The story was very good. A crime is committed and Ally and her grandmother are out to solve the murder. The characters are described well. I love the pig and cat. Adds to the story. I like these stories because they're not gory murders. I can go to sleep at night. Thank you for your stories. Stay well. Hope you'll include them in a future book.

Charlotte's chocolate shop is unusually busy during this Christmas season, keeping her and her granddaughter, Ally, very busy and working long hours. At the retirement community where Charlotte lives, the festive decorations and ongoing music of one of her neighbors is causing havoc with one of the residents, almost to the point of physical blows. When Charlotte finds the neighbor dead, she is the first person police suspect. As Charlotte and Ally try to prove Charlotte's innocence, they soon learn that the deceased had troubled relations with several people, including his wife, who seems to be missing.

Delightful mystery with a bit of romance interwoven into the story. Interesting characters, great plot, and surprising twists. About 95 pages long, this story was a quick read. Part of the 12 Slays of Christmas boxed set.
