Title: Guinness World Records 2014

Series: Guinness World Records

Author: Guinness World Records

Genre: Informational/ Miscellaneous

Rating: 4 stars

I love the Guinness World Record books and I waited years to actually get my hands on one - and I certainly wasn't disappointed. The only disappointing fact was that I was reading an edition that was several years out of date and so new records had been recorded obviously.

I find these so very interesting to read and what people have done to be apart of the records even if just for one year. It's truly incredible and sometimes even inspiring.
