A Sexy Alpha Billionaire Casanova. A sassy bombshell Southern Belle. A proposal that's way too hot to handle.

****The Hero is the lead in this sizzling romance, but you get the POV from both characters.****

Imagine bumping into the same person, who was a stranger only a few hours ago, three times in the span of a day.

In a big city like LA, what are the odds of that happening?

When alpha billionaire Hunter Evans' growing business takes him from his ranch in Fort Collins, Colorado, on an extended business trip to Los Angeles, he planned on focusing on two main objectives: 1. Sign up as many new clients as humanly possible and 2. Have as much fun as allowed in the City of Angels (aka, sample as many women as he can).

After a demanding first week, he takes up his good friend's offer to hang out and hit the LA nightlife.

As the consummate bachelor that he is, Hunter ends up partying way too hard, drinking too much and having his way with a few too many women.

Waking up the next morning in a hurry to leave last night behind him, he never imagined he'd be smitten by a sassy twenty-two year old waitress with a sexy Southern drawl the second he lays eyes on her.

After bumping into her for the third time in the span of a day, Hunter simply can't let her go.

After one steamy and passionate evening, he realizes in shock that this sexy Southern Belle might not be as much of a stranger as he thought.

Funny how history has a way of repeating itself.

I was so excited that Hunter received his own story after Allison ended up with Jake only in the Billionaires' Indulgence series. Hunter is my Powerball! I absolutely love him and Miranda together and only hope that their connection takes off! When they hook up at the gala and she asks, "What about you?" with his response, "Sweetheart, this is all about you!" who wouldn't want a man that takes care of the woman first knowing in the end, he will get his just reward! These two click so well together with their quirky dialogue and open flirtation. Looking forward to book 2 and seeing if these two get their HEA or burst into flames!

Hopeful

There are things I like about this book. I love a lot of dialog between characters and there is plenty of that. I

like hot, alpha males and strong female characters so we're good there. And of course I love a steamy, smoking hot sex scene which we get a good promising start in this book. I'm only giving 3 stars because as much as I like for the characters to talk to each other, these people talk too much! They talk past the point of the topic being interesting. I found this to be true for every conversation except for the one Hunter and Miranda had at the farmers market. That was good, interesting dialogue. Also, while I like Miranda, Hunter is coming off as kind of a d bag. For that matter, pretty much all the male characters are. It's hard for me to like Hunter when every thought in his head is about getting this woman into bed. I know that that's exactly what his goal is but I feel like there's nothing else that he wants from her. I need for him to be more invested in a relationship with her and for the writing to portray his interest in her for more than just sex. This is just the first book in the series so I'm hoping for "more" from his character in upcoming books.

Amanda (The Literary Hoarders) says

Good steamy read

The book was a quick read but pretty abrupt ending for me for someone else the cliffhanger might have been awesome to me i gound it more annoying. The characters are likeable and have a great chemistry but I was a little thrown off my Nick's dialogue sometimes. At one point he sounds very alpha male and then the next he sounds feminine, it doesn't seem like that was the intention and distracted from his alpha image. I'll say overall, Nick and Miranda story is quite interesting and steamy and worth the read.

The final score this is more 3.5 stars.

Miranda beautiful tomboy who has to work several jobs to pay off her student loan. She is funny, sweet and can't help falling for sexy Hunter and Hunter finds himself attracted to this girl.

Fate has the, running into each other and one thing leads to another and Hunters asks her out. Their attraction is intense and Miranda has never met anyone like Hunter which leads her to make him a proposition he can't say no to! Miranda would like Hunter to become her teacher, she wants him to teach her how to please a man, no strings attached! What could go wrong!

Hunter's back!!!

I am so glad Hunter from "Billionaire's Indulgence" has his own story. Hunter is just as raunchy as ever and has left Fort Collins to go to LA on an extended business trip. Hunter meets Miranda at the diner where she working and they are instantly drawn to one another. Miranda is nowhere near prepared for the heat Hunter

ignites in her. This is a fantastic start to the series and I can't wait for the next book.

Debra Lamey says

Waiting for the next book.

Normally I don't read serial stories because I have a long tbr list. I often don't read a second part for months. When I do get around to reading #2 I have to skim over the first book to get back into the story. Even so I decided to read this book because the title intrigued me. I enjoyed the enormously, the way both Hunter and Miranda are so caught up in each other is great. The interaction between them and their friends is hilarious. I laughed at their antics so many times. I would really like to read the next book and would recommend this story to anyone who doesn't mind serials.

Doug Simpson says

A Great Read

Hunter Evans is a slick billionaire playboy. Miranda Reddick is a young, insecure woman who has a history of unsuccessful relationships with men. They meet for the first time at the restaurant where Miranda is working for the last day before moving on to a new job. They are instantly attracted to each other but Hunter is unable to obtain Miranda's phone number before he has to leave the restaurant. Fate intervenes. The next morning they bump into each other at the local marketplace and this time have the opportunity to better get to know each other causing their mutual attraction to multiply considerably. They agree to a date in two days but before the date can take place they bump into each other twice more. This is part one in a series and I have no doubts the following books will be just as interesting.

Debbie Archey says

Great book

Can't wait for the next episode. This is a great story. I couldn't put it down. This is going to be a great story. Well written and has had me mesmerized from the start to the end.

Sarah Greenwood says

Hunter sure has a wild week in LA when he comes to visit the Dennison brothers. A chance meeting with a beauty three times in a row – or maybe that should be four? Fate clearly wants them together so lets see how it all plays out.

Lets just say when Hunter reconnects with the Dennison brothers' things are going to get crazy wild. Talk about playboys, but holy hell are they hot and they know it too. The morning after one of these crazy nights turns out to be the start of a series of serendipity events that keep pulling him and Miranda back together. First time he meets her is at a cafe for breakfast, then next morning at a farmers market by bumping into her

and then at an after party following a fashion show. Lets just say when he sees her again he takes every effort to have some alone time. Time she's not complaining about with the sounds she makes. His hands, fingers and tongue should be considered weapons. Using them on you will turn you into a dizzying mess too high on passion to care about who might be able hear you.

Holy hell how hot is the chemistry between these two! Seems fate really wants them together but I'm not sure on what Hunters first reaction is going to be at the start of the next book. Could be the start of a wild adventure or a trip down a crazy road. Either way they better hold on because this is going to be a bumpy ride with a lot – if I'm thinking correctly – pleasurable screams along the way. Her friends want her to let loose and have some fun and meeting Hunter is a sure fire way to make that happen. Love one of them putting men into four categories and how much they long for a Powerball. Good job she's found one. Lets see if she can keep him.

This was a very intriguing start to what promises to be a HOT series. I truly enjoyed Miranda and her personality although her self doubting is very realistic and rings a certain bell with me I enjoyed the moments when she owned herself. I laughed at the girls description of the three types of men in LA and wholeheartedly agree as long as we expand the territory. What to say about Hunter Where can I find mine? I have always loved that name. Plus I would give almost anything to be able to experience an earth shattering orgasm. Great read! I can't wait to find out what happens next.

Myra says

Awesome

Not what I expected/hoped for

I love Hunter. Miranda is a bit flat to me. The story is not as quick moving as past books by this author. The hot ,steamy,panty melting, cartwheels off the dresser, hanging from the ceiling fan, shave the squirrel and grab the mayonnaise sex isn't there....yet. I'm curious to see where this story takes us. I know it will be an adventure. Hunter definitely needs to be shirtless more! A body like that needs to be admired.
