The St. Martin's Handbook

Andrea A. Lunsford

The St. Martin's Handbook Andrea A. Lunsford

Andrea A. Lunsford's latest findings show that today's students write more than ever before -- and make rhetorically appropriate choices in texts they create outside the classroom. "We're in the midst of a literacy revolution the likes of which we haven't seen since Greek civilization," she notes. *The St. Martin's Handbook*, Seventh Edition is the first handbook to help students build on the smart decisions they make as recreational writers in order to succeed in their academic and professional work. And, *The St. Martin's Handbook* is the all-in-one teaching tool and reference that shows students how to write effectively for any purpose.

John says

This has been a great reference on our shelves for many years.

Ruthie Jones says

I had to get this book for my editing class in spring 2007. I have used it constantly ever since for other classes, paper writing, and general reference. Even though this 5th edition is still useful, I would love to get a more current edition. This one is from 2003.

Michael says

Funny how you buy grammar books with the intent of using them but then never really do. It, however, remains a valuable resource...I think.
