She's an elite spy, working for an agency so secret only three people know it exists. Trained by the best of the best, she has honed her body, her instincts, and her intellect to become the perfect weapon.

CODENAME: HAMMETT

Before special operative Hammett became a mercenary, she executed the most difficult missions--and most dangerous people--for the government.

When one sanction turns into half a dozen dead, the agency Hammett works for realizes she's gone rogue. And there's only one way to deal with rogues; eliminate them with extreme prejudice.

But this target has other ideas...

NAUGHTY

You have nothing to fear but fear itself. And her.

Nikki Wilde says

So, obviously, Hammett is not my favorite. I feel a loyalty to Chandler. Although, I respect Hammett's goals in this book. Well, in the beginning anyway.

So much action in this series. Sex too. I know that bothers some people but not this chica.

Alright, so no spoilers but in the middle I was screaming NOOOOOOOO. It's no secret that Hammett and Chandler are twins. So when someone recognizes Hammett as Chandler I was so mad.

I liked this. It gave me backstory into what happens before Flee, Spree, and Three.

Monica says

This was a kindle free short story. I like the other series so thought I'd try it. In this novella, Hammett is a spec op who kind of goes rogue after a pedophile and his associates. In the process, things begin to get weird, like she's seeing double, or triple... not bad, but nothing extraordinary. Has somewhat random sex scenes, I'm not offended by sex in books, but they just seemed to get plopped in.

Roger L. Boese says

Short lead in to the next three thrillers

Hammer recruits 4 of her sisters in a hard fought way by taking out a senator as directed by the Instructor who is being really devious.

Michael says

Suspend your belief and enjoy the ride!

Fast-paced entertainment and character development was well done. This story is best read as the prequel to the Flee Spree Three trilogy.

David Blaylock says

The best of the three books of the prequel series.

Lauren says

This book starts out very differently than the others. It is hot and steamy. Then the book shifts and it's back to be action packed. I struggled with the clones. I know that it's a popular thought when following government/spy work. But I found myself feeling like it had already been done before. I wanted something unique.

Jo says

This book is a spy thriller and is only the beginning.

Bj Markowski says

A very good series. Wish there were more.
