## **The Fairy Tale of My Life: An Autobiography** Hans Christian Andersen

Danish poet and novelist Hans Christian Andersen (1805-1875) is best known for the dozens of fairy tales he wrote, including "The Little Mermaid," "The Ugly Duckling," and "The Snow Queen." Andersen's sense of fantasy, power of description, and acute sensitivity are strikingly evident in his autobiography. Andersen masterfully depicts the extreme poverty of his provincial childhood and the international celebrity of his later years, and also provides insights into the sources of many of his most famous tales.

I'm on page 295, just so I remember when I get it back. This is an absolutely great tie-together between all the other books of this period I've read. And while Andersen wasn't perfect, and I hear he did things that offended polite society of that time, he and his life sound like me and mine in so many ways (and the results he got out of any given incident are very familiar). And I don't think that's a bad thing, mostly. Anyone who got to be Mendelssohn's friend is worth getting to know :)

As I taught a unit to third graders on folklore I decided to read Hans Christian Andersen's autobiography. I had read a children's version of his life in a reader at one time and wondered how much of it was true that he was a bit of an ugly duckling himself.

While he didn't often fit in in his younger life he did travel extensively throughout Europe during his adulthood and much of his book explains that. He did have many friends but there did seem to be a sense of loneliness about him. It was fascinating to learn more about Europe at the time as he give insights into the cities he visits and the well-to-do people whose circles he traveled in. Interesting title - fairy tale of my life.
