## Harvest Moon J.E. Taylor

His casual invitation interrupted her stride. Alessandra looked up from the sidewalk, hugging her books. Jeremy leaned against the railing with a beer in his hand smiling down at her, his bright green eyes reminding her of a wild mountain lion and she suppressed a shiver. He raised his beer and with a slight tilt of his head said, "Come on Ally, we won't bite."

This was an awesome short story!

My only complaint, I needed MORE!!!! As much as I felt I was left with a cliff hanger to which I will never get an answer to, this book still left me smiling at the end!

I recommend anyone to read this interesting little short story!

### **Short and Not Very Good**

The book was extremely short and dealt with a frat party, a wolf girl getting raped, and her taking revenge. There was really no substance to the story so I can't say I would recommend this at all.

### **Awesome read**

I really enjoyed this short story. It broke my heart how she gets done but she rises above and littlerly chews their ass up lol ive had this a while and habe read it several times.

In this story, the protagonist is unknowingly given alcohol, kidnapped, beaten and raped, and then left for dead. Her vengeance is awesome, and I had a bloodthirsty moment when I read the ending. This was a short story, and I wanted the author to keep writing when it was over. The stories of Taylor are reminiscent of Hitchcock, with a good, strong element of suspense and then a quick conclusion. But Taylor does such a good job of character development that I always want to know more about the main character!

Not what I thought it would be. Liked it. Wishing there was a little more to go along with it. Very short. I only give it 3 stars because I want to know more about her and the pack after they find the guys...I want to know what happens next and how close the pack really is.

Not bad story, BUT WAY TO TO TO SHORT! It had/has great potential to be more...sadly wasn't!

**Clive Gerrard says**

A very short, very predictable story. It literately took a few minutes to read - which is just as well, as had it been any longer, I would have put it down and never picked it up again.

A revenge story of a raped 'Shape-shifter' that is formulaic and poorly written.

Don't waste your time .....

I wish I had more to read. I wanted to read more of the vengeance, which I think was perfect. They got what they deserved.

good for being so short. I did want to know more, this would have been a good start to a full length novel. Mabel she meets another pack and falls in love with the alpha and is headstrong and cold and he has to work his way to her heart. but alas it ends abruptly and I am left waiting and wanting more.
