Fahrenheit 9/11 Michael Moore

One of the most controversial & provocative films of the year, Fahrenheit 9/11 is Academy Award-winning filmmaker Michael Moore's searing examination of the Bush administration's actions in the wake of the tragic events of 9/11.

With his characteristic humor & dogged commitment to uncovering the facts, Moore considers the presidency of George W. Bush and where it has led us. He looks at how & why Bush & his inner circle avoided pursuing the Saudi connection to 9/11, despite the fact that 15 of the 19 hijackers were Saudis & Saudi money had funded Al Qaeda. Fahrenheit 9/11 shows us a nation kept in constant fear by FBI alerts & lulled into accepting a piece of legislation, the USA Patriot Act, that infringes on basic civil rights. It's in this atmosphere of confusion, suspicion & dread that the Bush Administration makes its headlong rush towards war in Iraq & Fahrenheit 9/11 takes us inside that war to tell the stories we haven't heard, illustrating the awful human cost to US soldiers & their families.

Erik Graff says

I saw this with a friend at the 400 Theatre in East Rogers Park, Chicago. If anything, it was too light and it wasn't harsh enough. We have, after all, invaded two countries on the specious basis of the events of 9/11.
