## From Reader Review The Regiment's War for online ebook

### Jeff Crosby says

I lost track of Dalmas when paperbacks started becoming an issue for my vision, but I particularly liked the Regiment novels. Now with ebooks I may return to Dalmas.

---

### Michael Smith says

This is the third installment in the five-volume "Regiment" saga, and the direct sequel in action to *The White Regiment*. The "White T'swa" -- Iryalans trained by the real T'swi -- have graduated and been sent out on their first contract to a world where an arrogant absolute monarch has invaded a much smaller neighbor. (Smolen, the smaller country, has sympathizers around the world and one of these has taken the contract on their behalf.) The situation is ready-made for the mercenaries' special skills in small-unit actions and Col. Romlar and his troopers are having an increasingly important impact on events -- when the aforesaid monarch hires his own T'swa regiment. Then things begin to get interesting as the two groups of "playmates" join in joyful battle. There are numerous subplots involving individuals, including two in which infiltrators from each side stalk the leaders of the other side. It's a nice wrap-up, and the last chapter will leave you ready to grab the next volume. Dalmas's style is straightforward and he's sufficiently knowledgeable in tactics to completely hold your interest.
