Miranda Rose absolutely lives for writing. Unfortunately, there aren't many readers that live for her books.

At least she can distract herself from bad reviews with her favorite hobby - trolling Charlie Shivers online. That dinosaur smut peddler wouldn't know literature if it mounted him from behind. And, for further distraction, she meets the world's hottest guy at her favorite writing conference, and when he mounts her from behind, she forgets all about that wannabe author.

Until she realizes Mr. Hottie Pants isn't the cover model she'd presumed. He's her archenemy in the flesh, Charlie Shivers.

She's mortified!

And yet she still can't keep her pants on around him.

Joe McCoy, aka Charlie Shivers, is over the moon attending his first Romancing The World conference as a panelist, especially when he meets the smoking author at the bar. But now that he's discovered the true identity of his one-night stand, he's tangled in a sticky web, thicker than a spider shifter (dibs on writing that one next!)

Though, sleeping with the enemy is kind of hot.

And scandalous.

And awesome.

But then he finds himself falling hard for the too-serious novelist, and now he's pretty sure there's no way he'll make it out on top.

Shining dinosaurs and brolicious nonsense, I'll give it that

Look, this book was cute. But all the butt banging dino references and bro-business was just a bit much.

Setting / Time / Genre: Current

Length: short to normal

Series: I don't think so, but what do I know?

Sexy times: A couple of bangity bangs between the MCs and lot's of references to sexy times and banging beasts. Not for the shy among you, though. Trust me on this one.

Plan on reading more by the author: Undecided

Synopsis: The heroine writes "real romance" while the hero writes dino and Chuck Tingle erotica. They hate on each other and basically have the maturity level of a 10 year old, combined. I enjoyed the behind the scenes author business, abhorred the evil and mean author woman and finished the book so it's got some merit somewhere.

Heroine: Miranda. Basically an alcoholic as far as I can tell who cries into her wine when she writes and does some strange stuff while drinking. Far too much crying, if you asked me.

Hero: I don't remember his name. Oops. My bad. Redeeming quality: love for his dog. Irredeemable quality: all the bro business. Broseph. Brosausage. Broeverything. Ick. Oh, and he's just a douche. There, I said it. Whew, that's done.

Why it did or didn't work for me: See the above. I found both characters pretty annoying. It was an ok read. Bunch of meh for me though.

Stef - British Book Binge says

This book was a fantastic, fun and easy read. I thoroughly enjoyed this story.

Miranda Rose a.k.a Randi Rose has an arch nemesis Charlie Shivers (Joe McCoy). Author of crazy dinosaur smut. While Randi is struggling to get her books out there Shivers has a huge following for someone who she considers a not-a-real author, so what does she do... she trolls him online.

Miranda is a funny character that has a fantastic sense of humour she attends the Romance convention and ends up at the bar where she ends up meeting a male model *cough *cough Joe McCoy and they end up having a hot night together and leave it at that.

Moving forward the next day when they discover who each other... oops.

Both of the lead characters just have something about them, they are perfect for each other and I couldn't put this book down. The scenes between Joe and his bro's were just hilarious. Kayti McGee has a talent when it comes to writing. I loved the epilogue it was a great way to end the book. From beginning to end this book had me hooked!!!

If you need a laugh along with some sweet and sexy romance this book is for you.

Safety precaution

Topped should have a warning on the cover: Relieve your bladder prior to reading Topped, the author is not responsible for any leakage while enjoying this story. Topped is a sexy, Rom-Com satire that causes intense laughter that eventually leads to wheezing because it's that funny.

Joe McCoy, aka Charlie Shivers, proud smut slinger, writes outrageous stories including his famous dino butt porn. Yup, dino's doing it in the butt (yes, dinosaur erotica does exist on Amazon). He's proud of his writing and has a large fan base including a street team. His sales are strong. All is good, he has his bros and his writing until he attends the Romance The World conference and unsuspectingly has a one night stand with his arch nemesis, Randi Rose.

Miranda Rose, aka Randi Rose, is a dedicated romance author who can't move passed mid-lister. She writes from the heart, or better said from the glass of wine. She's dedicated to her art and is not able to comprehend how Charlie Shivers books even exist. She even takes the time to read them and write one-star reviews.

Miranda couldn't be more excited about attending the Romance The World conference. She plans on schmoozing with publishers and seeking approval from successful authors. What she didn't expect was to be *"Banged By My Hatred Of My One Night Stand, Charlie Shivers, by Randi Rose."*

"Maybe enemies can become frenemies-with-bennies after all."

The story does not falter. Joe and Miranda have a heated, love/hate relationship mixed with plenty of laughs and steamy sex. I will never think of Donald Trump or dino porn the same way again after reading this book. There is of course a moral to the story about minding one's pride which is well told through humor and sexiness, well done Kayti McGee. I can't say enough about how much I enjoyed this story, 5 Stars. Topped is one my 2016 favorites.

Such a weird book honestly. If there's something that puts me off, it's when authors introduce their own books like this: "omg you're going to wee in your pants by hilariousness of this book!!1!". Ugh, just no. The characters were interesting and the story was, too. However, I didn't like the writing at all. This is a pretty short book and I've skimmed most of the conversations the characters had with their friends because I was bored out of my mind. This book had potential, let's be honest, but the humor was just okay, not "going to pee in my pants" good. Joe is weird as hell and so is Miranda, but they are awesome together. I loved their conversations and... well, let's just say that Kayti McGee can write a damn good sex scene. There's a bit of an insta-love here because these two know each other for a few days and they're already feeling like they're in love. Ugh. But, like I said, my biggest problem was the writing itself. Especially when it comes to Joe's POV - we get it, you have a big dick and you're a Sex God, now shut the hell up.

Could've been better.

Book Review: 4,5 Stars

Topped was one hilarious, ridiculous, sexy as hell and awesome book! It's a story of enemies, lovers, bizarre-smut and a crazy author's convention. I cracked up the whole time reading this book. Miranda and Joe were archenemies in the author's world and they took their rivalry to the ultimate level. The truth was that they didn't know who they really were, or how they looked like, so, when they were hanging out at the bar of the book convention hotel, they hitted off, talked a lot, and had one super hot and full of orgasms one night stand. The next day was a big and awful surprise for both of them, when they knew who they really were and all. BUT.... The attraction, the chemistry, the passion was consuming them and there was only one thing left to do: HATE FUCK EACH OTHER UNTIL THEY ARE BLIND FROM SO MANY ORGASMS!!

I loved reading this book. I have to be honest, I was utterly annoyed with Miranda at the beginning, but as soon as I started Joe's chapters, I was hooked and IN LOVE with the bizarre-smut author. He is not the usual book boyfriend. Yes, he is handsome, and cocky and full of himself, things I FLOVE about a book boyfriend, but he was also ridiculously unique. I loved how he acknowledge himself everytime he did

something stupidly funny.

If you want to *Roll on Floor Laughing Your Ass Off*, get this book now and read it. It's short, funny, and super sexy. And will leave you wondering about how it would be to be *Plummeled In Ass by a Hungry Triceratops*.

4 Be Willing to Dive Right In Stars

There are some reads which must have the right attitude to get the "full flavor". You have to be open to just go with the flow and let it take you where it wants to go. Kayti McGee was new to me. I didn't have a clue of her writing style or anything she had done before. All I had to go on was a blurb which caught my attention and made me say, Yes... I think I could get into this...

And I Did :DDD

The idea is nothing profound...A romance author, Randi Rose, plugging away at her craft...churning out books she loves but not receiving the audience she feels she deserves. She takes the time to craft her books... feeling deeply about all of it. Has a fair fanbase but is stuck in the middle ...not hitting the top 100 on Amazon or receiving the recognition or respect from peers she admires.

Match that with our other author, Charlie Shivers. He has come up with a genre unique to itself... Dino Porn. It is written to cause stomachs to cramp from laughing so hard at the craziness of it all and he is churning out

these puppies faster than he can think up a new title. His books climb the top 100 in minutes. He is basking in the fun of everyone who reads his stuff is in on the joke.

I was not familiar with the infamous Chuck Tingle and his Dino Porn, for real. This is a guy who has a fanbase and was nominated for the prestigious Hugo Ward for writing. Kayti says on her website this was an homage to him.

Everyone but Randi, that is...

Now let me share for a minute... The way this book is written is perfect...as we get alternating POV's. We are with Randi as she drinks her wine which helps her get through all the angsty writing passages of her book...We are with Charlie while he shoots the sh*t with his Bros and their banter/ teasing and just stupid silliness adding up to additional titles for future books.

Both of the characters' humor is hysterically funny in a silly, true way of how friends talk and how people think in their heads. All of this sets the tone for what is to come...the fun and games, the self-doubt, the discovery of what is really happening and everything else surrounding them.

So we have the set-up of Randi hating the success Charlie is having. She doesn't feel he is qualified to even be called an author, let alone writer. She has tracked his books with alerts; bought them and then has done one star reviews, blistering attacks of his credibility. She, on the other hand, has been producing works for quite some time and needs a breakthrough. The Annual Romance Convention is taking place in her town of Kansas City meaning it will be on her turf. She is desperate to line up one of the Top 5 publishers to represent her. She feels this will be her chance.

Charles is not immune to feelings; he works hard in his own way. Always having a notebook with him, writing down his inspirations, having them ready for when he is ready to go. His tight group of bros and their Buddy Lunches are the ultimate bonding time for these guys... all talking in Dinosaur/Bro speak about their days, women and drinking beer. Nothing too heavy or serious... not the code.

Charles is going to be at the convention too; he is looking to see how to market better and maybe nab a deal of foreign rights...also wouldn't hurt to possibly hook up with one of his fans... The list of opportunities is endless for this hot guy.

These two meet, (DUH), hook up with using their real names. Have the best sex of their lives. She leaves before he wakes. The next day they are both scheduled to be on a panel discussion... only to discover they are Charles Shivers and Randi Rose....dum ta dum dum....Mortal Enemies....

This book is so much fun. The banter, the inside reader-blogger-author-street team directives... all of it was just right on. The chemistry of these two was off the charts and sexy times were hot, happening, and seriously funny.

There were current references to the political scene which had me choking and laughing with tears running down my face. It was the type were you have to stop and gather yourself...letting out huge sighs.

But all jokes aside... it was also a very smart story about the politics of the publishing world, the way books are promoted and how reviews and stats can be manipulated. Things are not always as they seem or handled the way they should...

What was the final cherry on top of all of this was how we saw each character mirror the other in real time...

both realizing how they felt for each other... both having to take things into consideration and form different ideas.

Kayti McGee had her tongue planted firmly in her cheek for most of this book, however, she also was doing what my dad would say... Kidding on the square. Through all of the cuttingly funny jokes, the innuendo of gaming the system of reviews etc...she gave us a very clear picture of how ratings and popularity can foster unbecoming behavior. She had the smarts to couple all of this with a terrific love story, too. Which to me confirms, Kayti McGee knows from where she speaks.

Very entertaining in so many ways.

To say this book was different is an understatement. It is hilarious to be honest. These characters prove the saying thin line between love and hate. The dialogue is witty and has me laughing out loud. Joe's stories are ridiculous but underneath his outrageous writing style is a warm caring man with a great sense of humor. Miranda is a tad uptight but her sense of humor comes out. She writes more along the lines of contemporary romance and can't believe how well dinoporn sells.

When these two get together the chemistry is amazing. This is a short funny romp that will leave you in stitches.

5 stars because I can't go any higher!!!!

This book has it all:

intense emotions check
hot cover models check
dino porn double check
catty bitches club meeting

But what takes the cake and I think makes the entire book an award winner is the Zombie Robots. It is the classiest book yet, Charlie is definitely going to win awards. Oops, this is supposed to be about Kayti's book not Charlie's. Well, perhaps once you read both, you will realize which is more life changing than the other!

This book is insane and ridiculous, but i couldn't stop laughing. I was actually kicked out of bed by my hubby because I was not able to stop. I honestly feel that Dino porn is a trigger for me too, but after this book righteous indignation is replaced with inappropriate sniggering. I can't tell you how much fun this book is. **YOU WILL HAVE TO READ IT!!!**

To Kayti:

This may be wrong and well, that's ok, but I need you to know:
Kayti McGee, I Becky Rendon, would Zombie Robot butt-Fuck the shit out of you!
Topped was honestly the funniest most insane book I've read this year and I loved every minute of it!
I intend to start my writing career with Canoodling Conifers as homage to you, the great Charlie Shivers, and Randi of course.

Miranda Rose aka Randi Rose is a serious romance novelist. Her goal is to get her work published with the one of the top 5 in the industry. She is disgusted by Charlie Shivers peddling his Dino porn because it is selling like crazy and she feels she works harder. Miranda engages in juvenile behavior by 1 starring all of Charlie Shivers work and basically stalking him. Their paths cross when they attend a romance convention. Not knowing who he is in person Miranda meets Charlie/Joe and thinks he is a model. They hit it off and they quickly jump into bed.

Miranda's internal dialogue came across as too insta-love for my tastes. She had this scenario in her head of pursuing a relationship pretty much within minutes of meeting Joe. To be fair Joe was pretty much insta-love bound after they hook up too. The next day they discover each other's true identities and as you can imagine it doesn't go well. The best part of this story for me was the hate sex. YOWZA! These scenes were pretty great even though it was preceded by juvenile hate talk. I did really like Miranda and Joe's sense of humor and personalities but I was put off by their childish antics.

Topped is a cute romantic comedy; but for me personally I felt comedy came off as trying too hard. That being said if you like a light comedy with some steamy sex and insta-love/lust you will like this.

Kayti McGee hit it out of the park with *Topped!* I read this book in one sitting while I was on a flight, and I disturbed the people around me when I started crying-snorting-can't-breathe-laughing. There's this particular dress up scene ... you'll know it when you read it. And now I'm laughing again! Man, it really tickles me whenever I think about that scene.

What can I tell you about *Topped*? This book is hilarious and smart and witty and so damn hot! Miranda and Joe are lovable, sexy, zany, and ridiculously awesome. What I've come to think of as Kayti McGee's singular humor is on point in this book. When you're not doubled over in laughter, you'll be squirming at the sexy scenes and swooning during the tender ones.

But don't be fooled because this book isn't all laughs, dino porn, and hate sex. *Topped* has a lot of heart as well. Miranda talks about her writing process and the struggles of being an indie author, which, as it turns out, is not all about banging cover models and writing bestsellers. Who knew?! It was interesting to get behind-the-scenes insight. And while Joe's writing process is much different and lighter, he starts to question his role of writing silly dino porn and wonders if he has what it takes to write the "real" deal.

Miranda and Joe seem perfectly suited, but will their arch nemesis status prevent true love? Watching these two on their journey from one night stand to hate sex to maybe something more was completely entralling. Can a serious author make it work with a dino porn peddler?

Basically, you guys all need to 1-click this book because I loved it so much! Then come and find me so we can discuss that epilogue. I'm still reeling!

I thought *Under Covers* was THE funniest book I ever read. Shut the front door - *Topped* was even funnier.

Thinking about my review whilst driving home from work, I was snort laughing in the car! What the F kind of boxed wine was Kayti drinking when she wrote this book? She has to, has to have been shit faced, pissed as a fart, off her trolley!

I never ever use LOL (I hate it) so instead I will say, I laughed so much I may have weed.

Miranda Rose aka Randi Rose romance writer with no street team (sad face) and low levels of sales hates dinoporn author Charlie Shivers.

Joe McCoy aka Charlie Shivers, broseph, bromerang, brosophocles, and my personal favourite Bromplestiltskin, hates his own personal 1 star troll.

Rainbow sparkly dinosaurs. Donald Trump. I cannot deal with life right now. I want some of the fermented grapes Kayti has been having.

Totally bonkers. Totally brilliant. Totally can't wait to read more of this weirdly wonderful author.

No dinosaurs or trees were harmed in the writing of this review.

OMG! Let me start off by saying that TOPPED by Kayti McGee was SEXY, HILARIOUS, and absolutely RIDICULOUS GOOD FUN! This was my first read from Kayti on her own, and I got to say, I LOVE her style! Her writing? Smart, fun, and full of wit! I was IN once I read the blurb, but MY GOD, I didn't expect something like this! I couldn't wipe the grin off of my face. Full of 'TMI' and 'BRO' moments, Miranda and Joe will leave you in stitches with their entertaining, and sometimes absurd, banter.

This lively comedic enemy-to-lovers romance will knock you on your ass with every turn of the page. Two authors fight to be on TOP of the bestseller list, end up challenging each other in ways they didn't see coming! Romance readers will bust a gut when they meet Miranda and her sharp-wit! They will have their pants charmed off by, Dino-Porn Extraordinaire Joe McCoy, aka Charlie Shivers. Together, Miranda and Joe, are NOT a match made in heaven, but their chemistry is RIDICULOUS and HOT!

TOPPED was just an AWESOME break from my angsty reading! It made me smile, blush, and laugh so hard I almost peed a little. Kayti McGee made herself a new fan with this one! RomCom junkies...you HAVE to check this one out!
