“People die or leave when you need them most. Nothing is ever certain. Nothing is ever sure.” – Kailor Smith

When Kailor Smith’s mother dies, her life crumbles. Completely. Still looking out for her in death, Asia sends Kailor on a journey of self-discovery. The journey, meant to be a six-month path of fun and finding purpose, leads Kailor to Finley Trails where she temporarily lives with her brother Kai... and his best friend and bandmate Zion Johnson.

Zion Johnson is convinced that he has only two things to offer the world – his music and his manhood. Nothing more, like love, but definitely nothing less. After losing his parents at a young age, he’s convinced it’s his job to protect every damsel that comes his way. Even his best friend’s sister. No matter how much his best friend wants him to stay away.

As Kailor and Zion’s paths collide, they find themselves on a journey of healing and love together. There’s just one problem; their union is forbidden. Not only could their relationship destroy Zion and Kai’s friendship, but it also has the potential to ruin their band and all of the success they’ve built. The odds are stacked against them, and for a while they are even at war with their own feelings, but Kailor and Zion must choose between love or the numbing pain they have both accepted as their truths.

I absolutely enjoyed reading Kailor and Zion's story. I enjoyed watching them both grow into exactly what the other needed. Kady became everything her mother knew she would due to Zion pushing her to blossom. Zion stepped away from his fears and learned to open up and talk because of the presence of his Kady Baby. I was over Kai the first time he tried to keep them apart. I completely understand being protective of your little sister, but dude let that girl live her life. It's funny how he thought he was running something, but Zion was just trying to keep the peace because of Kady.

Everything about this book was breathtaking amazing! Loved every bit of it. B.Love sure does have a way with a romance novel. Can't wait for the next standalone

Quite the magical love story.

I loved these two. B never disappoints. It's so much detail that is in this story, it'll make you feel like like you're really in "Finley Trails."

Unconditional love

The Love We Seek: A Forbidden Love Story by B. Love is a good read. It's a emotional, connection, commitment, communication, forgiveness and heartbreak from this book. B. Love teaches her readers how the communication and understanding are the most important for relationships.

Kailor and Zion have a good connection with friendship and relationship. They have their ups and downs but they realize that the communication is the most important for them. They're understanding, commitment and forgive to each other but they're not afraid to telling their goals, and loss. I understand that Kai is good protective and good brother to Kailor.

I didn't like Kailor's step father and biological father because they weren't there for her. I can't wait to read part 2 of this book.

Good read:

Happy Tears

I cried the whole time while reading this book. My gown and pillow are wet with tears. I absolutely love this book. Zion and Kailor were absolutely adorable! Talking about some developed characters, B I could punch you in the face honey. You are the only author I know that can make love and music feel like you're cheating in them; like you can't be with the both of them. If any of you decide to read this book and don't cry, you need to be slapped lol. It's that good. I recommend this book to everyone; especially the mushy people. Just be prepared to go on and emotional roller coaster.

Love ❤

This story is about a 21 year old woman, named Kailor. Kailor's mother has passed away recently and this has completely caused a shift in her world. Upon finding what her mother "left" behind for her, she embarks on a journey of self discovery. & I enjoyed every bit of her finding herself & Zion ❤

There were so many things that made this a great read. B gave us characters that we watched grow throughout the story. In addition to great character development, we were blessed with a well executed plot! We even got someone to hate because I literally CANNOT STAND Kai.

If you're a romance junkie, this is definitely a must read! Can't wait to hear from my girl Frankie next!

Another amazing story

B. Love knows she can tell a story and have you feeling like you know the characters. This story flowed so well that I was upset when I read "pause". It was written beautifully and the characters were developed well. I fell in love with Zion's and Kailor's story. I highly recommend this book.

great read

of course you never disappoint and this book was really good. Kai was so against Zion and Kailor being together in the beginning I wanted him to but out. I'm glad that they got it together in the end and I can't wait for more from these guys. I can't wait till Kai find love at his door.

Good love story.

This was a very excellent read. It was short and sweet. I liked the main couple love. I'm glad they found each other because they both helped each other out. Great job to the author.

The Love We Seek is the first novel in a standalone series by B. Love. We meet Kailor, a young woman reeling from the recent loss of her mother. Life leads her to Finley Trails where she goes to stay with her brother and his band. One of his band members, Zion, peaks her interest almost immediately.

These two quickly begin a...friendship that is about healing, surviving loss, and living life but also stretches the bounds of love. A friendship that is firmly forbidden by Kailor's brother, Kai.

Kailor has lived a sheltered life until her mother passed away. Zion is an unexpected yet calming presence as she works through the next phase of her life. Both characters sought a love that they had longed for (even if unknowingly) and never experienced that they found in each other.

These two should not be together, more people are against it than they are for it. Kailor has to learn to trust Zion, to not immediately walk away because of fear or lack of information. Zion must learn to open up his heart to another and experience feelings he's long shut off to the world. They both have to believe in their connection and drown out the outside opinions that don't quite understand their bond.

In The Love We Seek, Individually, both characters stood out. They were carefully developed and so even when I was annoyed with their decisions or wanted to shake one of them over some BS, I understood their motivations and their way of thinking. There were also really solid secondary characters and I'm definitely interested in reading their stories.

This was cute but a little bit deceiving!!!

When it was said that it was a stand alone I jumped on it but after reading it, falling in love with Zion and Kailor, and at the end, it was mentioned if we wanted to know more about there love, read book 2, I felt deceived because there wasn't going to be any way for not reading book 2 as these characters were the bomb"...

It was very refreshing to have so many characters involved and yet to be able to concentrate on these two was awsome. You really could fall, laugh and relate to them. I thought these two were the perfect combination.

Mama knows best

People may die or leave when we think we need them most but God is always on time. Zion was sent right on time for Kailor. He brought her out of that shell and had her living her best life. Yea she ran but it was just a need to analyze.

Hater a** Brother Kai he was doin to much....

Dee Cherry says

This was a good read though there were some sad, tear-jerking parts. I was hoping Kai would mark off some of her bucket lists items & find love. Nicely written enjoyable read.
