## Jim C says

This is an anthology set in the world of Dragonlance. This takes place after the Chaos War. The gods have left and magic is disappearing.

I usually give a short story collection a three star rating because you will have some stories that entertain you and some that don't. That was the case with this collection. This collection was pretty much split down the middle with its good and bad stories. There is a short story about Kang and his army who is the main character in two books.

There are two stories that stood out over the rest. "Tree of Life" is a beautiful touching story about sacrifice and if one can do it at the cost of his/her life. "The Road Home" is the other story about revenge. I loved how the author ended it and it fit in perfectly with the development of the main character.

With the title of *Heroes and Fools* there are several silly stories. "Much Ado About Magic" was a little too slapstick for me and was probably the lowpoint of this collection.

If you are a fan of fantasy there are some stories that you will enjoy. This collection isn't just for Dragonlance fans but all fantasy fans as some of these stories could have been part of any fantasy realm.

Read the first 3 stories...Ugh just not feeling them. I prefer a whole tale, not just a few pages. Moving on to another DragonLance book.

what can I say. I like fantasy and am willing to punish myself by keeping reading these books. Why do they insist on keeping Horner as a writer. Ack. Please read carefully and try to keep open mind you are wasting precious brain power by reading this.
