Holly Beely says

I loved all the Little Critter books growing up, and now my children enjoy them as well!

Baby Hildebrant says

We love little critter books.

Shauna says

There are many things we all wish to be or happen when we grow up. Love how this book presents great possibilities!

Sariah says

Another bedtime book that my kid loves to pieces. It's a really cute story.

Amanda says

Good in terms of imagination, but not necessarily for occupations which help other people since the first several are all entertainers. This looks at it more from the kids point of view of what would be exciting or fun to do when I grow up- good in itself- but not what I'm looking for as a teaching tool.

Lindsay Monson says

In this book, the little critter talks about all the things she wants to be when she grows up. From leading a parade to having a pet store. She gets so captivated in her imagination of all these jobs she forgets about the present until she gets hungry. Her mother brings her back to reality and is reminded she's not too grown up yet to do all of those things.

Students could relate to this by creating a story book page of what they want to do when they 'grow up'. Then the whole class can put their pages together to create a book.

Lauren says

This book is great for children especially when they learn to start reading. It teaches great morals and ideals

for everyone to have and great general life lessons.

Karen says

Want to read this again. It wasn't among Grace's favorites yet. Try again later.

jacky says

I get Natalie a critter book every once and a while. She asked to hear this one several times. She liked in particular the page about taming the tigers and lions, and she said more than once at that page "try." This covers lots of professions, both the typical ones you expect (like firefighter) and some sillier ones (race car driver). Very gender neutral.

Pam says

Love that this little critter girl has big dreams!

Jc says

Dreaming of the future can be so much fun.

Jessica Nekuda says

this is not the little critter one. he will have a watch and stay up late and go to the corner even

ABC says

I love this book because it shows a little girl imagining all the jobs she'll have when she grows up. Some are quite funny. Children's imaginations are limitless!

Dmills says

A good book for younger students to lead into a lesson about what they want to do when they grow up and how they can work to accomplish that goal.

K.C. says

C loves Little Critter books
