All the Sky Susan Fanetti

Joseph 'Havoc' Mariano is an enforcer for the Night Horde MC. He's a punch first, think maybe kind of guy, a man of action. He's impatient and frustrated with the quiet life—times are changing, his town is changing, his club is changing, and Havoc places the blame squarely on the women that his brothers are settling down with. There's only room for two women in his life: his mother and his sister. Romance holds no appeal for him whatsoever. He's a homegrown, hometown boy whose attitude covers scars he's mostly forgotten about.

Corinne Hawes is a single mother struggling to find a way to make a life for her and her teenage son, Nolan. She is an artist at heart, a free spirit on whom the structure and rigor of routine chafes hard. When she takes a job that makes Havoc her boss, they butt heads. But in their confrontations, a spark ignites. When they let their guards down, that spark explodes into a blaze.

While Cory learns to trust Havoc, and Havoc grapples with a major shift in his priorities and outlook on life, the period of legitimacy and peace comes to an end for the Horde. They had no idea that they were in so deep until an old enemy resurfaces and perpetrates a horror that affects Havoc, and Cory, profoundly.

Note: explicit sex and violence.

Havoc is sporting a shaved head, a beard and a very ripped and tattooed body. Right from the beginning he manifested what a real sexist and jerk he is. He did change somewhat over the course of time, but I didn't quite buy the "*I can be sweet.*" What I liked best about him was his hotness factor which was pretty high and, of course, I really loved the interaction between him and Nolan. These two really hit it off and I was happy for Nolan that he found a father figure. I could practically see how he thrived and bloomed when he got Havoc's attention. Havoc, however, was very uptight when it came to love, relationships and commitment. In fact, intimacy scared the heck out of him. Due to his upbringing it didn't come as a surprise, though. It goes without saying (view spoiler) And I can't help feeling a grudge against (view spoiler)

A three-star rating means that I liked the book but didn't love it. I think that Havoc and Cory can't hold a candle to Isaac and Lilli. In my opinion All the Sky lacked depth, gripping and real emotion. By the way, drama doesn't necessarily equal emotion, at least not to me. Another issue of mine was the plot itself as well as the writing which felt very **disjointed**. Nothing really flowed smoothly and the plot was all over the place at times. Plus, I wasn't particularly fond of Cory either. Aside from love, kids need stability in their lives. Being a parent means that we should be a good role model and I think Cory could have tried harder to hold a job longer than a couple months. When she went mental I was like "Daf@ck? What was that?" As always it would have been very nice to think first and act later. I honestly don't know what's so difficult about having a reasonable conversation instead of going apeshit in no time flat. Also, her parenting skills are lacking. What parent lets their kid unattended wander around in the dark for hours?? It's very careless as well as dangerous and (view spoiler)

All the Sky is by no means a bad read because it did entertain me, yet it's not up to par with the previous books in the Signal Bend series. I hope that Len's story will appeal more to me.

Re-read (as a series) August 2017 - *All the Sky* remains my favorite Signal Bend book. These characters have stayed with me for years since I've first met them and reading them again deepened my appreciation and adoration of them. I don't know what it is about this book because there are some very dark events that happen but the juxtaposition of that darkness against the stark reality and reminder that there can be light after darkness is so pivotal in this story. Fanetti's writing here is so crisp and full of theme and foreshadowing, it's a reader's dream. I'd love to pick apart each and every part of *All the Sky* just for the nerdy fun of it but I'll spare you. Just read this series!

5+++ "*It was crazy.*" Stars

Susan Fanetti gifted us with yet another Signal Bend **masterpiece**. This author leaves nothing out of her stories. Stealing you from the mundane, thrusting you into Signal Bend she controls your emotions with poignant words, settings, and plot, gives you strength to believe in her charismatic characters, and shocks the ever-loving life out of you (more than once) ultimately to leave us reeling and needing to stay rooted in the throes of the Night Horde MC. These books in no way portray a life of glitz and happily ever after. Signal Bend feels real, as if I can jump in the car, drive to Missouri and I'll find a once struggling town with people who face these challenges under the rule of an unconventional leader. The fact that it's so relatable and real provides a true testament to the great talent of this author. The overall tones affects us with a grim, gritty, dreary disposition of this world; even in the happily ever after comes the ultimate of tests. The writing and tone leaves an unforgettable and lasting impression.

The main characters in this installment are Havoc, Cory, and Cory's son – Nolan. The dynamic of this trio provides such an intense and unique contrast to the other stories in this series giving a new appreciation and deeper connection to the series. All of the secondary characters to this story, mainly the Horde but especially Isaac remind us of the sense of leadership and family; the fondness to this place and these people remains true; the fluidity of that aspect never waivers.

Cory and Havoc really stand out and shine through Nolan's influence. There is something inherently beautiful about the relationships between Nolan and each of them. He's a charismatic, mature, soulful teenager who's finding his place in the world. Cory, by society's standards, provides unconventional parenting and Hav way more so than she. But the beauty in that, bucking the system, speaks volumes of the character in all of them. It's also provides a great metaphor for the entire book since MC's tend buck the system themselves. Brilliant, right?

What I love a lot about Ms. Fanetti's writing are the choices she makes for heroines. These are not light and fluffy women. They're hardened, strong, and completely true to themselves even if they're battling inner demons. This stands true for Cory. She finds something in Havoc, that wasn't there before; she draws it from him, and then stands by him withstanding the storm. Her implicit trust forms an unbreakable, lasting bond with her son that I found so perfect. In a very different way than how Hav understands families, Cory & Nolan thrive as a family.

Thus, Havoc proved to be a very special character to me; his journey unforgettable. He could very well possibly be my favorite of Horde MC thus far. Hav's a tortured character, a bit broken, and emotionally fragile. A tortured hero makes the best hero. Fundamentally though, he's very deep and thoughtful. There are

tender moments where the juxtapositions he draws between life and death are quite profound. He craves simplicity and emotion at its basest form – thus making it all the rawer when his control starts to slip. He's at his best when he's sharing himself with Nolan who provided a catalyst to allow him and Havoc something they both desperately needed: a real connection with someone who understands the person they are. Then Cory catapults into his life, a wrecking ball that destroys everything he's ever understood about love. Havoc is right in a way when he says "chicks ruin everything" because Cory sure ruined his air tight philosophy.

Havoc intrigues me, almost ethereally. I'm slightly obsessed. And, their story became a sort of Beauty and the Beast tale. Strip this feral beast of his control and the most tender vulnerability and love shines. He becomes a protective beast and the intensity of this shift alters lives.

This author knows her characters, she knows what and whom they need, and she believes in each and every of them. She's proves it to us with each book because she makes believers out of her readers too. The descriptive settings provide a daunting visual. The plot, especially with the introduction of the cartel maintains, shocks, and appeases. And these characters, beautifully flawed and engaging, are why I love to read. *All The Sky* further solidifies my position as a Susan Fanetti fan for life. I cannot wait to get back to Signal Bend for Len's story. Something wicked this way comes to Signal Bend, can they endure? Since Ms. Fanetti shocks me every time, I haven't the foggiest idea, but I'm extremely excited to find out.

Favorite Quotes:

"You realize that what you just said is the exact opposite of what every other adult has ever said about sex to any other teenager in the history of the world, right?" Havoc grinned and put the bottle to his mouth. Before he drank, he said, "And see how fucked up the world is?"

"Nope I like meat. I can't afford organic. And I'm too busy saving my kid and myself. The whales are gonna have to take care of their own shit."

"Tell me to fucking go, then, and I'll stay away. But I'm not always gonna ask. I'm not. I got no idea what we're doing, but whatever it is, it's not just on your terms. No fucking way. I'm not a hearts and flowers guy. That's what you want, then I'll go and let you look for him. But if you don't tell me to go right here and now, then you're mine."

5 Chicks, Havoc & MCs Stars

Love is more thicker than forget...

Real love bring the sky down to you and leaves a star for safekeeping near your heart. Turns your world upside down and brings you the chick that you didn't realise you were dreaming about. That's right Havoc, our favourite badass, clueless biker, falls in love and with a hippie at that!

"I like my chicks carry out."

Joseph "Havoc" Mariano is the brawn of the Night Horde MC. A punch and no second thought kinda guy.

He has witnessed his Club brought to its knees. His brothers fell in love and built families. His town came alive again. But despite all that, he is feeling alone and abandoned. Never has he ever felt loved. Only the firm hand of his father judgement. Love is out of his comprehension.

And then comes along **Cory**. An artist, a singer, a bar manager and above all a mother. Of a 15-year old boy that she takes care of all by herself. Struggling to make ends meet and provide for her child, Cory hasn't got the time for romances and jerks bikers. But Hav is irresistible when he sets his eyes on something. Can they build a relationship around the Club and the dangers that are knocking on their doors once again? Love goes hand in hand with trust and this is something not easily earned. When tragedy strikes again and again, bonds will be tested and only real love will weather the storm. And will manage to forgive all the betrayals.

"Tell me to fucking go, then, and I'll stay away. But I'm not always gonna ask. I'm not. I got no idea what we're doing, but whatever it is, it's just not on your terms. No fucking way. I'm not a hearts and flowers guy. That's what you want, then I'll go and let you look for him, But if you don't tell me to go right here and now, then you are mine."

I am totally amazed at Susan Fanetti's ability to take a hot mess of a plot and make it even hotter and messier than we could ever imagine. A wild ride; utterly beautiful and devastatingly real. Unapologizing, fierce and gut-wrenching. From closed caskets to sledgehammers, runs and blood, to family, brothers and love. More love than I, that I have lived a fairly sheltered life, can comprehend. Because we are talking about the kind that has been forged in fire and strengthened. The kind of love that leaves a weak person trembling in fear and steals the breath out of the brave.

Our favourite MC is no longer at crossroads. Once again they picked the rocky road, where heartbreak and danger awaits. They took hits. They are mending together and they have one hell of a fight in front of them. For their town. Their families. Their Club.

I've been a huge fan of this series since the moment I read the first book and even though I've loved all the sexy members of this MC Club, Isaac have been my main guy, but after meeting Havoc I think I might've found my new King. Havoc was even more of an Alpha/Cave Man than any other character ever, making him completely irresistible.

Cory was sassy and awesome, I loved her relationship with her son Nolan and how patience and understanding she was to Havoc's antics. I thought they were perfect for each other.

The more I read this books the more I fall in love with Susan Fanetti's writing style, she always has something new and exciting for her readers in each book. I will continue to read on through all her novels, because she has become one of my go-to authors.

I highly recommend this book to all fans of MC stories.

I love being back in Signal Bend with the Night Horde.

He did not fuck chicks off the roster, he reminded himself. But there wasn't any harm in looking.

Joseph "Havoc" Mariano is an enforcer for the Night Horde MC. He's a punch first, think maybe kind of guy, a man of action.

I liked Cory, she had a tough enough life and was doing the best she could.

And he had a tendency to say things like "calm your tits" and "don't get your thong all twisted up." Truly, he was a delight.

They didn't exactly hit it off when first they met.

She poured a red into a Bordeaux glass (Jesus Christ, it still hurt him a little, deep inside, that he knew the different kinds of wine glasses)

"You piss me the fuck off. You're a mouthy little bitch"

"Likewise, you're a rude asshole."

Liked that Cory could stand up for herself and didn't take any shite from Havoc.

Later when she dressed and left to go back to Nolan, he lay alone in the bed and tried to unsnarl the knot she'd made inside him. He needed to understand.

Havoc didn't want to love, he didn't know how to love. He had a strict father, growing up and was not shown much love and affection when he was younger.

I loved how Cory was with her son, Nolan. A no-nonsense mom who loved her child unconditionally. Of course it was great to see Isaac again.

When they let their guards down, that spark explodes into a blaze.

Then around 75% we had a serious moment.

Was not expecting that to happen....

While Cory learns to trust Havoc, and Havoc grapples with a major shift in his priorities and outlook on life, the period of legitimacy and peace comes to an end for the Horde.

Roll on the next book!

MEET HAVOC & CORINNE

Brandi says

4.5 Stars

I adored Havoc's story, while Cory frustrated me at times, I captivated by this story. Havoc's character pulled my interest from the start, he only sees woman as an object and tends to blame them for most of the bad situations the Horde has been plagued with, but all that is about to change.

"Chicks. Fucking chicks ruined every damn thing."

Havoc and Cory don't get off to a great start, he is an asshole and she refuses to put up with his shit. Cory is a single mom, musician and a free spirit. She struggles to make ends meet and care for her 15 year old son, Nolan. And while she tries to resist Havoc, she finds herself thinking about him more and more.

He was a fuck 'em and forget 'em kind of guy. She was not that kind of woman.

These two soon find themselves unable to resist each other, finally acting on their attraction. Priorities change and Havoc struggles to deal with the changes in his life. Can Cory accept the biker lifestyle and will Havoc change his ways? I loved watching Havoc grow, he has had a rough life, and gets dealt some pretty shitty hands, but he has such a sweet soul, hidden under that crude mouth and asshole exterior.

"I want to try. I'm gonna fuck it up, or it's gonna fuck me up, but it's like I don't have a choice."

The first 40% or so, was a bit slow moving, but once things pick up, I was hooked to my kindle. So much happens, I was on the edge of my seat. *All the Sky* was a great addition to the series. I was sad to see it end.

~~~~~ UPDATED ~~~~~

5 Calm Before the Storm, Families/Clubs, Realities of Life

\*\*\*\*\*

We all see things through our own type of lens...how we were raised; how we took this information and applied it to our history and lives... they all are colored through that lens. It can make things pretty... or mistrustful or just down right ugly....

Susan Fanetti's talent, in my opinion, is the lens we see her tales through....is Chrystal Fucking Clear. There is no glamorization of Club life or the people she presents. Every moment is there for the taking... for us to experience as it happens with no justifications ... nothing to pretty it up. Because this life may have a sense of freedom and romance about it in theory... but in practice... there is no safety.

I felt this was an extremely strong installment because so many issues were discussed while the saga of Signal Bend continued. The artistry of having the ability to have this core of the club... and the way it strings

other pieces in and around it seamlessly ... always going back to how this is the club and club life...with the stories intertwined, embellishing it, decorating it but never losing the core's focus is the gift.

Fanetti used the contrast of families, how to mother, how to love unconditionally without the use of violence and to be open to others as her tool to open Havoc's eyes and then heart. Corrine became the highway for him to choose; he just needed to figure out how to travel it... how to maneuver because it was like something alien to him. His attraction to her; his overwhelming need was frightening. It made him question everything.... the only thing which made him a little comfortable during all of this was Corrine's son Nathan. The love and bond he had with Bart was sorely missed; Havoc's careful friendship started to fill that hole. The character Havoc always saw things his way... distrusted other ways... and through this book we get to be there ... with him when he recognizes everything he thought about connecting with women and the concept of love was wrong. When he gets it.... he gets it something fierce.

The scenes between Corrine and Havoc had a base level of intensity which was feral and brutal; but then could be tender... they need to be read... The internal thoughts of Havoc were so powerful it was if the dawning of things could light up an arena... that is how bright the light was when he got it.

I am at a loss to talk about all I would like regarding this installment.

It is jammed pack with discoveries; emotions; understanding of what is really important; and ramifications of actions.

This has strong character development with Corrine and her son Nolan. They have one of the best mother/son relationships I've read. The respect and understanding she had for her boy; the feelings of wanting him to be who he needed to be... no matter what... and how she gave him a safe place to talk with her always, hit me as a mother of two grown sons.

So here is the deal.... we have all of this character development... and then we continue with the core focus too, of the Horde... where are they going... what is the next thing... and how will all of it affect the town.

As you can see, I loved this book...I was supposed to be good... I was supposed to pace myself so I could buddy read with my friends...but I admit I could not overcome my desire and need to read this book from cover to cover.

I am still reeling... Susan Fanetti has continued to defy the odds... she knows her people; their world and she hasn't faltered yet.

Another installment is coming... is it May24th yet????

**"Chicks ruin everything..."**

That was Havoc's motto from day one... Until a feisty hippie chick blew into Signal Bend. A chick by that name of Cory. He doesn't know what hit him.

Cory, single mother to a 15-year old son, Nolan, hasn't had the easiest life. Her ex husband is a cheat, leaving her with nothing but an STD, she stumbles from job to job almost a self fulfilling prophecy of failure. When a spot opens up for her to sing her folksy style music in a new wine bar in town, she sees potential... A chance to make it on her own. Unfortunately, the bar is owned by the Horde MC and the part owner/manager is an asshole with a capital A. He's arrogant, male chauvinistic and she tries with all her patience not to quit this gig due to him. She has a mouth to feed, a roof to get over her head.

Havoc has always been the untamed of the Horde crew. He's the first to inflict pain, even death, when the club needs it. He likes his chicks carry out. Club whores, on their knees, from behind, never kissing and always kicked out the door when he's through. But the new girl singing in the wine bar really gets his hackles up. He's abrupt, rude, and they really don't like each other. They banter...she doesn't back down...and he doesn't know what it is about her but he wants her but...he doesn't fuck people on the roster. End of.

**"When I met you, I'd've bet big money you were one of those vegetarians."**

**She swallowed, "Why?"**

**"Don't know. You dress like a hippie. You sing hippie music. Figured you were one- eatin' organic, savin" the whales, whatever."**

**"Nope, I like meat. I can't afford organic. And I'm too busy saving my kid and myself. The whales are gonna have to take care of their own shit."**

I just have to say...I love you Susan Fanetti. This is, by far, the best MC series out there. If you haven't picked it up, you are missing out. We have started at ground zero with the Horde crew. She's perfect at moving their stories along but including all the members in each and every book as we go. I feel like family...we know these guys. They're tough, crass, outlaws...and the most endearing set of biker hotness out there.

I didn't think Susan could outshine Show's book for me but...sorry Show, there's a new tortured alpha biker that tops my list (although Show is a close second). Havoc is just... emotionally animalistic. He's had his way of treating women, of living his life for 38 years, and it takes one single mom with a great 15 year old kid to rock his world. I'm not going to give a lot away as I think his story needs to be experienced instead of told.

Was Cory a perfect mom? No. She had a lot of pressure trying to raise a foul-mouthed kid that just needed acceptance in his life. I loved Nolan. He wasn't perfect, but he too was a result of a lifetime of letdowns by everyone but his mom.

**Why do I love Susan Fanetti's Signal Bend series? Let me count the ways...**

1- Characters are tough, gritty, but deep down likeable and loyal to the core. We've grown to know each and every member and continue to follow their lives from book to book. That is a great gift she gives her readers...a sense of family...familiarity with each book we pick up.

2- Her heroines are kickass. They're tough and do not balk to pressure. And I love a woman that can bring a man to his knees. Every old lady has brought her man to his knees...love that.

3- Susan never fails to shock me. She's a sadist, I tell ya. Her books always have a suspense side storyline to the love story that ultimately ensues. But she isn't afraid to shock you in repulsive and not so pretty "wrapped up in a bow" ways. We are talking about an outlaw motorcycle club here...not Boy Scouts. And she proceeded to kill me in Havoc's book in that respect.

4- The chemistry, build up, sex scenes are FUCKHOT. Thank you, enough said there...

5- I finish each of her books crying out for the next. No, there's never a cliffy. Each book is a different character but you know that character a bit prior to going in. Like the next book is Len...Len has a propensity for menage....did I mention FUCKHOT?

6- Her biker voice is perfection. I see her guys. I hear her guys. Her characters are crystal clear in my head. I rarely have to sit and try to remember who this guy was or that guy was. I remember them because I'm emotionally attached to their stories.

So, there you have it. A fantastic read. A perfectly imperfect hero that finds the perfectly imperfect heroine to bring him to his knees.

Looking forward to Len on May 24, 2014

And I thank you!

This is book five of Susan Fanetti's MC series, and I have just finished with a feeling of how much I love the town of Signal Bend! It may be dark, gritty, and extremely rough; but it has some very loyal, protective, and handsome alpha males..and I am all for that! Let's just say that the men make up for how dark it can get in this town!

This was Havoc's book, and the first half of the book, I found that I wasn't very connected to him and his heroine; Cory. I didn't feel Cory was the kind of mother that I could understand..she was a little on the irresponsible side for my liking. (I mean who lets their 15 year old son walk around in the middle of the night?) Then Havoc, gave a new definition to the term "Alpha Male!" Don't get me wrong, I LOVE the Alphas..and a lot of times the darker the better; but at times he was just plain crude and had not very much respect for women. The thing that I find though, is that the worse the man is; the harder he seems to fall- when he does choose a woman of his own. In Havoc's case, I must say that he redeemed himself in a big way to me! So, in saying that..the second half of the book became much more like the series that I know and love.

Lots to place in the last half of "All the Sky," some of it was sexy and gooshy, others of it were gut wrenching awful. This is what you get when you read about the town of Signal Bend, and Susan Fantetti once again does not disappoint! The sex between Havoc and Cory was scorching hot! I mean it.. There was nothing sweet and sappy about it! It was dark and primal, and I was enjoying every word of it! In fact, there were times I got butterflies from it!!! LOL It was THAT GOOD! I also loved how Havoc always seemed to become surprised when he began to feel love for his woman. It was charming almost!!! It does kind of seem wrong to say that Havoc was "charming"; however sometimes he just came across that way!

I still never really fell in love with Cory..she was just an "ok" character for me. I loved her son Nolan though, and I really hope that he has more spotlights put on him in books to come! I am almost scared to hope that, as you never know who is going to survive and who isn't. No one is safe in this town, and I will admit that I am terrified to read the next book! I hear it is a heavy one!

This is a series that I highly recommend to any reader out there who likes a little bit of dark to their stories. It isn't all pretty; but the bumpy ride is definitely worth it. The end result is almost always satisfying, and when you pick up one of these books it is mostly never boring or predictable!

4 Wrecking Havoc Stars!

I can't believe it took me over 3 days to read this! I love the Horde and this series is fabulous, but I'm so book hangover that it didn't consume me as the previous books!

I admit that Havoc is not my fave MC male. Cory however is amazeballs! She has a fabulous language and demeanor that has a lot of F\*\*\* yous! lol! Good for her because Havoc deserves all of them. Her kid Nolan is top notch also.

Since "chick's ruin everything" is his life motto this tortured love tale takes a long windy and well, a violent path. A Sledgehammer? really? wow....

Hey to each their own! I can honestly say that I am terrified to go on to book 6...while I don't mind the violence that is quite horrific and the romance that is tortured...I don't know if I can handle a major heartbreak that is bound to happen...things are too calm in Signal bend!

With each book in the Signal Bend series Susan Fanetti gives us some pretty amazing characters. In this installment we have Havoc, Cory and Nolan. The challenges they faced, the things that defined them and the vulnerability of each of them struck me in a way I didn't expect.

Havoc proved to be a character that will be hard to forget. He doesn't make it easy for you to love him. He has a hardness and abrasiveness about himself that if you're not willing to look beyond it, you won't see what lies beneath. Underneath is someone who is compassionate, genuine and fearless.

While growing up, Havoc had all the material necessities that a family needs. A warm home, family dinners, a sister he adored and caring parents. But Havoc comes to realize that parental love comes in many different ways. (view spoiler)

Cory has such a beautiful soul. Though she had been handed some pretty crappy cards in life she stayed strong. She stayed true to herself. And at the center of her beauty and strength was the unconditional love that she had for her son Nolan. Nolan snatched a big piece of my heart. Things were not always easy for him. But through it all he always loved his mom. He always had faith in her. And he protected her with everything he had.

Cory and Nolan's relationship may have been considered by some as "unconventional" but it was genuine. Though they were judged for the way they lived, it didn't change who they were. Cory's love and trust for her son created a bond that no one could break.

It doesn't take long before these three lives become tangled in ways that none of them expected. The affect that Cory has on Havoc is unsettling to him. He begins to lose his control and he starts to see life and love differently. He now wants things that he never wanted before. He and Nolan share a bond that allows them to connect on the simplest level. Each of them accepting the other for who they are, nothing more, nothing less. Cory had trouble understanding her feelings and desire for Havoc. But things begin to change for her, she realizes she needs him, she wants him, and she loved having him in their lives.

I don't want to say much about the plot because I don't want to give anything away. I will say that in the last 40% of the book **A LOT** happens. We get grit, angst and heartache. Havoc, Cory and Nolan fight for their happiness, their family.

Susan Fanetti continues to write pretty amazing stories. This series is just so good!! I cannot wait for the next book when we get Len's story.

*“Tell me to fucking go, then, and I’ll stay away. But I’m not always gonna ask. I’m not. I got no idea what we’re doing, but whatever it is, it’s not just on your terms. No fucking way. I’m not a hearts and flowers guy. That’s what you want, then I’ll go and let you look for him. But if you don’t tell me to go right here and now, then you’re mine.”*

*“Shut up. Don’t talk. I don’t know. I don’t know. Fuck, I don’t know. Just please don’t go.”*

*A thought occurred to her, and she cocked her head and smiled, making it as coy as she could. “I think we could....if you can be sweet. Can you be sweet?” “I can be what you need me to be, honey.”*
