**Tuesday's Child** Fern Michaels

**Second Chances**

Ten years have passed since young nurse Sophie Lee was accused of murdering her wealthy patient, Audrey Star. Georgia attorney Mikala Aulani believed her innocence--and Adam Star's guilt--but the prosecution convinced a jury otherwise. Sophie was convicted on a Tuesday--the day on which every significant event in her life, good or bad, seems to happen. Now, on the verge of his death, Adam exonerates Sophie and also leaves her a huge fortune in atonement.

Sophie retreats to Kala's house and tries to evade the media frenzy that surrounds her. Kala is determined to help her client make her way back into the world. Yet for both, there are still revelations in store--about the nature of redemption, the strange workings of fate, and the power of forgiveness. And most of all, about the secrets that hide in every heart--even those we think we know best. . .

### **Karen says**

Being a huge fan of Fern Michaels books for many years I looked forward to reading this book..I debated between 3 and 4 stars and decided to go with four since most of the book was enjoyable to me..I was very disappointed with the end of this book..It had a good plot and I liked so many of the characters along the way,including Sophie,who had been released from prison after serving ten years for murder..A deathbed confession led to her release and I loved how she was getting her life back together..The ending just totally took all the joy out of me and I really have to wonder if I would have read the book knowing the end..

Tuesday's Child by Fern Michaels

Things always go from bad to worse on Tuesdays. The whole book comes down to the day of the week, in the most important of things that happen.

Mikala was just about to retire but the one case she lost the defender walked in and declared he had killed his wife. He wants her client to have all of his estate after he's dead within a weeks time. Sophia has been in jail for 10 years now.

When Sophia is released it's up to Kala's law firm to get her the money that is deserved her and to prosecute the lawyer who brought this to trial.

Love the travel, and mostly the familiness of the 4 orphans. Love to hear how their lives have progressed over the years.

Loved hearing how she spent her first days free from prison.

Both sides are going through and over all the testimony, transcripts, evidence, etc. to try to figure out who's to blame for the death.

Kala is now planning on marrying her retired judge Ben and living in Hawaii. They have hidden Sophia til things settle down.

All of Sophie's friends from the orphanage are together, contemplating the reunion with their friend.

Just when you think the end is near something else happens to make you think, wow this could really happen and just when things are figured out, they are not really.

Out of the hundreds of books I've read since Jan. 2012 this is the best by far on so many counts.

The travel, the sincere emotion while reading this, the familiness of the orphans and because of the way the characters are introduced they are not confusing and overwhelming because there are quite a few of them.

#### **Tuesday's Child**

This book was ok but not very exciting. I liked it because Kala Aulani was from Hawaii & was very successful. It makes me very proud when Hawaiians become successful.

There is one thing that I need to point out to you in addition to the flaws in punctuation, & that is lei is correctly used as singular & plural. Leis to apply to more than one lei is simply incorrect. Thank you.

### **Teresa says**

Another great book from Fern Michaels. Wow, the ending surprise me, not what I though would have happen. You need to read this great book.

---

### **Jill says**

I'd give this book 3 1/2 stars

---

### **Trish Tomes says**

Sophie has been wrongfully convicted of a murdering her patient. After 10 years in prison, the husband admits guilt and sets many things in motion as Sophie tries to get her life back.

Everything in the story is "over the top": the wealth of the Star family, the Aulanis' wealth, one of the attorney's is the great grandson of Clarence Darrow, Ryan Spenser's father is the Speaker of the US House and his grandfather is the state governor. The relationship of Sophie, Patty, Nick, & Jon is stated so many times it became boring. A better editor could have made this a better book.

---

### **Kathy Dough says**

#### **Great up until the last 50 pages.**

Then it gets weird. Sophie goes out of character and the ending is terrible as it seems that the characters all changed for unknown reason.

---

### **Jen says**

I just finished reading this book about 10 minutes ago. I found this book to be a disappointment. As others have pointed out this isn't Fern Michaels typical writing style. Great story until about the last 50 pages or so. After that it seemed like even Ms. Michaels just wanted to book to be done with.

The main character Sophie Lee starts off being convicted for killing her patient. Years later the patients husband submits a deathbed confession stating that he was the one who killed his wife. Sophie Lee is whisked away during the hustle and bustle of the aftermath. WIth nothing else to do but wait, she takes long walks and swims.

Sophie lee grew up as an orphan and had three childhood best friends whom she cut contact with during the ten years she had been imprisoned. During her wait Sophie Lee seems eager to reunite with her friends. Jumping for joy and making immediate plans when her attorney tells her she can return home. Unbeknownst to her one had passed away while she was in prison. She seemed eager to starting a relationship with one of the friends whom she has loved forever.

Every part of this portion was a great girl next door, orphan gets robbed 10 years on a wrongful verdict as her attorney makes it all right again.

The last 50 pages or so... the moment Sophie Lee steps off the plane, the story becomes dreary. I don't know how to explain it. ALL the other Fern Michaels books have left me with a Kick Ass, underdog winning feeling and this left me irritated and let down.

Right away getting off the plane, Kala (the attorney) and one of her partners notice right away something being off. But they push past that feeling and the attorney's and friends celebrate.

Later that evening Sophie Lee is sitting with her friends when she learns of the third friends passing. This is when Ms. Michaels shows the character having a different personality. Until this point, she seemed humbled and gracious, loving and generous. At this point she seemed money hungry and power driven. Even telling the man that she seemed eager earlier in the story that she only loved him like a brother.

She seemed to expect to be served by her friends and she treated them aloofly. Completely out of character from how she was during the first 9/10ths of the story.

There is one little twist, which honestly at this point seems irrelevant. Sophie lee just, it seems walks away from everything that she seemed to be eager to go towards at the beginning of the story.

The climax was a complete let down.

---

### **Ryan says**

I can not honestly say if I liked this book or not. Its not a typical Fern Michaels read. It's not quite a love

story but it is not a Weekend Warrior either. Kala has been Sophie Lee's lawyer for ten years. Sophie was tried and convicted for a murder she didn't commit and now its time to set everything strait again. Everything was great until the last fifty pages or so. The tone of the novel changed from a happy cheerful read to something darker and it never seemed to come out of that funk. The ending was not surprising which was okay, but having just finished the tale I feel bereft. The end was just not enough to make me happy with this title.

---

### **Peggy says**

Another easy read between some of my longer novels. Not a great fan of Fern Michaels but this was an ok book.

---

### **Joanne says**

Surprise ending!

---

### **Jo An says**

This was one of the worst written books I have ever read. The plot really didnt make sense. The characters were so weak in their development that their personalities changed from one paragraph to the next. I am not a writer but I think I could've written a better book. I haven't read any of Fern Michaels other books but if they are anything like this one no thanks.

---

### **Ruthanne says**

Terrible writing and poorly developed story. Not worth the time.

---

### **Susan Ross says**

I loved the first three-quarters of the book and then it tanked. The ending was a huge letdown and seemed hurried and pat to me. If the ending had been as good as the rest of the book I would have given it 5 stars. As it was, all I felt was disappointment after initially loving the book.

There was a twist that was really neat that ended up going nowhere and then another twist at the end of the story that the author didn't really seem to know what to do with. She should have just kept to the original ending before the twist. Again, very disappointing after an initially great read.

---

### **Jennifer says**

I can't decide about this book. I usually love Fern Michaels but I don't know if it was too many characters going here and there or if it was just my mind set, but I struggled to finish this one. It finally really grabbed my attention towards the last quarter of the book but I didn't like how it ended. . . .
