Drawn to You: Boxed Set (Volumes 1-3) Vanessa Booke

Your whole world can change in a single moment.

A reckless moment where you let go of your inhibitions and you lose control. I pride myself on never losing control, but somehow, I did with her. I let my desire overtake me, and I took a bite of that forbidden fruit that stood in front of me in nothing but a nightie. I fucked my best friend's little sister, and I regretted it the moment I felt her wrapped around me. Not because it felt bad. No, because, since that moment, nothing has ever felt so right...

My name is Tristan Knight and I'm not your average New York millionaire. In fact, there's nothing average about me. I was born in the projects, and I lived there up until the day I was adopted. My past is a distant memory of fuck-ups and bad luck.

The only thing that kept me from ending up like everyone else on the street was the StoneHaven family. When I met them, I was determined to hate them all. They represented everything I didn't have. Power. Wealth. Control.

At least, that's what I used to think.

Now, as time goes on, I find myself falling in love with their shattered lives... falling in love with the one thing I can't have. Her. Emily StoneHaven.

Emily is a great character and she has been away from him

Can't ruin the story you need to read this series it AMAZING

It's good for the money your paying for because everyone loves an alpha male and love story

Patricia Blevins says

This is a very complex story into Tristian and the way the started out in the world living high an then hitting rock bottom with the circumstances that he gets back and with the fascination he has for one girl.

The story of Gabriella and Liam was one that has been in the making since the beginning of the series. It was so great to get the back story of Gabriella and Emmie it was awesome. This was such a great book I couldn't hardly put it down. Liam went from being a douche to such an awesome man. Can't wait for more this Tory line was just great with all that was involved you learn a lot about this group you didn't know about.

Oh the way Tristian and Emily mess up is so frustrating . All this back and forth between them makes you just want to slap them. Will these two ever be able to get their acts together and find the love that they have both been longing for from one another? Will they get their happy ending? This was a mother great short read could put it down.

Tristan Knight finds himself with a family, a very rich one (the Stonehaven's), while his mom is working as their maid. He even has a little sister Emily who takes up residence in his heart. Emily loves her "adopted" brother Tristan but she also has a crush on him. Then this world is snatched from Tristan but 4 years later he ends up back with the Stonehaven's. This time Emily is all grown up and her infatuation with Tristan remains. Can Tristan keep his distance or will history repeat itself? I'm in love with Tristan, his resilience, compassion and willingness to do anything for those he loves. Emily falls into his protective orbit but can he keep that boundary as he starts to see her as the amazing young woman that she truly is. My heart bled a few times during this journey, will these two star crossed lovers find a way back to each other? Is the pain caused by Tristan's desertion too much to forgive? All of the crazy twists and turns had me captivated from beginning to end.

I liked Tristan and his "Lilypad". It was a very emotional read.

Yet another fantastic well written book by Vanessa. I enjoyed Tristan and Emily's love story as much as if not more than Nick and Bec's story. I can't seem to get enough of Vanessa's books. ❤️?❤️?❤️?

Once I started reading I couldn't put the book(s) down. I was drawn to the book from the get go and had to purchase the next one in the series to find out what happened. Each book is captivating and keeps you wanting more. I read all the books in one day – they are that good of a read! The book(s) hit all sorts of emotions – happiness, frustration, laughter and more.

Each book develops the characters well and you get to know them. The characters are funny, interesting and sexy. I like that the books are written in alternating POVs; you get a sense of what each person is thinking and feeling. There are sexual scenes throughout each book that enhances but does not take over the actual story.

The only downfall to the books is that they were written in separate volumes instead of one book for each (Bound to You, Drawn to You). This is a personal preference however that didn't stop me from grabbing each one and enjoying each book.

I recommend this series to anyone that enjoys a hot and spicy read with some twists and turns. I loved each book in the series!

I fell in Love with this story from the very first lines. Tristan Knight and Emily Stonehaven are the perfect example of "Love knows no Limits." Time, age, a dark past, painful memories, and the memory of the first love lost, seem to be more than enough for any person to give up, but not this time. Vanessa Booke does a wonderful job in bringing these characters to life, and make us join them in a story that takes you along on their path to find each other, once again. I loved Tristan from the very first time he appeared in Bound To You as Nicholas Stonehaven's best Friend, ever since then, I have become so attached to him that I wish I would see him in every book that this wonderful author shares with us. I really need more Tristan and Emily!!! Loved the story, the plot, the struggles and their Love, all together!! Awesome read!!!! More Tristan Please!!!

I loved this boxset of goodness.....

The push and pull between these two characters is amazing intense and hot hot hot !!!! for something that should be so wrong.... It's so right.

The best friend and the little sister sounds like a story you've read before, right ?

Wrong I have loved the story with these two and the fact there's more to come from Vanessa with them shows how great this story really is.

Once again Vanessa has delivered an exceptional series Tristan Knight is a God there is nothing you wouldn't like for him to do to you I absolutely am in love with each and every character. Definite must read you will fall in love!

Amazing

Omg loved this story. I thought I loved Nicholas but I think Tristan does it for me. Great story line and I so love all the characters. A must read.

Read as individual books.

Drawn to You: Volume 1

I have read the Bound To You books and loved them so I know I would love the Drawn to You books. I have been waiting for Tristan's story. I love Vanessa's writing and it was well edited. I could feel the tension between the characters. The only thing that didn't make it a 5-star for me was the fact that it was really short and I would have liked the sex scenes with Penelope to be a little descriptive. I am looking forward to the next installment of Drawn To You to learn more about Tristan and Emily.

Drawn to You: Volume 2

The continuation of Tristan and Emily's story. I really like the storyline of this series so far. I could really feel Emily's anger and Tristan's emotional struggle. The only thing that didn't make this a 5-star for me was that it really needed a little more editing and there were a couple of places that had continuity issues. There is

a four year jump in the book where Tristan goes to Europe for school and art. I think it would make a great novella or short story to see what Tristan's escapades were during this time and also to see how he got into BDSM. I am looking forward to the next book in the series to see what happens between them.

Drawn to You: Volume 3

The conclusion of Tristan and Emily's story. I really like the storyline of this series. I could really feel Emily's anger and hurt (yes, I cried – I don't normally cry when I read books) and Tristan's emotional struggles. The only thing that didn't make this a 5-star for me was that it really needed a little more editing and there were a couple of places that had continuity issues. I am left to wonder how Nicholas will take the new?!?! Will it be revealed in the conclusion of Nicholas and Rebecca's story?

Vanessa Booke really knows how to take you into a situation you would love to be drowning in. Besides the occasional frustration and pain for both Tristian and Emily the love story that blossoms over many years is magical. Vanessa takes you there to witness every moment, good or bad. Makes you feel everything at every moment. I loved this series. Amazing.

Great Read

I really enjoyed reading these 3 Volumns. I can't wait to read the next volumes. Knowing there is more to read about Tristan, Emily, Nicholas and CiCi, I know that I will not be disappointed. I know others will enjoy reading these books. I will recommend this book to others!

Sue Paulsen says

Vanessa Booke has done it again! The Drawn to You series is AWESOME! Well written as always! Her writing really has a way of pulling readers in!

I loved Tristan and Emily! The tension between them was frustrating; yet HOT at the same time. What a ride it was watching how their relationship played out. I loved the other characters too...Augie, Ceci (though some of her antics..lol..) and, of course, Nicholas, who was totally swoon worthy as always!

I love the journey that Vanessa takes the reader on with her stories. I can't wait to see where she takes us

next!
