The second book in Janelle Denison's "The Marriage Diaries series and it was just as good as the first. These books are erotic novellas and I've stated before I am not a fan of novellas, but I am now a big fan of Ms. Denison's writing style so am on board for the next one! Hot, hot, hot.

**** Book gifted by author in exchange for an honest review ****

In volume 2 of The Marriage Diaries we kick back off with another diary entry from Jillian briefly describing the change in both her and her husband Dean since they vamped up their sex life.

Dean begins to take things to the next level in this one and as they start to explore the kinkier side of sex, (even in a public setting) the excitement level is increased.

While rediscovering one another and being open with their fantasies, we get to experience an erotic dinner and drive home and a steamy home office scene that gives a whole new outlook on what a necklace of pearls can be used for.

When Dean has to go away on business, it was interesting to see how creative and uninhibited the couple has become, especially Jillian.

This story is erotica and involves aspects of BDSM but it's not over the top. What the reader gets to experience is a happily married couple exploring their sexual needs and desires in a completely consensual, safe and loving environment.

Again I thought having the duel POV provided depth to the story and with each volume being novella size, it ensures a quick, fun and hot read. I'm enjoying watching the passion these two have for each other ignite and combust.

[They go to a restaurant and there are some sexual stuff going on , also the dirty talk but no one hears them or sees them ! H lets h wear sexy outfit which is good because if you love someone ,you should let her wear whatever she is comfortable in! he does not mind other man checking her out !

so when h asked if he is not jealous ?

H says he is possessive and jealous but he knows that she is his and he is the only 1 allowed to see her naked and touch her!

it's like he is sayi

HAWT DAYUMMM!

Gwen ~the Book Diva says

It gets even better! Our newly awakened couple have now decided to turn their unused basement into a "classy, decadent den of iniquity"...umm that's a playroom to the rest of us!

"Ever since their agreement to spice things up, Dean has been full of surprises when it came to what he wanted and desired. Then again, *predictable* was boring and she was coming to thoroughly enjoy the unexpected where he was concerned."

It was like with each step into the unknown they were able to shed their inhibitions and discover this new erotic power they had over each other!

"The man was so full of surprises and more innovative than McGyver and she was impressed with his clever use of pearls." So was I!! *fanning self* Apparently diamonds are no longer a girls best friend!

"He was beginning to appreciate that there was probably very little his new, adventurous wife wouldn't try and that was a very heady, powerful realization." For example, Skype sex! Oh and there is a hot little restaurant scene!

I love the dual POV! You get to see inside both of their heads. I think Dean and Jillian already had an amazing sex life prior to their "awakening" but their experiment just magnified their connection.

"Their sex life had always been pleasurable but now it was intense and incendiary and addicting- and his wife was his drug of choice." Are you kidding me?? Where can I find a Dean of my very own??!!

On to book 3!!

Joan says

These books are a whole lot of fun. This was even better than the first. What a sexy and fun story. These two are smokin hot together. The restaurant scene and unique use of pearls just show how creative you can get to spice things up. Loved the Skype. This is one hot married couple.

I rarely wear my husband out, but the last day or two we've been like rabbits! Why? Because I read the THE MARRIAGE DIARIES "*Marriage Diaries* by Erika Wilde". Holy Hotness! This series is everything a short hot novella series should be. I swear, the author was IN MY HEAD, reading all of my fantasies! I have been married over 20 years, and I just loved reading about a hot as hell, sexy couple that was in a long term marriage as well.

Already the couple can't get enough of each other, now that they have unleashed the beast, they are just getting started. Dean tells Jillian to be ready to go out for a date, but finds her dozed off in the bathtub, and gives her a nice wakeup. When she tries to coerce him to stay home...

"You've become a shameless hussy."

"You bring out the shameless hussy in me." And since he was her husband, she could be as promiscuous as she dared, which was such an incredibly freeing sensation. "I think you need to finish what you started."

"Don't you dare give yourself that orgasm I know you want so badly. I'll give it to you when I feel you've earned it"

He picked out a very skimpy outfit for her to wear, and gave her a long strand of pearls, pearls that when worn backwards look like a choker, but can also be used like a leash to give Jillian that sense of being owned.

Let me tell you, I have read another scene with pearls that was hot as fuck (see the result here) and this one didn't disappoint. Let me tell you, you might want to **Cream 8mm Simulated Pearl Strand Necklac" target="_blank">order this necklace** on Amazon.

I love how the couple's communication really helps them explore the new territory. It's like a dam broke, and they are going to keep stepping it up. Plus I love the idea of a fantasy vase! I truly enjoyed this installment of The Marriage Diaries. Not quite as much as the first, but I still can't wait to read more, and still loved this one.

Each of these books are about 40 pages. They are quick reads and they are good for pre-bedtime reading (if you know what I mean). If you are reading these alone, make sure you have a toy nearby, or visit my erotic toystore to pick up some of the items you might find in the books. Or toys you'll need while reading it. :-D

These books can be read individually (My vajayjay needed a break so I read another book in between).

My husband and I went through a similar sexual revitalization after about 19 years of marriage (thanks to some of my favorite sexy books). We both started sharing our fantasies more, and my husband's dominant side is hot as hell. He and Dean actually reminded me of each other. In the last 3 years, our marriage has become so much stronger and way hotter now that we finally came clean (or dirty) with our fantasies and brought some of the kink in. So I really related to these books. I realized that some of that hot spark we've had has been dying out again, but this series brought it right back!

So Erika, I thank you, and so does Mr. Ana. My vajayjay however (and the muscle I pulled) are not as happy with you afterwards.

Likes:

- Reading about a couple who have been married for 19 years.
- I loved how Dean and Jillian finally came out and admitted the things they have fantasized about.
- How attracted the couple still is to each other.
- Dean is so alpha and commanding. Yum.
- How the trust between them just made it all so much easier.
- Almost every sex act is something I have fantasized about or done and want more of.
- Though each of these were short, they were just right for what they are.
- The sex acts were long and detailed without using words that make me snort or roll my eyes.
- I never felt like I needed more, these stories delivered what the intended.

Dislikes:

Rating: 5 stars for a ladyporn novella series, 5+++ heat

It seems strange to give this 5 stars when there really isn't much character development. But that's not what we read this for. You know how sometimes you just need a good hard fucking? That's what this is like. Sometimes you need a little sex with your story, sometimes a little story with your sex. This series is the latter, and that's just fine for a change.

Usually when I read a novelette, I feel it is missing something. How good can something be in 40 pages? But I have to tell you, these deliver what they are intended for. *Lady Porn for the married moms* (though I think a guy would like these too). There was just enough story to keep you interested, and the characters were very likable. I never felt like I needed more story, it was just right. I look forward to reading Erika Wilde's next

story and see what her spin-off series is all about.

I absolutely LOVED The Seduction, the second installment in The Marriage Diaries series by Janelle Denison. This novella packs a big punch. From the opening line, my heart was racing. I thought I would have to go back to read the first novella, The Awakening, to boost my memory, but I did not need to after all. As I started reading, I immediately went back to the final scene of that novella. It's as if, I did not have to wait, for what seemed like forever, to get my hands on this one. I had to pace myself, and take a breather. If I was a smoker, I would definitely need a cigarette. This series is a MUST READ, even if you are not married.

About half way through, I had to write the author and let her know how much I loved The Seduction. She made me wish I had a husband, a boyfriend, a fiancé...just someone special nearby after reading, I seriously needed a cold shower because I was all hot and bothered. Oh to be in a relationship where you feel as safe as Dean and Jillian Noble. I can't wait to read the next installment, The Taking. That level of trust takes time to nurture, and I hope that one day, I will be able to find someone I love and trust as much. Denison takes spicing a relationship up to the next level. You can sense the love both characters feel for each other. And, you feel their desire. Denison's scenes are very vivid and descriptive; they sometimes leaped off the page. At times, I felt like I was watching a scene in a movie or on television. Wow! Denison has some writing chops and her voice is absolutely amazing. These are just two of the reasons why I love her books.

If you have not checked out this series yet, why not? Check them out.

**** EROTICA BOOK CLUB REVIEW ****

THE SEDUCTION (The marriage diaries #2)

By Erika Wilde

This is the continuing short story of Jillian and Dean Noble who have been married for 19 years and are trying new things to spice up their sex life.

In this one the begin to explore BDSM side of sex. Dean has been suppressing his Dom side for lots of years and has now got the go ahead from Jillian to explore this.

There is quite a lot of hot sex and I felt that I was getting to know the couple a bit better and can still relate to them. A really good read that I really enjoyed.

This is a really short read but I am excited to move onto the next one immediately.

I received a copy from the author in exchange for an honest review.

I am giving The Seduction 4 stars for Amazon & 4 for Goodreads.

The Seduction is the second book in Janelle Dension's The Marriage Diaries and yes, this is a serial and while I don't normally read or like this genre I'm actually blown away by this one. First off the price is right; each installment is 99 cents and well worth the price. Secondly, this serial is about a committed long term couple rediscovering their sexuality now that their children are away from home. So therefore, we aren't left hanging with the story line, each installment is a new and exciting adventure these two take together. Personally, my husband and I are really enjoying reading these together; they spark a lot of ideas and some great conversations.

In the first book Jillian made the first move and while Dean went along with her seduction he at first wasn't sure what brought it all on. He quickly got on board and in this book, we are beginning to see that Dean has obviously been holding back in their 20 year marriage and he shows Jillian exactly what it means to belong to him. Oh yes, Dean truly shows his dominate side in this story and it's flipping hot as hell and very sexy. They don't get into any heavy duty BDSM but they do explore it and let's just say I will never look at a long pearl necklace the same way again. We also get a little hint about what the next installment will entail and I think Jillian might be somewhat taken by surprise when Dean unleashes that fantasy!

These are short but well written and well thought out stories with so much steam they fog up the windows. I won't lie; they are pretty much foreplay and sex with a little conversation thrown in but they are so very tantalizing. I love seeing this couple explore their desires with each other and letting us go along for the ride!

I loved meeting Jillian and Dean Nobel in The Awakening (Volume #1) of The Marriage Diaries Series. I loved watching a couple who have been happily married for 19 years start to explore their sexual fantasies together. Jillian totally surprises Dean by showing him she wants to spice up their love life and I loved watching them grow as a couple.

The Seduction (Volume #2) is even hotter and sexier than The Awakening. Dean takes the controls in The Seduction and Jillian is more than happy to give the controls to him. I love the level of trust they have for one another and knew that at any point Jillian could safe out of the situation if she wanted to do so. Loved even more how turned on she got from each fantasy Dean presented. With each volume of this series, the love scenes just keep getting hotter and hotter. I love reading about a couple who have been married long-term want to spice up their love life. While each of the three scenes are super sexy, my favorite was the final one. OMG was it hot! I can't wait to see what happens with Dean and Jillian once they have their new

playroom.

I've been a fan of Janelle Denison for years and always knew she wrote super sexy stories. With The Marriage Diaries Series, I think she has found her true voice and I look forward to many more books like this series in the future.

The characters are the same but changing as they fall further into the Awakening that Jillian set in motion when she visited dean's office. There was no major story here more like 3 experiments being done by the couple which were broken up. This is a short story with three short stories within. I really like this couple because they seem very real and I would hope that anyone would be as open as the are.

Dean and Jillian Noble are a married couple who are having a sexual awakening after 19 years of marriage. The journey is good for both and especially for Dean who has wanted to try things with the woman he loves that he felt were to dark and kinky. When Jillian opens the door Dean is more than happy to go through and find out what works for them both.

This was just an alright entry for me though I like them I think it would have been better to have something else going on beside just the set-up for more sex. Not to say that I don't like sex but give me something more about them. Where does Jillian work, or does she? Still, I think it will be enjoyable for most.

My Rant:

The Marriage Diaries was tantalizing, Erotic and raunchy. What I enjoyed about this series is that it based on a marriage couple that is trying to bring the spice back into the relationship since their kids are all grown up and out of the house.

Jillian has always fantasized about here and Dean taking thing to the next level and when she reveal her fantasies things erupt and unravel quickly in the story. As a character Julian decided to seduces her husband in order to get him to play along. She is not longer a vanilla girl and wants to explore other flavors in life. Wink Wink. What she is unaware of is that Dean has some fantasies of his own but he was always afraid of how Julian would take them.

The characters loved each other deeply but the intimacy in these new endeavors help them to connect on a deeper level erotically. Dean is an ex seal, so as you readers know he already has that dominant side to him and will Jillian begins to coax out his true nature she unlocks something in Dean and there is no locking up the sexual beast. Of course at this point who wants too. Dean is Hot. Super hot! He is all alpha male, although he may struggle to give up power a time or two you can resist his charms or sex appeal. I ripped through these book so fast that i couldn't believe I got through them all in once sitting.

Erika Wilde completely had me in a trance. Her writing style was smooth and the story just continue to flow with ease. As I was reading the story it felt like I was visual watching it because she gave you the complete blow by blow in details. Her imaginations is vivid, so vivid your panting because you want some of what Juliann is getting. lol Although the book in this series are short its just enough of a story to make you crave the next book. really, I so need to read the next book and i am anxiously awaiting the release to the 5th book in the series called the invitation.

Overall I was addicted to this series and what appealed to me more was that anyone can purchase all four of the books in this series for under \$10.00. Erika Wilde is definitely going on my fav authors list and the marriage diaries will be a series that I would enjoy continuing. If you don't believe me just pick up the books yourself to see. As it stands now the first book is Free, that right free so go cop yourself a feel oops I mean book.

My Recommendation

I rated the Marriage Diaries series 4 1/2 out of 5 purple rant hears and would recommend the series to anyone that loves a little spice in their romance.
