Deliver Us from Evil Robin Caroll

A beautiful yet tough woman working in a beautiful yet tough setting, Brannon Callahan is a search and rescue helicopter pilot for the Great Smoky Mountains National Park. Strong faith and a decorated history of service have kept her one step ahead of on-the-job dangers, but there's no precedent for what's about to happen. After a blizzard takes down a small plane carrying U.S. Marshal Roark Holland (already haunted by a recent tragedy), Brannon must save him in more ways than one and safeguard the donor heart he's transporting to a government witness on the edge of death. Otherwise the largest child trafficking ring in history—with shocking links from Thailand to Tennessee—will slip further away into darkness along the Appalachian Trail.

Robin's novel, Deliver Us From Evil, has death-defying moments, along with some romance, that keep you reading into the wee hours of the morning. A helicopter crash has stranded U.S. Marshall Roark, haunted by a recent tragedy, who is delivering a donor heart to a Federal witness who can decipher information of a major child trafficking ring. Brannon, who is the search and rescue (SAR) helicopter pilot who is out to find the U.S. Marshall in the Smokey Mountains National Park, has her own set of issues that keep popping up. The tension between them is palpitating throughout all the plot twists in the book, even in places you don't expect!

The storyline brings out the drama of SAR and the horrors of child trafficking, along with the travesty of justice, in a way that opens your eyes to the plight of this horrific dilemma. It will give you a more healthy respect for the law enforcement and government officials who risk their lives for our safety and the children caught up in child trafficking.

This is a powerful book that opened my eyes to the vastness of child trafficking today! Here are some sites the author used for facts, but can also be used if you want to become involved. One could 'Google' child trafficking to find others, but use caution on all the sites.

I received a review copy of Robin Caroll's exciting debut novel. Warning: reading this book will keep you up late—compelled to discover the final, exciting conclusion to this wonderful book.

Robin Caroll's characters were strong, brassy and real. Roark reminded me of the U.S. Marshall in the movie The Fugitive. He liked to be in control of everything. His motto, "Don't let them see your weakness."

Brannon reminded me of the female character in G.I. Jane. She's a rough and tough girl you don't want to mess with when she's working. Here's a peak at how Brannon snaps at Roark, " Let me tell you something, Mr. Marshall. I don't care how big and important you think you are—you will not make it out of these mountains without our guidance. So you can stop with the arrogance and know-it-all, take-charge attitude. We must work together to survive."

I felt like I was in the middle of an action adventure movie with fighting, shooting, chase scenes, fires, helicopters and police drama. This is an intriguing story filled with suspense, hope, forgiveness and justice. I enjoyed the comradery among the characters and how they chased down the bad guys. But, I especially

enjoyed how this author wove a believable spiritual thread into the story; keeping the main thing the main thing even in the middle of war - I like that.

There's a race to set little girls free from brothels in the USA, before they're shipped to another location. I think Robin handled the topic of sex-trafficking with grace. I'm sure conditions in brothels are worse than described. The author notes she hadn't realized how serious this problem was before doing research. It's horrific.

I enjoyed every second of this book. Can't wait to read the sequel called Fear No Evil. Way to go, Robin Caroll, on writing such a great and exciting debut novel.

I LOVED this book! It currently ranks as my favorite read of 2010. I found myself saying over and over again to my husband what a great movie this book would make! Of course, reading it was far better than watching a movie but the storyline would seriously make for an impressive movie! Robin's writing has just the right amount of balance of romance and suspense in it. I really appreciated that she brings awareness to an issue that I have been hearing more and more about in recent years....child trafficking here in the United States. I think often times when we think of child trafficking we tend to think of other countries but the truth is, it's happening right here in America under our noses. Robin has written a fictional story here and it's so well written that you simply can't walk away from the book without feeling a burden in your heart for the many children who are being caught up in this industry. Robins writings reflect the seriousness of the situation of child trafficking without being too graphic.

In Deliver Us From Evil, the main character Brannon Callahan is a search and rescue helicopter pilot for the Great Smoky Mountains National Park. She and her work partner have a strong faith in God. She is a beautiful and yet tough woman but nothing could really prepare her for what she encounters. A blizzard takes down a small plane carrying U.S. Marshal Roark Holland in the Great Smoky Mountains. Brannon and her partner are sent into the mountains with their rescue helicopter to save the Marshall and the donor heart he is carrying with him. The heart needs to arrive at a TN hospital right outside of the Smoky Mountains in a certain amount of time in order to save the life of a government witness that is dying. The witness has information the FBI needs in order to bring down one of the largest child-trafficking rings in the history of the U.S., which just happens to be located in Tennessee, right under Brannons nose.

Robin gives some websites in the back of the book on child trafficking and she has a lot more information posted on her blog. Deliver us From Evil was my first book of Robins to read and I am anxious to check out

more of her work after enjoying this one so much!

Although Robin Caroll has authored eight books before "Deliver Us From Evil", this is the first I have read by her, and I promise you, it certainly won't be the last. I thoroughly enjoyed the story line. It was filled with suspense that kept me up way into the night reading, making it nearly impossible to put down.

I enjoyed the characters. Roark was every bit what I would have expected from a Marshall, and I adored Brannon and her partner, Lincoln. They are a fantastic team and their way of keeping themselves grounded in bad situations was brilliant. Their messages of faith, love and courage, woven throughout the story were well done and meaningful.

I was very pleased with way the child trafficking was handled. You were made to realize the horror of the situation, and the description was just enough, without too much information - giving it realism without being too graphic. Because of this, I did rate the book for older teens.

"Deliver Us From Evil" should be on everyone's reading list. This powerful story of the horrors of human trafficking packs a punch that will leave you looking at your comfortable and quite world in a whole new light.

This was a high adventure story with a twist of Christian. I really could relate to the character of Brannon. She could bend through conflict and not break. The child trafficking did touch my heart. I enjoyed the writer's style, it was easy to follow. I might try this author again in the future.

Deliver Us From Evil: A Novel by Robin Caroll is long on Christian values, adventure, and suspense. It is filled with action, all packed into a short period of time.

Brannon Callahan is a woman who has suffered much loss, and Roark Holland is also no stranger to tragedy. When they meet, there is an instant attraction. They are both committed to their careers. A blizzard brings them together, and their lives are intertwined as they work together to bring down a human trafficking ring.

Scripture quotations abound, and there is much to be said for the lessons of this book. I didn't feel compelled to give it a five star rating, however. At times, the action seemed too contrived and a bit unrealistic.

Cheryl says

U.S. Marshall Roark Holland still has nightmares about Mindy, The little girl that he let down. He was

supposed to protect her. This time he has a second chance at redemption. His latest mission is to transport a heart to a key witness, who has heart disease and will die without a new heart.

Brannon Callahan is tasked with the job of flying Roark and the heart safely to their destination. When the chopper goes down, leaving Brannon and Roark stranded, they will have to work together if they want to live.

Mai has no clue where she is. All she knows is that there are some very bad people, who want her to do bad things. Child trafficking is illegal. To find out if Roark, Brannon and Mai survive, then you need to pick up a copy of this book.

Wow...Deliver Us from Evil will have you talking about this book for a long while to come. This book started out with a big punch of adrenaline and didn't let up till the last page! Roark and Brannon are both very strong, independent characters. I thought they will not work well together; they will end up butting heads. I was wrong as they make a great pair. There were really like two stories going on at the same time...the one with Roark and Brannon and the one of Mai and the other girls. What made this book so good is that the characters were engaging as well as the fact Deliver Us from Evil touched on a topic that is so powerful and sad that it makes you cheer for the good guys to win. I hope to deliver me some more of Robin Caroll and her books.

I can't help it. I love this story--love the interplay between Brannon and her partner, Lincoln, and the romantic tension between Brannon and Roark is great--keeping a delicate balance as the story travels the painful and disgusting truths of child trafficking. Robin Caroll is a skilled suspense writer, and this is definitely a MUST READ!

Christy says

I always get a thrill when I feel like I've stumbled upon a real gem in the vast collection of Christian fiction. With so many books available that I could spend my time reading, I always appreciate it when I come across one that I will recommend over and over again. Let me tell ya....Deliver Us From Evil was such a book. The suspense was top-notch, the action intense, and the romance.....oh, the romance (giddy smile) took my breath away.

I have to admit, though, that the beginning of the book was a little slow. I could sense that the heart-pounding action was within my grasp, but it took a little longer than I wanted for it to arrive. Once it did, it was all downhill from there. :o) I literally had to make myself put it down at midnight so I could get some sleep!

I have no doubt that I will be reading more of Robin's books in the future, including the rest of this series. There was a little teaser at the end that leads right into the next book in the series, Fear No Evil. Brannon's close friend, Lincoln, was one of my favorite characters in the book, and I'm anxious to see what will happen to him next.

So in case you're still wondering whether or not you should try Robin's books for yourself, let me end the suspense for you right now.... Yes!!! You should! You should go to the store right away and get a copy for yourself right now! :o) You'll have it read in no time flat, I promise you!

4.5 Stars

Julie Graves says

U.S. Marshal Roark Holland has recently come back to work after losing a family in the Witness Protection Program. The death of the young child haunts him.

Brannon Callahan is a Search-And-Rescue helicopter pilot who has heart-ache of her own.

While on a mission to deliver a heart to a hospital for a witness in a child-trafficking ring the helicopter that Roark is in crashes. Brannon is the pilot that goes out in the storm to bring he and the survivors to safety. When events happen to cause her own helicopter to be non-Operational they have to hike out of the Smoky Mountains to get the heart to the hospital in time to save the witness.

Woven between Roark and Brannon's story and the story of young girls being sold into prostitution, Robin Caroll weaves an exciting, heart-breaking tale that places the reader at the edge of their seat until the very end.

From the Prologue straight through to the Epilogue this story had me! The story had me feeling all kinds of emotions. I was biting my nails in the action scenes. Angry and sickened by the child trafficking. And elated that justice prevailed. I would recommend this book to a more mature audience.

I don't normally read Christian Fiction but this sounded good so I thought I would give it a shot, and it turned out to be a pretty quick and interesting read. It was full of action, suspense, some romance, with a little bit of faith added to the story without being overtly preachy.

The characters were well rounded and believable. I loved the setting of the book, the Smoky Mountains, and that some of the main characters were park rangers. I find myself drawn to books set out in the wilderness and this one was no exception.

The story was intriguing and kept me on the edge of my seat. Lastly it was well written and it flowed easily enough that I finished the book quickly without getting bored with it. I'd have no problem recommending this to anyone looking for a good suspense/thriller type novel.(Library Thing Early Reviewer)

Great read

I absolutely loved this book. Great characters and story line. Will be reading more of Robin Caroll's books. An excellent Christian suspense.

If you're a fan of the suspense genre and are looking for a gritty read minus the sex, profanity and gore – this book may be your answer.

Deliver Us From Evil is a fast-paced story centered around Brannon Callahan, a female search and rescue pilot whose path collides with U. S. Marshall, Roark Holland.

When a government witness comes forth and attempts to provide evidence to the FBI regarding an ongoing child-trafficking ring, he is mysteriously shot on the grounds of the FBI office. With a failing heart, the witness lies in a coma at the brink of death waiting on a heart transplant that is his last hope. As a donor heart becomes available, U.S. Marshall Roark Holland is responsible for escorting the heart to the hospital, but is waylaid when the Life Flight helicopter he is on, crashes in the Great Smoky Mountains National Park.

Brannon and her partner, Lincoln, begin the search and rescue process, locating the downed helicopter and Roark – only to find themselves running for their lives as they are pursued and shot at by an unseen enemy. This story is the perfect combination of suspense, tension and romance as the trio attempts to stay alive.

Virginia says

Search-and-rescue helicopter pilot Brannon Callahan responds to a crisis when another chopper carrying a U.S. Marshal goes down in the Great Smoky Mountains National Park during a blizzard. Roark is carrying a human heart to be transplanted into a government witness whose testimony can break up a horrible child trafficking ring – if he lives long enough. Together they rush to get the heart to the hospital, unaware that a brothel housing dozens of desperate and brutalized young girls is nearer than they imagine.

In Deliver Us from Evil, Robin Caroll has created a fast-paced, riveting story that is both compelling and horrifying. Compelling because of the well-honed skill Caroll expertly uses to draw us into the lives and mission of Brannon and Roark. Horrifying when we realize that the business of kidnapping children and forcing them into sexual slavery is very real, and thrives even in our so-called 'enlightened' society. With the same skill Caroll uses to bring Brannon and Roark to life, she gives us a vivid glimpse into the life of Mai, one of the kidnapped girls who is desperate to escape the brutality that has become a way of life. This little girl's plight will break your heart. I was highly impressed with Caroll's skill in portraying the horrors she

endured without once resorting to relaying the graphic details.

The suspense plot is undergirded with spiritual strength, and I loved the way the characters quote scripture to each other. It demonstrated seamlessly how scripture is an integral part of the lives of believers. Also entwined with the suspense is the romance that grows between Brannon and Roark, and I enjoyed watching their relationship develop. Thanks so much to the B&H Publishing Group for sending me this copy to review. I highly recommend this book to anyone who enjoys romantic suspense. I pray this story touches hearts, and spurs many to action on behalf of the thousands of children who pray daily Deliver Us from Evil.
