Meghan Flanagan, a vet nurse in Townsville, Australia, becomes part of a love triangle. She is engaged to Lachlan "Lachie" McGuire, owner of a station in the outback of Northwest Queensland. When she goes there for two weeks, she meets Lachie's brother, Darcy. There is an instant attraction between Meghan and Darcy, but of course nothing can happen because she's engaged to Lachie. Darcy seems to be a more responsible and caring person than Lachie, but Meghan is still engaged to Lachie. Meghan loves the outback and she especially loves the horses, but she has to choose which man is the right one for her...or if either one is the right one. The day of her wedding arrives and she still isn't sure. Eventually Meghan chooses the right man for the right reasons. This isn't my regular genre of story, but, overall, I enjoyed this story. I just didn't like to see Meghan and Lachie sleeping together. I loved Lachie and Darcy's mother, Harriet. She is so loving and kind and welcomed Meghan like a daughter. You learn a little bit about the boys' father, Daniel, who is deceased. Because Lachie was the heir, Daniel was kinder to him and treated him better than he did his other sons. The author has given wonderful descriptions of the land in the outback, the drought, the animals, the people, and camp drafting. I received an advanced reader copy of this book. The opinions are my own.

Genuinely an entertaining read. The author has crafted an easy to read story with appealing characters. Set in rural Australia the authors description of the countryside enables the reader to feel like they are on an outback property. It feels like the author has experience with the setting and this entices the reader even more.

The relationship between the two main characters is complicated and intriguing. The reader wants to know more about Megan and Darcy and his family. You cheer the heroine on and sob when things don't go to plan.

I thoroughly enjoyed this read and hope the author plans for more in the series.

Who doesn't love the Australian outback and sexy sensual men in need of the love of their life?

### **I LOVED IT !**

I LOVED It !

First time reader of Sarah Williams, and was so into this story. I highly recommend it, You won't be sorry.

So refreshing that no where in the story did they take The Lord's in vain, Thank You for that.

The story had good flow. Very fresh story line. The characters had good chemistry.

Such sizzle and sexy times ( just enough .)

I LOVED reading about Australia.....just WOW. Very relatable characters. Loved the whole close family ties, can't wait to read more in this series. It's by far the best read I've read this year.

Totally WORTH your click.

If you like cowboys, the country life, a great love Story with a Slow burn. It will be worth your time..

It's not very Fast paced as most like. But I enjoyed the subsidy and hanging on to every word, to just draw out this little gem of a book.

Thank You for the adventurer Sarah Williams.

Any time I see a horse on cover of a book, it makes me want to scoop it up. When I read that this book was a girl falling in love with her boyfriend's brother, I was intrigued.

Lachie and Meghan had a run away romance. They dated only a few short months before he proposed- without a ring. Then he brought her to Brigadier Station (that's Australian for ranch) and she met his mother

and brother and fell in love. (pun intended).

She and Darcy became best friends and it was obvious that they were made for each other.

Through the whole book, I kept wondering what Lachie would do to make the relationship end. Truth is, all those terrible things I imagined never happened. The story allows us to still like Lachie but also see that he is not right for Meghan.

The climax had me seriously on edge. If what I thought was going to happen to Lachie happened, I probably would have thrown the book. Believe me, I was swooning over Darcy almost as hard as Meghan was, but Lachie didn't deserve anything horrible.

I'm glad it all ended happily. I can only assume that there will be another book, and I will happily read that one too.

### **5 Stars**

What a fabulous beginning to the Brigadier Station series. I enjoyed it so much that I started this in the morning and finished early afternoon. The story progresses fairly quickly, but the author fills it with wonderful character development and twists and turns. Although the story threatens the reader with a frustrating love triangle, Williams never crosses dubious lines or makes any character the villain. It's handled with respect to each character and positive resolutions. All while rendering a sweet and compelling love story. I'm in love with these brothers and can't wait to meet Noah in the next book. (This is my voluntary and unbiased review of a complimentary copy of The Brothers of Brigadier Station.)

There is nothing like the K.I.S. principle. Sarah has certainly kept the ancient love triangle simple, however don't be deceived. She adds a slight and rosy flourish that will leave you with the question, "When is the sequel coming out?"

Easy to read this book was a lovely representation of the Queensland Outback. I love Darcy and I secretly hope he gets a second book. It was great that part of the book was set in Townsville as I'm familiar with the area. I really hope Sarah Williams keeps writing because reading The Brothers of Brigadier Station was a great way to spend my afternoon.

Sarah Williams debut novel takes you into the North Queensland outback. Horses, station life and family take centre stage. The characters are endearing and you are immediately drawn into their stories. Each chapter takes you deeper into their lives and keeps you turning the pages. Loved it, bring on the second book. :)

A refreshing and 'feel good' book set in our very own outback. When putting your heart first, matters.

## **Terese Stockdale says**

I enjoyed this book. The characters were likeable The setting was romantic and relatable being from Townsville and having visited Cloncurry and Richmond. It was unfortunate about the editing as there were a few spelling and grammar error but I'm told that was not the fault of the author.

## **Theresa Smith Writes says**

The Brothers of Brigadier Station is the debut Rural Romance by North Queensland author, Sarah Williams. I always love to read a novel written by a fellow Queenslander, particularly if that novel is set in a location I'm familiar with, which this one is, since I currently live in the North West Queensland outback.

Sarah Williams has done a great job with her depiction of Country life. There is a particular focus on the harshness of drought, with great detail on the effects on the economy and livelihoods of rural residents and land owners, as well as the environmental impact and the changing landscape. I liked how Sarah didn't shy away from telling it like it is; the selling up of properties to overseas investors and landowners being forced to kill their animals as a means of preventing their extended suffering as they slowly died from starvation. Novels that paint such an accurate picture are so valuable to our Australian literary scene. Life in truly remote areas is largely inaccessible for many Australians, who then get their impressions on what life must be like from the media and other forms of entertainment. I applaud Sarah for depicting this so well, as impressions of the country and country life are all too often not that accurate.

Likewise, the role of women on the land is represented well within this novel. Meghan, the main character, makes an observation on the lives of women that is quite telling and a great piece of writing from Sarah. She muses on the different demands placed onto a woman's time, particularly if you live so remote that your children can't even attend school every day. It certainly is a different kind of life, and I like that Sarah didn't romanticise it. Once again, she told it like it is and let the truth speak for itself.

In terms of Meghan, the main character, I was in two minds about her for the entire novel. I found it interesting how Sarah explored the notion of her falling in love with the country way of life, more than her actual fiancé. I can see this happening in many cases, particularly when a person is searching for something they feel is missing from their life or if they don't feel any strong attachments to a place because they no longer have any family of their own around. For Meghan, she wanted what Lachie could offer her more than she wanted Lachie, it just wasn't all that obvious to her from the outset.

The relationship between Meghan and Lachie was not executed all that well, and I feel the novel suffered slightly because of it. There just didn't seem to be any bond between them and there was very little couple interaction at all. Lachie was immediately depicted as uncouth and selfish, which seemed odd because if that was his regular personality, then surely Meghan would never have gone out with him in the first place. His change in personality seemed a little too convenient, more of a catalyst to pave the way for Darcy, who by comparison, was entirely perfect. Meghan's immediate attraction to Darcy is not a character strength. It made her seem disingenuous right off the bat and I found it hard to believe that any woman would be so affectionate with her future brother in law, particularly when meeting him for the first time. Kissing cheeks, hugging, touching scars, flirty banter; this was red flag raising for me and consequently, did little in the way of enticing me to like her.

In terms of Darcy, he was a very likeable character. I took great interest in all of the descriptions of camp drafting and life on the land from his point of view, and once again, Sarah's interest in what she was writing shone through. She has a great way of weaving this into the narrative without it sounding too descriptive. Given that this novel was so very Australian, I felt disappointed that US spelling was used throughout. Reading Mom, instead of Mum, constantly pulled me out of the story, diminishing the authenticity that Sarah had clearly worked so hard to achieve. The local feel was compromised, and people driving around in trucks instead of Utes likewise affected the authenticity of this Australian rural story. I feel that whoever advised Sarah to do this has done her a disservice. Our media is saturated enough with US speak and US culture, to dilute our own in order to cater for the US market just makes me feel disappointed and quite frankly, more than a little annoyed as well. If a reader from the US wants to read a story about the Australian outback, then surely they would appreciate the greater authenticity that having Australian language would lend to the story? Personally, I have no problem with reading US language, providing it is within setting and context. Sadly, this gives the impression that *The Brothers of Brigadier Station* has been written by a US author. *The Brothers of Brigadier Station* is indicated as being the first in a series about these brothers. Congratulations to Sarah Williams on her debut.

*The Brothers of Brigadier Station* is book 28 of my 2017 Australian Women Writers Challenge. #aww2017 Thanks is extended to the author for providing me with a copy for review.

Romance blooms in western Queensland. Rural Romance is not a genre I usually read so I was surprised at how much I enjoyed my foray into the country. While it sounds pretty dusty & desolate out west the lifestyle as described by Sarah Williams captured my imagination. Meghan Flanagan is looking for a new start, romance & to become once again a part of a family. Throw in two handsome brothers & their hospitable mother & Meghan's future seems rosy. But is it?
