This is the third of five books in the series that make up the "Nick of Time" novel. I have only read this one out of the series but I didn't find that to be an issue as you can quickly gather what has happened in the previous two books. I found the characters to be really good and the pace and writing style was excellent. I have added the other books to my wish list and look forward to reading the rest of the story.

Book 3 of 5

Nicki and Brad find themselves in the wrong place at the wrong time when a store boy is shot and dies. Nicki's health is getting worse as she has no medication to take after leaving them behind. We learn about Brad's troubled life and the time in prison has Nicki made a big mistake being with Brad? Should she ask her father for help or just go back to her life as it was before she met Brad? I love this series it is getting better and better as we go along on their journey.

Thank You Netgalley the Author and publisher for a copy of this book.

As with all of John Gilstrap's books, I love this one too... He has a very unique way of writing and I love it. Every one of his books gets right to the point, to the energy of the story without the frivolity of many writers who find they need to add a lot of filler material to make their book longer. John does it with story and plot.... His plot twists come out of the blue, taking you by surprise and upping the thriller part of the word, 'Thriller'. Don't ever worry about buying any one of his books, they are all wonderful... I especially like his 'Jonathan Grave Series'. It never disappoints.... I give John Gilstrap's books a healthy 5 star rating..... :-)

In this third installment of the five-part serial about terminally ill 17-year-old Nicki and escaped felon Brad, the two are heading South for the beach. Another item on Nicki's bucket list. On route, they are involved in an incident that leaves them being hunted not only by Nicki's attorney Dad, Carter, but also by the entire police force. Here, the storyline involving Sheriff Hines and Deputy Darla finally converges with Nicki and Brad's story. Further details of Brad's past emerge and the tone becomes a lot darker and more violent. Nicki is questioning whether she is doing the right thing, and her health is deteriorating as she had to leave behind all her medication. This series is getting better and better. Part three was the most exciting and most touching, yet. It's great how

all the characters are further developed with each installment. I'm very curious to find out what Nicki's and Brad's next steps will be.

Thank you to Kensington Books, Lyrical Underground, for my copy via NetGalley in exchange for an honest review.

In this third installment of the book, the three main storylines that have been developing finally converge as Brad and Nicki find themselves in the wrong place at the wrong time. Brad's character is more fully developed as we are introduced to his troubled childhood, teenage years, and prison life. For the first time, Nicki begins to see Brad's true colors, and it terrifies her. She questions what she has gotten herself into and whether or not she should get out while she still can. To add to her uneasiness about the situation, her health continues to worsen as the time marches on and the pressure and stress continue to mount. Should she just walk away and let Brad continue on his own? Or maybe she could reach out to her father for help? At the end of this installment Brad is forced to reveal a secret he has been keeping from Nicki that just might push her away for good. I received this as a free ARC from Kensington Books, Lyrical Underground on NetGalley in exchange for an honest review.

Time to Steal is the third installment of five in the Nick of Time series by John Gilstrap. In the first of the series we meet seventeen year old Nicki Janssen who had overcome an eating disorder only to then lose her mother to cancer. While grieving for her mother Nicki had resumed her obsession with weight loss and had turned to diet pills. The pills however had side effects ending up putting Nicki in the hospital herself and without a heart and lungs transplant she finds herself with only a year left to live.

Not wanting to live out her remaining time hooked to machines and with little hope of living long enough for a transplant Nicki has decided to run away with a boy from her childhood. Nicki's father is a prosecutor and teams up with his law enforcement buddies trying to track Nicki only to find out that the boy in question is wanted for murder.

In Time to Steal Nicki and Brad are truly on the run from not only Nicki's father but law enforcement too. I would warn that this the series is getting a bit dark with not only violence but rape mentioned.

Each book so far has just gotten more and more exciting and action packed. Completely enjoying this series and hope to be able to finish with it sometime, right now I only have the first three books so I will be impatiently waiting to see how this will all turn out.
