing beyond the physical that should be attractive about Gavin from Emma's point of view. To some extent, I suspect some of his demands were supposed to be comical while at the same time going for that "hot and demanding" characterization. Except they continued to make me lose respect for Emma who I started out liking. Being harassed, bossed around, and practically verbally abused on a daily basis isn't sexy, alluring, or an aphrodisiac. And it certainly isn't romance. If anything, it's a potential warning sign.

Oh sure in fiction land, it might end in a HEA, but in the real world if your dude treats you like crap while he's courting you, it's going to get worse down the road. While what's *told* is that Gavin is a sexy man in a suit, what's *shown* is a wealthy, entitled man whose behavior hints at a lack of respect for women and anyone who works a job making less than him. (At one point he even comments that he'll write the hotel CEO that he has nice hotel, but to the actual service workers he constantly complains and degrades them.) His attempt to brush off his interactions with Emma as "juvenile boy likes girl" were lame at best and offensive at its worst. I DNFed at chapter six. This prick was no book boyfriend.

Snow says

shit, I wanted to like this more...I truly did

I sound like a parrot by repeating over and over and over again how any kind of "enemies to lovers" and "love/hate relationships" with a touch of a "forbidden", in this case, works for me and I will and would I click this kind of book in no time...

and yet, it didn't fully come true, in this case

the beginning was fantastic, I thrived in it, the push and pull, between a Cameo Hotel supervisor *Emma* with abnoxiously demanding and petty hotel guest *Gavin Grayson*, the rich CEO, is bordering on molestation LOL and yet, the prickly handsome devil is alluring, aggravating and tempting and very dangerous, especially for the likes of Emma, who has a high driven plan of finishing her MBA degree and getting a better job and better life for herself

I had never met anyone as infuriating as Gavin Grayson

and yet, she falls, irrevocably...and he falls with her, revealing a different side to his grumpy, dangerous and demanding posture...she's jeopardizing her position, she's messing with her future but when it all falls down, and their secret affair is revealed, Gavin takes the reign and covers for her... it all seems idyllic, until a life throws another surprising curve ball, and that little event pushes back the past

that burned Gavin to the core, and he lashes out on Emma, even though she couldn't be more different than the person who hurt him in the past...but he's blinded by it and stubborn and pigheaded and annoying...

and it will take a "scare" for him to wake up, to see things clearly and to set things right in his own head, and then he will have to grovel and fight for Emma to get her back.

And yeah, I think you can guess, where the shit hit the fan, Gavin was awesome, thrilling and all mentioned above in the first part of the book, but then when shit really became real, then he turned into this immature, prickly little shit that annoyed the fuck out of me, therefore, man the fuck up, man...argh

Wendy says

I am familiar with K.I. Lynn's work and I especially loved the "Breach" series. When I read the blurb for this new book, I was immediately intrigued. It was just vague enough for me to become very very curious.

Emma is a 25 year old student working at a high end hotel to make some money, so she can pay all her bills. Gavin is a 35 year old Vice President, and a guest at said hotel, a very annoying guest one might say.

Gavin is a bit of an asshole really. But we all know how much I love redeemable assholes...and I do believe he redeems himself. That doesn't mean I would have minded, if she had drop kicked him a few times though

What Gavin likes to do most...is push all Emma's buttons.....and I mean ALL of them ;)

These two have some amazing chemistry going on, which they can't deny for long. Lucky for me, they don't !!

This was a very nice, sweet and hot story and if you like redeemable assholes as much as I do, I am sure you will love it. It has a bit of angst to it, but not a whole lot.

I do recommend this one ;)

★4.5★

"Life doesn't always work out like you think it will."

Welcome to the Cameo Hotel is a stand-alone contemporary romance with passion and a smoking hot forbidden romance!

"The fire that burned in his eyes was the fire that burned for me. It was the first major punch to taking down my wall of pain."

Emma Addison has worked hard her entire life to achieve success. Working at the Cameo Hotel as a supervisor in order to pay her way through school, she hasn't had much time for romance. When a broody (and wealthy) corporate CEO checks in, her entire world is turned upside down. Gavin Grayson is demanding, arrogant, and completely enamored by the young Ms. Addison. It doesn't take them long to connect on a physical level. With Emma's job on the line, the two must find a way to keep their romance hidden and find stolen moments together. Gavin has an overabundance of baggage and as he struggles to move past the demons of his past, Emma manages the impossible and shows Gavin what it means to truly experience long-lasting love.

"The man was infuriating and maddening and drove me crazy."

Told in dual POV, **Welcome to the Cameo Hotel** is addictive with smoking hot passion and a complex plot. Gavin is a strong hero who is not afraid to get what he wants and he wants Emma! The pace of the read is intense as the threat of Emma and Gavin being discovered looms with each passing moment. Although there was some slight angst, due to Gavin's stupidity, this book offers a perfect blend of passion and tender romance. Gavin and Emma are perfectly matched and the journey they share together will leave you on the edge of your seat the entire read!

Overall, I highly recommend **Welcome to the Cameo Hotel** to anyone who enjoys a good alpha hero and a smart and sassy heroine. K.I. Lynn is a gifted author who never fails to amaze me with her unforgettable characters and explosive plots. **Welcome to the Cameo Hotel** delivers a modern fairy tale that I never wanted to end!

Josiane says

The beginning of this story was a bit rough for me. It felt jerky and the exchanges between the characters made very little sense. It was like reading about a 7 year old boy who throws rocks at the little girl he likes instead of feeding her ice cream and talking to her.

It got better though. Obviously, since I gave it 4 stars. This is a standalone quick read so great book for Memorial weekend.

K.I. Lynn says

I get what I want.

When I walked through the door of the Cameo Hotel I didn't expect such a beauty to be working the front desk.

The effect she has on me is intense, and I make her life a living hell because of it.

I love her spirit, her internal defiance when completing the most inane task I assign her. My two week stay has turned into unending, just to be near her.

She's under my every command if she wants to keep me happy.

There's one last thing I want.

Coming May 14th!!!

Tee loves Kyle Jacobson says

Oh man I needed a tall bucket of ice cubes after reading this book. I loved every moment of it. I laughed and then I growled at my kindle because there was so much going on. I loved the banter back and forth between Gavin and Emma. They were just down right hilarious at times that I was laughing so hard I was crying!

Emma has her life mapped out already. She has her goals set and she is crossing them off as she goes. That is until she is ready to reach her ultimate goal when a monkey wrench is thrown in her plans. She is mad because she has her life on track and has no time for the foolishness but that is what happens and when she meets Gavin all bets are off.

Gavin oh Gavin I love me a cocky boy and he is one. He is so confident in what he does and he knows what he wants and he will not stop at anything in order to get what he wants. Gavin is all alpha male and he has set his heart and body on getting his girl and he will have her no matter what.

Melanie (mells_view) says

3.5 stars.

Ok. I'm not sure why I thought this was going to be a dark read, but it absolutely isn't.

It's honestly a pretty tame love story, where the hero is perfectly alpha, and the heroine is strong and working hard for her future. It's like a WAY WAY sweeter take on FSOG, without the dom/sub & BDSM, but still with lots of steamy parts. It's basically two people who want each other, there's some things in the way, but they go after it anyway. Someone else said this is enemies to lovers... but it wasn't really that way for long so, I don't know if I'd truly consider it that. That said I enjoyed this read. It's quick, it's simple, and the angst is pretty quickly gotten over.

If you're looking for light, but steamy... the cameo hotel is a good choice.

Dilek VT says

DNF at %25.

Well, this must be a joke...

The book, I mean. It must be a joke. A bad joke!

My first book from this writer will definitely be the last.

I just.. I have no words...

Actually, I do but I am stopping myself...

P.S. I just didn't want to talk about the book any more than that, thinking it wasn't worth it but when my friend asked, then I couldn't help myself and explained why it felt like a joke, down in the comments section. So it's there if you wanna check it :)
