It's true. The Chilton gods seem to get great amusement out of putting Paris and me in the same setting, be it academically or socially. And they're also bestowing their evil charms on my mom, who's been told by Headmaster Charleston that she needs to be more involved. So she's working on being a "Chilton mom," and I'm trying to be a "Puff." It hasn't been easy for either of us, especially with the distraction of my debutante ball, the arrival of Luke's nephew, Jess, and Tristan's return to school. What's Harvard?

Sarah says

As a huge Gilmore Girls fan I was so excited when I found this book on a shelf in a used book store! This book is like reading episodes of the show but from Rory's viewpoint and with added details that give more insight to things that happened on the show.

Eliza says

this is my favorite tv show ever!!! it is funny and interesting
but this book is so bad it not at all like the tv show don't read it!!!

Colleen says

As I think I've said before if you love Gilmore Girls the TV show these books will be a really enjoyable for you. I love their mother daughter relationship, their witty sarcastic playfulness, I just love the Gilmore Girls. This read coupled with the fact that fall is in the air has put me in the mood to rewatch my Gilmore Girls DVD seasons.

Christy says

There wasn't enough Jess/Rory interaction. These needed to continue into season 3 so that I could read about those. They're some of my favorite episodes.

Heather says

This is the final book relating to the Gilmore Girls (as far as I know). I enjoyed it as much as the others, even though I have seen the entire series and therefore knew everything which happened in this book. Still a good, quick read.

Christina Mages says

I wish there were more books in the series. I love these books.

Sarah says

I like the show better than this story.

Edel says

This book is a must for all fans of the Gilmore Girls television series. Nearly 100% the same as the tv series but nice addition to my Gilmore Girl collection :0)

Dana Al-Basha ???? ?????? says

I need to get the rest of the books!

Lynda says

Loved this show and am sorry they didn't continue the book series.

The Third Place A Teen Library says

F GIL bk. 4

Megan says

This is one example in which the TV show is actually far better than the book.

Leanna Hiner says

This book is pretty much the exact script in book form of an episode of Gilmore Girls. I enjoy the show more than the book.

Danielle says

So I'm not even going to rate this because I would be totally biased and give it 5 stars just because I love the show. When I say I love the show, I mean I'm **obsessed**. My best friend and I can quote lines off the top of our heads and connect anything, and I mean *anything* to an episode/scene of this show. We plan on finding

our own Stars Hollow, with our own Kirk and everything ;)

This book was good. It was pretty much a "script" from the show. The only difference was it was basically told all from Rory's perspective which I didn't really mind, but it would have been nice to have more Lorelai because she's just awesome and extremely entertaining.
