## Lucien's War Jenika Snow

She was forbidden, but that didn't stop Lucien from wanting her.

Lucien Silver is the president of The Brothers of Menace MC. He knows he screwed up three months ago by letting the daughter of the VP of his club stay at his house. Callie is young and off limits, and although nothing happened between them, he should have told Kink. He may want her desperately, but having her would be a betrayal.

Callie wants Lucien, and she knows he wants her, too. But being with him would cause bad blood between her dad and Lucien. She doesn't want club relationships ruined, but her feelings for him grow, and she knows she can't stay away.

When Kink catches Lucien with Callie all hell breaks loose. Lifelong friendships are tested, blood is spilled, and anger and pain become one.

Lucien and Callie must decide if being together is worth it all.

I'm surprised I enjoyed the story coz of the huge age gap (22 yrs). Lucien (H) was hot and once he saw Callie (h) as a romantic partner, he was faithful.

Good and short.....

I love Jenika Snow, don't get me wrong I love how her mind works....

but this story is HORRIBLY repetitive. There was not enough emotional development during the three months, while they only saw each other a couple of time, to merit such instant LOVE between and 18 year old girl and a 40 year old man.

The story could have been told a little better in my opinion.

I was blessed with an ARC of Lucien's War. I think everyone is going to be blown away with this book. The book starts back up where the last one ended. Recently released from jail "Cain" finally has his revenge against the disgusting excuse for a human being who violated his daughter. It is graphic, brutal and yet I don't feel any sympathy for what is done to that man. Cain does what a father pushed to the limits to make his daughter feel safe again. Read to the end though because a little twist may prove that his daughter was not the only one getting the benefits of Cain's revenge. A new character named 'Violet Wings' is introduced and I very much hope for a future book to learn more of her past story and what the future may hold for her. Most of the MC is away from the clubhouse in this book, but that allows everything to center on Lucien and Callie. Callie is 18 years old and heading off to a college filled with frat boys, parties and a sassy new roommate. Lucien is twice her age and they both are trying to fight off the inevitable love they each feel for each other. Lucien, being the once thought cold hearted president of the MC has his gut twisted when he has to face his VP Kink. Kink is the father of Callie and has taken a very active role after what happened to her mother in the previous book. (No spoilers in case you didn't read it yet) While Kink and Lucien are brothers in the MC world, it doesn't mean there won't be bloodshed over the knowledge of Callie with Lucien. She may be eighteen, but will always be daddy's little girl. Luckily, Cookie and Kink are together for the long haul and have a few surprises of their own.

Callie is quite mature and has her priorities in check. While a romance intertwines Callie and Lucien, the rest of the world evolves as well. Can distance, a large age gap, and disputes between blood family and an MC family keep them apart? You have to read to find out! The intimate scenes between Lucien and Callie are

graphic, but in the most beautiful of ways. Nothing comes across as vulgar and brash. Instead the reader gets a view how love can really change a man intent on never having the " One true love". The age difference did not even bother me. The two of them have a mind and heart that beat as one.

The biggest turmoil in the book is the war of heart, love and family. Blood is not always thicker than water in the MC world. The best part is that the book wasn't a typical fall in love and all other dreams get thrown away. I loved that Callie does what her goals were from the beginning and Lucien is man enough to not interfere. Instead he is encouraging and always looks out for Callie's best interest. There are some story lines that end with this book, new beginnings for future plots and in the end an MC that grows in love for each other and the people they keep true to their hearts. I could re-read this many times and never get tired of it. Yes it was an MC book with Alpha males, beautiful women, violence and sex. Though what shows through the most is love and honor to one another will be the ultimate power of wills. Thank you Jenika Snow for an award worthy book that deserves to be on every bookshelf.

I be read the first three books back to back and must say lucien's book is my favourite and I really enjoyed the characters but seriously what's with all the younger woman??? Lol!! A little predictable but still enjoyable

What can be said about this book apart from WOW! It has been a wait well and truly worth waiting for. As always the very fabulous and talented Jenika Snow does most certainly not disappoint. The story was exactly what we have come to expect from this talented author and so much more. You join the couple on finding their own way to everlasting love, through the doubt, the uncertainty, the fear of hurting those closest to them. You experience the burning passion and fire that ignites between these two fated lovers when the strength of their feelings are too much to fight any further. You become swept along in the excitement, the passion shared by Lucien and Callie also the strength of the family bond shared by the brothers that you do not want the story to end. That by the way is the only disappointing thing that it did come to an end. I could have continued reading about this couple further and the rest of the characters and am already eagerly anticipating the next book. As I said before as always Jenika never disappoints, a must read in my opinion.

I know this may be an unpopular opinion, but here goes.

I love the Grizzly MC series. So naturally I wanted to read this spin off series. But I did not like Malice in the Grizzly book so I did not want to start with his book. I liked Lucien and he had no exes (dead or alive) so I thought I would try his book first. I don't mind going back to read the earlier ones.

Unfortunately it sucked. This story was all about the deception and not about the romance. They actually barely spend any time together. I did not get it, did not believe in it and was really unimpressed. Plus the editing was poor so I had issues with the flow.

Lucien was totally in the wrong with Kink. I was so disappointed in him. First he did not go after what he wanted. Tried to move on with others (and (view spoiler)). And did not even respect his "brother" enough to tell him about the party he saved Callie from. Then he STILL did not have the balls to man up. Took too much bad direction from Callie and ended up screwing up the entire thing. If I were Kink it would be one of them going. No way would I sit around and watch that man screwing my daughter and knowing I cannot trust him.

Callie was immature and I did not like her behavior but she was a kid. That brings up another issue. In general am ok with May-December romances. But I have discovered I am not ok with an 18 year old virgin (who has lived a protected life) with a 42 year old MC president. I think the heroine needs to have a little more experienced (be that in age or life) to handle a grown ass man. She should have bailed on school And gone locally.

The H/h barely spend any time together. Have sex twice and only when he and then she is leaving town. She goes off to college. I just don't see it. At all!!!no way is he remaining celibate while she is off for weeks and months at school. And him going to visit? Please?! A 42 year old grown ass man having sex in a dorm room with an 18 year old coed ?!?! Her roommate will love that! He'll probably get arrested!

I believe this series has A LOT of Heros pushing away their much younger females. I don't like it when the hero is in denial. If this series was cheaper I would read it anyway. Just because I want to continue the Grizzly series and they intersect. But at \$5-6 per book, for a short book, it is not worth it. If they ever become cheaper or I find someone to loan them I will probably read the others. I am interested in Cain and Tuck's stories.

Safety gang (view spoiler)

Is it just me, why do I find it so creepy that Lucien is lusting after a teenager? I mean I know she's 18, so technically she's 'legal' but she literally can't even go to clubs and drink yet because she's still considered underaged. Maybe it's because I keep seeing the 'teen' after eighteen that keeps throwing me off because I'm sorry there's nothing cute, adorable nor lovable about a 40+ year old man chasing after a little girl, even if said little girl is crushing on him...dude at least wait until she's 21...but he didn't, she didn't. They proclaimed their love for one another, got caught and he got his assed kicked....twice...hence my two stars.

Others may have liked this, others may have lived something similar or even the same and hey more power to you, but this is just my personal opinion and I had to skim through both sex scenes, which I love reading because I felt so uncomfortable reading the ones in this book. Also I felt it was unfair that Lucien violated a major rule/code in the biker world and totally got away with it just because he's the president, why have those rules/codes in place then?

I'm not sure if I want to continue with this series as the setup for Cain's book shows his interest for a girl 20 years his junior, why can't these Dirty old men find women their own ages, or at least closer to their own

ages? Sighs...I think I'll wait for the kids books to come out...see how they turn out...

2.5 stars. Had hope for this book, but all it was was repetitive. Every other page pretty much said the same thing, it also had the same lines in the previous books. Geez.

What can I say, loved it .This is book#3 in this series,but having not read the first two books in this spin off series,I did not feel at all lost.

May/Dec romance between MC prez and his VP 's 18 yo virgin daughter.The book started off with a vicious beating towards a rapist ,but turned into a sweet forbidden romance.What I loved was the hero,he was so ott alpha possessive towards the heroine.

### **Noreen says**

I just couldn't get passed the fact that she was 18 and a virgin, and he was a 40 something man whore.

I'm getting a little tired of the huge age gaps in jenika snow's books. It always seems to be a man in his 40's and a girl in her early 20's.

Lucien and Callie.

I've been waiting for Lucien's book since he made his first appearance in the Grizzly MC's, he's always been a charismatic character and I wondered when we'd get his book and who he'd fall for, we found out the who in the last book 'Kinks Way' and it's Callie, Kinks daughter who's only eighteen while Lucien is forty and believing it's wrong he fights it, he tries to stay away from her but that's only delaying the inevitable.

I read romance and so I loved this, despite the age difference and the not ideal circumstances it's hard not to love a book where the two lead characters are so much in love that they're prepared to go through anything just to be together, on top of that they're both great characters, I've been a bit in love with Lucien since his first appearance in 'One Night in the Outlaws Bed' I think it was and Callie is lovely and just what he needs. And that is the story here, they fought it, they avoided it, they ignored it but the heart wants what the heart wants and I loved this book.
