Telling Marilyn Reynolds

At the age of twelve, Cassie is old enough to babysit. But when the father of two children for whom she babysits fondles her, Cassie is too confused and embarrassed to know what to do. She becomes more and more frightened as he continues to aggressively molest her. At last, she tells her teenage cousin, Lisa, and together they try to find ways to cope. Lisa realizes the escalating situation is more than the two of them can handle on their own and she breaks her vow of silence. The story explores the conflicting emotions of a young adolescent and the concern of parents who must protect their daughter's privacy and her well-being. In spite of the horrors of molestation, this is ultimately a story of healing and hope.

I found this book on book share. Young girl is violated by the father of the children she is babysitting. This is a good book, if you don't want to read a bunch of graphic language.

There is this girl who is twelve and is molested by her neighbor. When they moved in she was happy to go over to their home and spend time with the family but when the molestation starts she feels trapped and can't do anything about it. She doesn't want to tell because she is afraid of what would happen. Reynolds writes about how she goes through this and her sufferings. When the girl finally decides to speak she has to build up courage and Reynolds writes about it and it is very sad to read.
