After receiving Max's gift, his songs take on a much more personal meaning and help her think of him while he's on tour. She didn't expect for Max to come visit her again, nor did she expect for him to show up at the front door of her workplace during the middle of his tour.

With Max's surprise visit, Therese decides to treat him to a place of personal significance; a place where the two can unwind in relative privacy away from the spotlights of the stage...

Endearing love story. About time a size 12 female is featured as the heroine and love interest! Therese is a gorgeous girl, sweet and intelligent. Max is the rock star who falls for her. The pursuit is worth reading this series. Fully recommended!

I loved this whole series. All five books. It was a quick read and it did leave me wanting more but I really enjoyed it. Well worth it. Thanks for a great read :)

Max is on tour, but on his one day off, he flies to see Therese and shows up at her work. Therese takes him to a beautiful place that she frequents when she wants to get away and has a wonderful day with him before taking him back to the airport to see him off, not knowing if and when she will see him again. Then that ex girlfriend of Max's shows up at her work.

This story starts where 2nd one ends...

I enjoyed this installment of the series I just really do not like the "ex" girlfriend...and I don't see why Therese is hiding the fact that it WAS Max Stone from Natasha. It's almost like she is embarrassed by the fact that she likes and wants him.

We see Max come for a visit during an off day to spend the day with Therese.

At the end (I REALLY hope this ex-girlfriend gets what's coming to her....just saying) the "ex" shows up out of nowhere then it ends.

### **Jessica Gomez says**

It's a sweet story. Max oh my God. He is so sweet. I'm glad he went to her and found her. His ex needs to

have her ass kicked.

Very short and sweet

The **third book** started showing Therese dangerously close to becoming a groupie fan after she listened to all Max's songs.

Then there's the sudden reappearance of Max in her life. And he even looked more handsome. He looked sinfully fuckable as Therese described him.

Max was **soooooo** *sweet*. He tracked her down just to see her. He hopped in a plane just because wanted to spend the day with her even though he's so tired. *Well*, Isn't he just the sweetest?

I enjoyed book 3. I think it was way better than the first two books. In this book, you could really see the connection between them. Plus they have this conversation, they just driving and talking without ripping each others clothes. It was... *Intimate*.

“I want to be the cause of all your good days.”

**Oh yes.** You're definitely the cause of all my good days. *\*swoon\**

But then that bitch showed up again and have to ruined everything! Argh!

Another cliff-hanger ending! Gotta read book 4, now!
