Reggie Overton says

This book is not only a great representation of the movie, but it is a good teacher of marine life in the sense that a young child can understand. I can appreciate a Disney book that developed its own illustrations rather than taking screenshots from the movie and this book does a great job of it. Everything stands out with spectacular color and depth. You really get the sense of being in the deep ocean along with Nemo and his friends along his journey. The story teaches courage, loyalty, and friendship in a great way.

Conquering Dinner says

I love to use Disney movies to enhance a learning concept. In this case, Finding Nemo is a great enhancement to any study of the ocean and sea life.

Being able to read the story to my children before they watch the movie and after also is a great way to comfort a child who may be fearful of certain parts of the movie.

Bridgette Elston says

Follows the movie well.

Rayjan Koehler says

Listing is wrong- the inside of the book says first Published September 6th 2006 not 2010.

That little mix-up aside...

Another fun adventure read for kids, and who doesn't like Disney stuff??

Eva Leger says

I love anything Finding Nemo and so does my daughter so we were biased before ever opening the book. It could have been a little better in my opinion but does stay close to the movie which my daughter liked.

Vanessa Beerman says

Another good summary of the movie, but after reading "Disney After Dark" I have a weird feeling about Disney.

Joshua's Mom says

My 4 year old has yet to see the movie but it is a great book all on its own.

Slayermel says

My daughter brought this book home from the school library. It's a shortened version of the movie, but I found the story still very wordy for her as a Junior Kindergarten child. Great illustrations right out of the movie though which she enjoyed talking about, especially Bruce the shark.

My love of reading started when i was young, and it gives me immense pleasure to provide books to Spread the Word Nevada, an organization that passes them on to children in the community. They are a terrific organization supporting an important cause. If your local I encourage you to check them out. For those living further a field, look in your own community, their may already be a similar program in place. And if not, you can always help start one.

Myself, I go out on the weekends and shop thrift store and bulk book lots to rescue books and donate them. Sometimes I'll find a book I remember reading when I was young and will read it again before passing it on.

I don't rate these books using my normal scale, instead I give most of them three stars. This isn't a Criticism of the book, simply my way of rating them as good for children.
