This is the second book in the Fallen Desire series, and I have to say that I enjoyed it more than the first book mainly because the main character had become more mature, and she wasn't for ever informing the reader unnecessary information. That got a little tiresome after a while.

The story is very good. Lindsay now has to find the book which will help her in her quest as the redeemer. But first she has to heal herself after Derrick stabbed her while trying to attack Ethan in the first book.

As Ethan gets weaker, he and Lindsay get even closer in their relationship, Derrick swears to protect Lindsay as they join forces with Kim and the 4 of them go to retrieve the book from the council.

The story grows from there.

It seemed that Lindsay was more focused on Ethan in this story, their love was very evident. I would like to read more about Derrick or Kim, maybe there's something in the work's?

This is the second book in this series. This book continues the story of Lindsay (the redeemer) and Ethan (demon/fallen angel). As well as the other characters Derrick, Kim. Lindsay heals herself after Derrick stabs her through heart while trying to attack Ethan. Derrick has come around to see things the way Lindsay does. He has sworn to be her guardian angel. Ethan is getting weaker by the day and all Lindsay wants to do is get the book and redeem him. The council came and took the book from Ethan. Now they must go to the council and prove the Lindsay is indeed the redeemer so she can get the book and do what she is destined to do. The four of them go to the council and meet Yolanda (fallen angel) and her mate Laurence (demon/fallen angel). Yolanda has waited for the redeemer to come and is excited that she has finally come. She wants nothing more than to give Lindsay the book and for her to do what she is supposed to do. Laurence however doesn't feel the same. He doesn't want to be saved and think that those who choose to allow evil in should not get to change their minds now. He doesn't think Lindsay should get to redeem anyone even those that want to be redeemed. Let the journey begin.

I loved this book and was so excited to read it. I couldn't wait to find out what happened next in this book. You can feel how much Ethan Lindsay love each other coming off the page. The books are wonderfully written and the characters are so engaging. I got sucked in immediately. I love the whole story. How they are this quest and they don't know what is going to happen next. It is very exciting. Can't wait to read the next one.

Sometimes we go through life letting it pass us by not knowing that there is a greater purpose. I love stories like this because it makes you think outside of the box and wonder if we are truly part of a plan and we never know if around us are things we can't explain. This is the second book in the Fall Desire Series. Like the first book, once I started to read this book I wasn't able to stop until I was finished. In this book we start to see that Lindsay is becoming more comfortable with herself and finding that she has something to live for. The need to save Ethan will either make her stronger or break her. Derrick now being her guardian angel and Kim's feelings toward Derrick has everything in limbo. Lindsay will need to stay focused to save the one she loves. Nothing will get you more motivated than having someone wanting you dead. Again I liked this book because as a young adult read, I felt that connection that Lindsay and Ethan had was perfect. Though a little rushed but she did feel a bond between from the first time they meet in the first book. I loved this read and I hope to read more like it. I hope that the series will move along with maybe a story about Kim or Derrick. If you like the Hush Hush series you will be a huge fan of this book. I wouldn't mind seeing a movie made out of this series. 5 stars for me!

Ok to start off... I love the cover. I hate to say judge a book by it's cover, but this cover is great!

This is the second book in the series and it started off right where the last ended, and oh boy did we have a heck of a cliff hanger on that first book! I couldn't write this review right away. It was a little hard for me to get my thoughts around it.

Like the first book I had to read this book in one day... There was no stopping! I need to know what happened next. Also like the first book the author is very descriptive. You always feel like you are right there with the characters. (Hello book vacation.)

The beginning was following up with the first book. The next couple of chapters after that were a little slow, but not for long. Soon I was hooked again and sitting on the edge of my seat. By this point I am just as ready for Ethan to be saved too. I love when an author can portray characters feelings so well that you are right there with these characters.

My heart truly broke with Yolanda's. That was definitely an intense scene in this book. Love that Kim finally speaks her mind about how she feels about Derrick.

Now the crappy part... I HAVE TO WAIT ALMOST A YEAR until the next book comes out in this series. I am so eager to read the rest of this story. Hell hounds and Lucifer have now been mentioned and I can't wait to see where the author takes us on this journey.

The Fall Desire Series by N. L. Echeverria is a blindingly ravishing and utterly empowering story like no other. I was immediately drawn in by this painfully raw, sensually heart-pounding, and disturbingly exhilarating mix of discovering what your true purpose in life is, watching your world explode into an existence like no other, and then having to fight for yourself and those you love with every part of your being. Talk about intense! There was such an instant attraction to this storyline that I couldn't pull myself away from it. Once my heart stepped into this story, I had to see it through.

I felt like I held a lose bond to Lindsay. Her desire to be close to nature, to feel its warmth, to sense its ability to center, and to draw peace from it is exactly what I find when I look inside myself. Through various circumstances in my life, I have come to draw deeper and deeper into myself for peace, for comfort, and for reminding myself of the things that matter the most. Years of being quiet have helped to make me more sensitive to those around me. I would easily understand Lindsay's thoughts and feelings throughout this part of her journey. They were the same thoughts that would appear in my own mind.

Of course, her life and her purpose weigh heavily upon her. Thankfully, she finds friends who are fiercely devoted and will do anything to help her. She also finds Ethan who perfectly completes her and grounds her like no other. He is the missing piece of her soul that she will desperately need to see her purpose through to the end. Their love is unreservedly intense and soul-satisfyingly complete. He helps to guide her into her destiny and along the way she transforms him into what he was always meant to be.

I was captivated by the loyalty and the love that Lindsay's friends offer her. Only in the past few years have I even been able to glimpse such qualities in the people that have come to be my friends. An old adage says that with age comes wisdom, but I would say that with a pure heart comes wisdom because only with a pure heart can one truly see and understand the difference between right and wrong. That is not to say that those with pure hearts are perfect. In fact, it is only through and despite our flaws that we can honestly comprehend what it means to be truly wise.

While I very much enjoyed this story, I was a little hesitant about the length and degree that Lindsey and Ethan take their relationship in such a short time. I can appreciate her needing him close and drawing strength and love from him, but for a young adult book, the pace was a little too quick for me. The element of magic played a unique role in this story. I was surprised at how it was interwoven, and I wasn't expecting it at all. Surprising twists like this breathe unexpected chills into an already adrenaline-laced plot.

I was completely mesmerized by the strength and depth of their bond. It served as a cornerstone from which Lindsay was able to confidently grow and transform into what she was born to be. He became her inner

strength until she was strong enough to stand on her own with him by her side.

N. L. Echeverria has taken me by surprise with her awe-inspiring and beautifully enchanting story of destiny and hope. I very much want to know how the next part in Lindsay's journey progresses. I look forward to seeing what new adventures Lindsay finds herself in!

Catrina Brown says

This series is excellent. Lots of emotion and drama and unpredictable. Can't wait for book 3 to see where this goes.

Kelly Hawkins Solomon says

Thankfully this book starts right where the first ends. We continue on Lindsay's journey of being the redeemer. She has to continue her quest on getting the book of the redeemer so she can get the spells needed to fulfil her destiny. Just when you feel like the story is going to wrap up nicely the author throws a wicked curveball. Lindsay and her friends are once again thrown into a wild ride with new fallen angels, good and bad. The hard part is trying to find out who is worthy of being redeemed. But her friends, being who they are, continue to stick by her side. We continue with the original love story but see new relationships unfold. The characters are full of emotion and are easy to form connections to. This author has a knack for cliffhangers so be ready to be left on the edge of your seat screaming for more. The party is just getting started!
