**JUST A LITTLE JUNK ...**

*... if anyone asks, that's all that's in your trunk. Definitely don't say anything about the dead guy you just found back there!*

Jodi Morgan is having a bad weekend.

After partying a little too hard, she wakes up with a monster hangover and almost no recollection of the night before. So imagine her surprise when she looks in her trunk and instead of finding a spare tire, she finds the last guy she'd danced with before blacking out.

Who is he? How did he get in there? How did he die? And oh dear lord, did she kill him!?

When her older brother's best friend offers to help, things start looking up. They've known each other since she was thirteen, and ten years later, he still treats her like a little kid - surely, committing felonies has to trigger some sort of spark. Together, they wind up going on an adventure that takes them all over Los Angeles. From raves to penthouses to strip clubs. All in the search for the answer to her question.

*Who is the dead guy in my trunk!?*

**Warning: This book contains some dark humor, a lot of witty banter, and two characters making more bad decisions than good ones. Also contains adult themes, language, and graphic sexual activity.**

This definitely lived up to the above warning!! First time read by this author and I LOVED it!! Finally my book funk was gone, Stylo Fantome has kicked your ass to the curb!!

**JUST A LITTLE JUNK:** is a 'Contemporary Romance' stand alone novel by 'Stylo Fantome'

Fuck me side ways and back again because this little bugga is going to be hard to review!! This is completely unique in it's entirety, I can not compare this to anything I have read, seen or heard about, this just got me out of the most suckiest book funks known to booklovers..This review is going to be a vague, no frills write up only because this book deserves to be read without any spoilers divulged.

Now onto the review.

Imagine partying your ass off at a club, doing your thing against a guy you'd just met on the dance floor, you get soooooo wasted you don't even remember coming onto your best friend in the whole wide world.

Waking up to the mother fucker of all hangovers should've been the worst of it, opening the trunk of her car was definitely the worst moment of her life, and gazing down into a dead body just about tipped her over the edge, then realising it was the guy she was dancing up has three bullet holes in his chest yeah that's was a double whammy!!

He was her brothers sexy out of her league best friend, She was his friends off limits little sister.

All in the course of one fucked up weekend!!

Now it's a race against time with her side kick Archer to retrace her last steps of that night, Who is he? How did he get in there? How did he die? And oh dear lord, did she kill him!?

Simple right, think again, where these two are concerned where things would seem simple to us are so simple for these two.

Getting wasted at a rave, dodging bullets, causing a fire in her apartment, you'll have so many laugh out loud moments you'll lose count. so many twists and turns you'll get whip lash, loveable batship crazy characters that will leave you wishing for more, sexy moments that will have you claiming Archer as yours. I can't recommend this enough. This may have been the first read for me by this author but it definitely won't be the last. Cray Cray loved it!!

### FIVE HILARIOUS STARS \*\*\*\*\*

I've always been a fan of Stylo Fantôme, and now that I've discovered that she can write rom-coms so well, my level of admiration and utter love has skyrocketed. This book was a ton of fun from beginning to end. The characters banter was hilarious and totally addictive, I couldn't get enough.

Jodie and Archer have been friends since they were kids. They always had an attraction for each other but never acted on it, because Jo is the little sister of Archer's best friend. Archer promised his friend to never hit on his little sister and to always take care of her.

Years later the attraction is still there, perhaps even more intense but Jodi and Archer have also become best friends and even neighbors. They are each other's ride or die. Which is why after a drunken night at a club, when Jodie wakes up in her car and finds something scary inside her trunk, Archer is the first person she thinks of asking for help.

Archer would do absolutely anything and everything for his Jojo. Every day together is an adventure with these two. Follow then in a sexy, fun and dangerous adventure where the craziest things will happen and you will love every minute of it.

Unexpected, unpredictable and totally addictive, this book is something special that I'm sure anyone who reads it will enjoy it.

### 3.5\* jojo's bizarre adventure STARS!!

Review @ Midnight Romance

I'm not really excited when Stylo Fantome announced this book because I wish for another The Bad Ones or Kane Trilogy. A romantic suspense with comedy didn't really mix well in my mind. But surprisingly I finished the book and enjoyed it. Maybe I'm in the good mood, huh?

Let me ask you a question. What are you gonna do when found a dead guy in your trunk? Imagine how do Jodi Morgan feel after bad hangover and she barely remember anything. Fortunately, Archer Calhoun, her older-brother's-high-school-best-friend-slash-partner-in-crime-slash-the-dude-she-wanted-to-bang-so-hard-it-made-her-grind-her-teeth-at-night is ready to help. But how 'bizarre' is their journey from selling cokes into mind-blowing sex?

*She was upset because for ten years, she had been fantasizing about kissing Archer*

*Calhoun. Dreaming about it, wishing for it. He would kiss her under a full moon and realize she was everything he'd ever wanted in life, blah blah blah.*  
*Never once had any of those fantasies involved a dead body, the police, or being on the 101 in broad daylight.*

Whew.. Jodi aka Jojo is a wild girl. Maybe her motto is 'Work hard, play harder'. At first, there's not much to tell about Jojo beside her job as a waitress in strip club and beat up car. She's just crazily poor. Then, she asked for Archer whose strangely calm to start their mission. Who the hell is the dead guy?

The only thing I like and enjoy is the silly banter between them. Jojo and Archer has weird chemistry that really bind them together. They're just couldn't hands off each other. From their description, both of them are too-perfect-to-be-true; except for their (sometimes)annoying attitude. Still, they're really amused me until the end.

I don't expect much because the story somehow is very predictable. Still nicely written but I didn't like the twist. It makes everything seems coincidental. Overall, it was an easy and enjoyable read without makes me think too hard. I'd recommend this as a light suspense with sprinkles of mischievous.

*“You're one to talk. You had a crush on me for way longer, and never said a word.”*  
*“I'm a delicate lay-dee, we don't just blurt things out like that.”*  
*“Jo, there is literally nothing lady like about you.”.*

Fun cover for an equally fun book. Great composition. Great use of graphics. Bright and bold colors. LOVE it!

Where do I start with this one? This book was SO much fun. Snort out loud action packed fun, and I loved every single minute of it. Fantastically well written and paced. Filled with many laugh out loud moments. Whitty Banter. Twists and turns. Nonstop action. Hot sex scenes. Two extremely likable main characters. Dead bodies. Drug dealers. Strippers. Raves. Stalkers. Shootouts...and so much more.

I can't recommend this one enough. Two thumbs up from yours truly.

### **Natalie The Biblioholic says**

This story was a laugh and a half, a freaking riot, and read like a comedy with a little love story thrown in. It was something different from Stylo Fantôme and I enjoyed the heck out of it.

Archer and Jo have been friends forever. After a night on the town, a night we the reader get a glimpse of, Jo wakes up to a dead body in the trunk of her car and no memory of what happened the night before. Best friends who help take care of a dead body together stay together and so Archer helps Jo to retrace her night and discover who the dead guy really is.

These two were jumping out of buildings, dodging bullets, and somehow finally gave in to the feelings they had for one another. While I loved the high intensity of each scene, I wanted the ending to give me more, to convince me of this couple and assure me that it was truly a happy ending. However, there wasn't anything in this story to really complain about because this author gave me something special - a crazily unique storyline.

## 5 "A really bad idea..." Stars

This stand-alone, contemporary, romantic suspense, dark comedy story from Stylo Fantome provides a whacky ride unlike any other. Think of The Hangover movie mixed with a friends to lovers romance element full of zany escapades and unexpected surprises. Coupled with Fantome's energetic, addictive, and unique story telling style you're in for a great ride in Jodi Morgan's car - just don't open the trunk....

For the sake preserving this story and it's fast-paced plot I will not go into great detail about the characters. Jodi Morgan, damsel in distress, finds herself with a hangover and a very big problem the likes of which she can't remember. She enlists the help of her neighbor/long time crush/best friend to help solve the mystery of her very fuzzy night. The two embark on a ridiculously fun caper of banter-filled, easy camaraderie mystery solving leading them to places they never expected with unforgettable and equally ridiculous characters. Jodi and her fellow love interest/partner in crime/super sleuth never stop in this book, they fight like crazy, yell at each other, are the most playful, and a deep and genuine affection for one another. The time frame is short for their story but Stylo Fantome packed it chalk full of entertaining, romantic, funny, and sweet moments amidst the chaos.

I felt happy while reading *Just a Little Junk*, simply happy. I smiled and laughed throughout the entire story. It's unlike anything I've read in a such a fun and awesomely outrageous way. Yet woven through the pages the familiarity of a friends to lovers story struck my romantic reading chord from start to finish. Stylo Fantome did an a completely excellent job of turning a potential disaster of a fictional situation into a fun, sexy, and perfectly executed book. I could see Jodi's story playing out before me as I read, a testament to the specific, concise, and unique writing chops of Fantome. It was a great pleasure to read this story - an unforgettable ride, a zany mystery, a wise cracking lovable hero, and the quirky cute damsel in distress you'll want to have a beer with after.

**Just A Little Junk was one of the wildest and craziest ride I've ever had! Stylo Fantôme nailed it again. And this time, it's another blast of her excellent writing spiced up with good humor and hilarity you'll never expect!**

Wow! That's what was on my mind the moment I started reading this book. I've been a fan of Stylo and every time, she made me really in awe of her talent. Her knack of twists and turns got me always and I have never been more glad I stumbled upon her works. When I learned about her up coming release with a mention of romcom plus reading these lines, *"Warning: This book contains some dark humor, a lot of witty banter, and two characters making more bad decisions than good ones. Also contains adult themes, language, and graphic sexual activity."* I did not think twice, I said **COUNT.ME.THE.FUCK.IN!** My

God, this is new and all I wanna say is, I could not be more excited!

Just A Little Junk indeed is one hell of a crazy ride with Archer and Jodi. First few pages and I wanna bottle up these two characters because I can feel an instant connection with them. They are portrayed uniquely and I love them right from the very beginning. I could not count the times I've been laughing so hard tears are leaking out my eyes due to my constant laughing. And it was a good laugh. I was so surprised and was even more a fanatic of Stylo's writing more than ever. Admittedly it's all because I am more attuned of her mind fuck style of writing, the angst, the excitement, the anticipation and the adrenaline rushing. And this book right now was just refreshing yet full of anticipation still coupled with a laugh out loud scenes and priceless bickering and banters from the characters. Plus, what's a romcom without a steamy sex scenes right? Whoop! And it was scorching! Never mind the dead body in the trunk!

Overall, I love everything about this book hard. The adventures of the characters to seeks answers were wild and crazy. From one bad decision to the next, I devoured it. Been cheering them on and rooting until the end. Jodi and Archer were easy to love so reading this book was so enjoyable and a lot of fun. I even went over gaga with them too and I wanna take a ride with their adventures for real. Like seriously for real. What's more? I love Stylo Fantome's writing style. Her romcom is like no other. Been laughing so hard and awaiting for the next scene. This book was not just about humor it was more! The twists and turns were just perfectly crafted and I never expected it. I was on the edge, and it's romcom for heaven's sake! But then it was a good one and just added a substance to the story so who am I to complain? Gawd! Only Stylo could knock it off with this kind of trope and I am hands down to her talent, It's WOWZA!

I highly recommend this book. If you're up with a good read, refreshing, OTT yet packed with awesomeness and a lot of fun, pick this book and surely you will enjoy every bits of pieces!

**5 'JoJo & Archie' STARS**

This was such a hilariously amazing read. Stylo had me totally engrossed in this story and laughing every step of the way. This is one wild and zanny ride.

I love the versatility of this author. I just never quite know what I'm going to get, but I've enjoyed every single one of her books that I've read and I'm adding this one to the pile. Let's pause here as I confess for the umpteenth time, I have not read the Kane Series and yes, I'm a bloody idiot and will get to it STAT. I MUST meet Jameson Kane.

Okay, now that we have that out in the open, let's move on.

For fans of Ms. Stylo, it sorta has the vibe of Best Laid Plans - my absolute fav from this author - but it's different. Jodi and Archer are childhood friends that have gone for years with secret crushes on each other. So much so, their attraction has morphed into that sarcastic, flirty, dirty, over-the-top banter that only two sexual frustrated friends who want to bang their friends can be. You know what I mean.

This tension and the banter -- the f\*@king banter - is hilarious, and it's only the icing on the cake because this story has it all. Loads of action, danger, laughter, romance (well sorta in a wacky sort of way) and also sweet moments.

I really like Jo. She was my kind of girl and would love to do a GNO with her! And Archer \*sigh\*

Like Jo, I loved him. That. Is. All. Together, these two were awesome and this was a fun, quick and entertaining read. You gotta grab this one!!

### **5 "Just a Little Different" Stars**

I'm pretty sure I say this after every Stylo Fantome book, but that woman can write anything and Just a Little Junk is proof positive. Every time I read one of her stories, I get something different. During this book giggled, guffawed and laughed out loud throughout the whole story. It was also sexy and intriguing and suspenseful and really so sweet. Jodi and Archer are deliciously crazy in a delightfully extreme situation and it was pure rom com gold.

Jodi is having a bad day. First she wakes up with the hanger of all hangovers. Then she realizes she has a flat tire. And the cherry on top of the terrible start to her day is that instead of finding a spare tire in her trunk, she finds the body of the guy she danced with last night at the club. With no recollection of what happened after dancing much less who this guy is, she panics and runs to her older brother's best friend, Archer. Much to her relief, he agrees to help her try to remember what exactly happened last night so they can try to put the pieces together. As the weekend unfolds, Jodi tries to figure out who the dead guy is, why he's in her trunk and ya know, if she killed him. Their crazy weekend adventure takes them all over LA from high rise penthouses to the local strip club all in the name of figuring out who the dead guy is in Jodi's trunk.

This book was wonderfully different than anything I've read in a while. It was a bit over the top, a bit manic and totally unputdownable. In true Stylo style, we're given the story piece by piece so that we can experience this crazy ride along with the characters. Jo was a heroine who took no shizz from anyone. She kicked butt and took names. And she finds herself in the most ridiculous situations and yet is so endearingly strong. Archer is the best friend that you'd want by your side. He's protective but not stifling. He's able to see the lighter side of life but is still who you need when you need someone in your corner. And he's sex on a stick. These two together kept me in stitches, questioning everything and loving being along for their weekend ride.

Provided for honest review.

### **5 "Skittles and Sunshine" Stars**

This story is a fast paced, witty, funny, romantic suspense mystery of sorts. A friends to lovers caper with the perfect mix of angst, high jinx and dark comedy. This story is a deviation from what this author normally writes, but it's definitely refreshing and puts a big smile on your face.

As I stated above, it a mystery of sorts. So to delve into details would take away from this crazy over the top journey into why there is a dead man in Jodi's trunk. Jodi is that girl that everyone knows. She is sweet, adorable, sassy and has been in love with her brother's friend for forever. Archer is her brother's friend. He is sweet, funny and has been crazy about Jodi for forever. He lives in the same complex as her and well let's say that have a great relationship. They watch out for one another, they drive each other crazy and neither knows how the other feels. So when Jodi finds herself in this pickle, she goes to her best friend Archer for help.....and the adventure begins.

Their adventures in trying to find out how this dead body got in Jodi's truck is non stop action.....including a rave party and getting shot at. In this whole adventure, the chemistry between Jodi and Archer is fantastic. It is sweet, sassy and snarky. No matter the setting, no matter the genre, Stylo Fantôme nails banter every single time. From angst to action to romcom, the hero and heroine become endeared to your heart. And this story is endearing, fast paced, witty, light and funny. You can't help but love Jodi and Archer.

So if you need a book that just is #Fun and #Crazy and #OverTheTop, this one is it. One also with #GreatBanter between the characters that makes you #Laugh and #Sigh and that is a #Standalone and #PureEnjoyment..... #JustALittleJunk - #OneClickNow

### **Akiko says**

23 year old Jodi Morgan wakes up to find a dead body in her trunk; she can't remember how it got there, if she killed the guy, and how she got home from the night before. The first (and only) person she confesses this to is her love-you-tease-you-hate-you friend Archer Calhoun (Archie), the guy she's had a thing for, her brother's friend (Jodi's brother moved away years ago when he was accepted to college).

25 year old Archer Calhoun lives in an apartment building down the hall from his love-you-tease-you-hate-you friend Jodi Morgan (Jo/Jojo), and is woken up to her confessing everything she knows and doesn't know about the night before; which is a very limited string of information.

These two crazy friends...(neither living a lavish lifestyle...living paycheck to paycheck in Van Nuys (LA area), go on an adventure that sorts out what the heck happened the night before, and some other interesting things...The Hangover (movie) meets LA instead of Vegas, that's what this story reminds me of, not that the storyline is the same.

Great story! Lots of fun!
