Jackson Black desperately wants the Orb, an artifact said to have power over life and death. But to get it he must ignore his conscience and do things he never thought he'd do. Falling for Kailin will only jeopardize his mission.

Only Kailin's complete surrender to Jackson, the one man who can mute her powers, will save her life. But when she discovers his secret, it will take more than magic to save her heart. It will take trust and the ultimate treasure—love.

### **Best in a Wonderful Series**

This one was my favorite in the series. It felt like a true Victorian-era adventure from the beginning. I loved both Kailin and Jackson. The wild west cowboy American Jackson was sexy, confident, and rugged. A true John Wayne style hero. Kailin was one of my favorite sisters. I loved that she was the most powerful. Her powers are almost limitless. She can shoot lightening out of her hands, chop a head off with a thought... I didn't like how little control she had. I wish she had just a little more control. The twist at the end with (view spoiler) was unnecessary and added to an already too long book. I prefer my romances be right around the 250 pages mark and this one was almost 400. It could've been edited down. I loved that Jackson knew almost right away that Kailin was for him. Jackson was a little overbearing at times and I wish Kailin was a little stronger at standing up to him and not letting him control every situation. I have read everything published by Heather McCollum and there isn't a book of hers I didn't like. I highly recommend her books and especially this series. **WARNING:** there is sex in this book, it is not erotica, but enough to be a steamy & hot adult romance. Please do not read if you are looking for something PG. Romance-5/5 Steaminess-3/5 Explicitness-3/5

Where to begin! First you must know that this is book 4 out of 5 of the Dragonfly Chronicles. You really must read them in order! I want to start writing in great detail about this book...but I don't want to give too much away. I started reading this book knowing this was Kailin's story and was sort of expecting certain things to take place. The sisters being separated and having to find their mate in order to defeat the evil that threatens the world. But, nothing prepared me for anything in this story. Heather McCollum weaves this story with more history, more feeling and yet still keeps Kailin's story flowing. I couldn't put this book down! Well if you have kids you know you have to! So you learn to go sneak off to bed early when really you are hiding to finish this book. I loved that Kailin is the strongest most powerful of the sisters; however, she is the most vulnerable. You feel her sadness and loneliness at being so powerful that she can NEVER let her guard down or her emotions run wild. When she meet her soul mate Jackson that changes. Kailin just has to touch him and her magick stops! and Drakkina (who you actually start to like a lot) has been searching for this daughter and you feel Drakkina's frustration at the lack of control Kailin has with her magic. Well Kailin never had anyone to teach her. Kailin starts to learn more about her mother Gilla and we (readers) learn more about her father Druce! We also learn a lot more about Drakkina and her love Eogan. That is when you realize you are reading at a pace that you can't breathe! Take a breath and pace yourself. Trust me it will be

worth it. Finally, there is a surprise that I don't think anyone will see coming. I want to tell you but won't and you will thank me later...Let's just say if I could speed things up for Book 5 I would...beg, grovel, beg, whine...did I say beg for Book 5 to get released now!!! Heather McCollum has a way to really make you feel the emotions these characters have. Mrs. McCollum brings these girl's story to life!! I cried hard in the beginning (with Gilla and her girls), felt anger with these mates...but feel pure love for this family! You will love these books...This series is a keeper one I just don't buy for the kindle but Novels I would keep in my bookcase!!! A++++

### **Will there be a 5th book?**

This was my least favorite of the series. I'm not sure why. With out spoiling the story for other readers, it maybe that I didn't connect with the last daughter of Gilla. I won't say any more. Happy reading!

I liked this book. It is probably my favorite of the 4. But I liked all 4 to one degree or another - I think the 3rd book was my least liked. If you like paranormal and romance this could work. All 4 books are historical and I have read very little historical fiction and am not good with history so I don't feel I can speak to that aspect.
