Hunted Alex Duval

Jason Freeman is torn, wondering which natural wonder is more deserving of his attention — the awesome-looking Malibu surf, or Sienna Devereux, who lounges on the beach. He lives in Malibu, has a gorgeous girlfriend and some very cool friends — most of whom just happen to be vampires.

The vampire clique are settling in for a good summer. Jason is hoping that things will be calmer than they have been over the last few months.

But their peace is shattered when evidence emerges that there's a vampire hunter in town. Friends are going missing and then reappearing with no real memory of what's happened to them. What's really going on?

Ceejay says

The sixth, and final chapter of the Vampire Beach books, is as much of a guilty pleasure as the first five books. These "written by committee" novels will never be considered great literature, but they sure are fun to read literature! If you like teens, vampires and romance all wrapped up in one series, then these are the books for you. This final novel involves vampire hunters with an interesting twist. I'm glad to say that this novel wraps up all the loose ends in an enjoyable fashion. Go forth and read!!

Nikki Fulton says

Great ending to the series, I liked this one the best.

Sudichka says

Meh, it was fun. Some random book I picked up in the store and since it was in the genre of vampires, I thought maybe I should try it out.

But, I didn't know it was the last book in a series called 'Vampire Beach'. Haha, Vampire Beach?

So it was confusing here and there, I didn't read the first book or anything in the middle.

Anyways, the MC was good. He was cool and it wasn't a big deal. Nice action, nice thoughts and boyish.

So in this book, it says the romance is passionate.

Well, um, what romance?

Yah sure, I don't mind those 'teen-modern-romance' or the 'gf-bf' thing, but it wasn't hot. Yah, it was just what you call normal romance. Or maybe it's just me. I mean, after reading this book, I found out it was the sixth in the series and I pushed in for more information. I also found out that the romance started in the previous books, ones I haven't read. So, this book didn't have a very strong taste for romance.

I liked the plot. It was cool. Mystery, suspense and action altogether! I especially loved the part in of the last pages, where Duval describes the scene in slow motion. That was epic!

Overall, good.

The next thing is, I found a book called Ritual and Legacy, which is two books in one. I may plan on reading it, for clearing up my confusion on the char and romance, and since the book is available for me.

Caitlyn says

A must read!!

Meredith says

I've had this series on my book list for a couple of years. It wasn't too bad, but I probably would have enjoyed it more when I was younger. Overall, it had some fun characters and was a quick read.

Olivia Eaton says

I lovvvee thhhiiisss boookkkk!!!!!!!!!!!!!!! xxxxxxxxxxxxxx

Erin says

Wahhh! I can't believe this series is over! I sincerely love Vampire Beach...the characters are fun, it's like a throwback to the 80s and yet the trouble that follows the vampires makes sense in a modern setting. This book is a fabulous end to the series. I will really, really miss these characters.

Melinda Elizabeth says

This book was hilarious, and thankfully very short. Love that everyone is a vampire expert in these post twilight days, I prefer my vamps broody and dangerous so these school aged vamps are funny :) YA readers would love these books for sure!

Dean says

if she ends the seriss i will go mad there my favourite books pluu sinne is pure hot but there the best books in the world hunted is my 1st favourite legacy is my 2st one i recomend you read them.ps if your guy the part with addam in the store with jason buying comdones is so funney case adam is a kind im cool kinda sensiv person

Sarah says

What does anyone think of this book???

Heather P says

This was my favorite book of the series! I just can't get over the fact that they are clean and fast to read :)

Shaft says

Can't believe it is over, really enjoyed this series and now I feel bad that I took so long to pick up the first one as one I started I think I read the whole series in 3 months alongside another 20 books. This reminds me a bit of Private well before it went off the rails in the final few books, just a simple teen page turner that an old man like me can still find intriguing. I just want to be able to write this well.

Theresa says

Great last (unfortunately) book of the series. It's the end of their senior year and the gang are feeling melancholy. Until the adults all leave for a secret meeting and Zack fills them in on why. Then things very quickly get complicated and dangerous.

Through the whole thing, Jason and Sienna are just trying to find some alone time before having to go off to college. The events leading up to and stopping the various tries are frustratingly cute.

There's not much I can say that I didn't like about this story other than that for a bunch of inexperienced teens they sure managed to defeat the high tech bad guys rather easily. Adam finally finds a GF, sort of, but that works out.

The main thing I don't like is that there is no follow up to tell us anything about if/when Jason becomes a vampire and inherits his Aunt's wealth and legacy.

Fave scenes: finding Van Dyke in the shower room and the guys sneaking into the warehouse.

Lisa says

This was a very enjoyable read. It was quick and easy to read and the action was fabulous.

Chloe says

I read this book a while ago and I suppose its ironic that this was the first book I'd read of the series. I really

loved this book and I would definitely like to read the rest of the series which is quite odd for me because I'm not normally into supernatural books so kudos to the author for changing my mind with this lovely piece.
