My Destiny

Brooke

Brooke gave up her dreams, relocating to another state with her husband Jake so he could pursue his, but when he commits the ultimate betrayal against her, she's lucky to escape with her life.

After moving back to her hometown, she runs into Logan, the man who helped her all those months ago. From the moment they first met, Brooke felt that they had a connection, and now she finds it stronger than ever.

There is one thing stopping her from acting on her feelings towards him though...her past.

Logan

Logan knew from the moment he saw Brooke that she was the one he'd been searching for his whole life. Can he convince Brooke to let go of her insecurities so they can be together?

What will happen when Brooke's past comes back to haunt her? Will Logan still be around to help her, or will she be left to face it all, on her own?

Join Brooke and Logan as they share their story in *My Destiny*, the first of a two part instalment in the *Destiny* series. This story is told in dual POV.

This book has been re-edited.

## **From Reader Review My Destiny for online ebook**

### **Mani says**

I just finished this book and I can honestly say it was amazing. It was easy to fall on love with the characters, the setting and the storyline. I couldn't put this book down. As I read I was silently hoping that Brooke would overcome the struggle with her traumatic past and allow herself to find happiness with Logan. Logan's character is what you imagine the perfect man to be, and I was so happy with the ending. I can't wait to find out what happens in book 2 of what I felt was a love story in the non-traditional sense.

---

### **Vicki Briers says**

I absolutely loved this book, couldn't put it down. Loved the story glad there is a second book as I can't wait to find out what's going to happen with Brooke and Logan.

---

### **Michele says**

This book was awful. The male character Logan was a whiney baby and Brooke was just boring. The author wrote it like she was a virgin. Fumbling around and not really sure how to bring it home. I couldn't even finish it. The !!! Got on my nerves...at the end of every sentence. Not interested at all in any thing else the author writes and that makes me sad. I don't normally feel like this after reading but it was just embarrassing bad.

---

### **Aida Almeida says**

An amazing love story, the characters came alive in my head and I just couldn't put this book down until I finished...I was so drawn to this book that dinner nearly got burnt a few times. Well done J.L.Perry

---

### **Michelle says**

4.5 stars. Lots of great chemistry between Brooke and Logan. The story is in alternating POVs between the two of them so the reader becomes well acquainted with both of them. Brooke is a really good heroine. She has a big heart and a very compassionate and caring nature. She's honest and loyal along with many talents like cooking, dancing and playing piano. Logan meets her while she is married to Jake and although he's immensely attracted to her, he's a gentleman and doesn't pursue her but he does help her out in a dire situation. They meet again later when Brooke is separated from Jake and Logan is there to offer help again, this time with the intent to convince her that they have something special between them. Brooke is skeptical because Logan is a lawyer and lawyers don't have a good track record from her life experiences thus far. She's also worried about another heart break because she has no family or friends to lean on. Logan sets out to prove her wrong. The connection is undeniable. Brooke does have danger following her around and Logan

is determined to protect her. Logan is simply amazing in every way when it comes to Brooke, he knows he wants her forever and will do anything for her. Brooke also has another surprise unleashed on her that tips her world upside down. She was very resilient in handling so many stressful events. Although I loved what Brooke and Logan shared because Logan cherished everything about her, it was the scenes between Brooke and John that hit me the most. I'm glad their story isn't over yet and look forward to the next book.

### **Sophia Holt says**

This is the first book out for this author... and she DID NOT disappoint!

I won't say too much because i don't like spoilers, but this book is definitely worth the read and i am looking forward to book 2.

You will fall in love with Logan... i did, and his male role definitely differs from other books i have read, where if he doesn't get the girl at the time, he continues to sleep around... but Logan was steadfast in his love for Brooke and i am glad that JL Perry made his character like that.

worth the read, and job well done JL Perry! You rock lady.

---

### **Amanda says**

I first met J.L. Perry through Facebook. She was so nervous about her first book coming out. I'm not sure why because this book is truly AMAZING!!! She covers every detail from A to Z. You will not be disappointed with this book. Brooke has a dream of opening up her own music and dance studio, however when she packs up and moves to Melbourne with her husband Jake so he can pursue his dreams when he gets a job Cavanagh and Associates, she puts her dream on the back burner. Who knew that one night at her husbands Christmas party would change her life forever. Come fall in love with Brooke and Logan's story. You will wish you had a Logan of your own.

---

### **Pam says**

I don't understand the 4 and 5 star reviews on this book. The writing was elementary school worthy. I felt like I was reading a primary reader. "See Brooke walk." "See Logan call her baby." It was painful. And the editing wasn't much better.

The story had serious potential. Brooke's husband is a cheating ass. His boss, Logan, is a hot, rich attorney that rescues you. And there you have the beginning of a real love story. There was even some potential for hot sex, but the way it was written was so not sexy or hot.

I also had a LOT of trouble with the back and forth of the POV. Many times I had to go back a few pages to remind myself of which POV I was reading. It just jumped around, and around.

While I'd like to see how this couple ends up, I can't imagine enduring the second book in this series.

### **Book Addict Mumma says**

What an amazing debut from JL Perry.

I was hooked from the start of this intoxicating and beautifully written romance novel.

Ms Perry's story line is fresh and well written with characters that touch your heart and they are addictive, so much so you are thinking about them days after you have finished the book.

My Destiny is an escape, it is why I read romance fiction, there is love, lust and angst all rolled up in an awesome package waiting for others to discover. I really hope they do discover this book because I truly enjoyed every chapter.

Brooke and Logan's chemistry is sizzling and they have that instant attraction I won't go into the story as I don't want to spoil it, but it is a rough ride for them, especially Brooke.

If you want a book that is romantic and angsty look no further this one is for you.

Congratulations Ms Perry on an intoxicating and sexy new release. I can not wait to read more from you!  
Highly Recommend

---

### **Amanda says**

I just finished an ARC of my destiny it was amazing it takes you on the journey of Brooke and Logan.

You don't start from the middle of a relationship you start from the beginning with them one minute you're in swoon mode over Logan and the next you want to slap hell out of Brooke for being stubborn it's not as graphic as a lot of the books out there it will get your thighs clenching though lol and your mouth watering for Logan I recommend this book because it was awesome!!! cannot wait for book 2 my forever.

---

### **Cathy says**

Really really really wanted to like this book. The constant bouncing back and forth between the two main characters' POV just became exhausting. I was so turned off by Logan constantly referring to Brooke as "cute" and "adorable". The voice of both characters was so juvenile and full of angst it gave me a headache. That was until about half way through the story when the author realized she was writing about adults and started dropping so many unnecessary F-bombs, you could level a small country. Not to mention how "clean" these two characters had to be given how many times a day they had shower/bath sex. The author had a good premise but got lost in the character development. I really wanted to read the story this was billed to be.

### **Angi says**

Wow found a new author whose first book was completely amazing! I loved everything about it- It had a

great story, Great characters, Had some SERIOUS angsty moments and had the friend/Lover most only dream about sweeping them off their feet- Truly brought about the emotions ..Definetly recommend this 2 book series- My Destiny and My Forever both available- 5 stars(Love it)

---

### **Liz says**

I think I am in a diabetic coma after reading this.

This book is chock full of drama and overly emotional sappiness. Good Lord. And I love this genre, so when I'm annoyed I think that's saying something. Generally this was over-written and too many passages were repeated. The reader already knew the story about Brooke and her Mom from Ch. 1, so why did I need to read about it again when she tells Logan? Every other paragraph talked about how much they loved each other, missed each other, loved each other, thought about each other, loved each other, was so glad to have the other in their life... oh, and did I write, love each other?

This is the story of Brooke and Logan. They meet when she attends her then-husband Jake's office Christmas party. Logan is immediately smitten, but realizes that she's married to ass-Jake. Jake's been distantly lately and Brooke gets sick during the party. Poor Brooke then finds her husband all over his secretary out in the parking lot and then she gets seriously ill and faints, but not before Logan follows her out and sees her faint and takes her to the hospital.

After much more drama, Brooke leaves Jake and Melbourne for Sydney and tries to get her life back together. Eight months later, she reconnects with Logan after he sees her jogging in the park, and falls in love with him, but Jake finds her too and doesn't want to let her go in the creepy, I'm going to kill you kind of way.

Logan is too over the top perfect and Brooke is made the victim a million times over that it's hard to believe she didn't have a nervous breakdown... and if this book didn't end when it did, I think I would have had the breakdown.

The summary indicated that this was stand-alone, and in a way it was, but the author indicates at the end of the book that there will be a continuation... so not so much a standalone, and only and HEA if you're okay with an engagement as the HEA.

---

### **Kristen Geist says**

This is such an amazing debut novel from Author J L Perry!

Brooke had a tough childhood but now it seemed she had everything: a supportive husband and a great life. She loved him so much that she put everything on hold, her dreams and the promise she made to her mother on her death bed, so he could become the great lawyer that he had. As the years ticked by, things slowly changed. Something was just off. The walls of her seemingly perfect life all came crumbling down when she caught her husband lip-locked with his secretary.

Logan is very sweet and caring. From the moment he laid eyes on Brooke, he knew she was someone truly

special and he really wanted to get to know her. He had no idea what he was getting himself into or how his life was about to change.

A story of heartbreak and loss, but also about love and moving on, bettering yourself. A whole lot of suspense and a captivating book from beginning to end! I would highly recommend this book and I cannot wait to read the next book in the series!

---

**Justine Mcfadyen says**

Wow, easy to read and just fell in love with Logan straight away because of his sweet, kind nature . Am now reading My Forever , so I'd say "Bloody Brilliant J.L. Perry"
